The network offer

The CIPFA Insurance Network (IN) has now been established for 9 years. As a leading network for public service insurance and risk practitioners, it offers a wide range of support and resources that will enhance your team's existing knowledge and skills base, as well as help you develop new techniques and approaches to deal with current and future insurance arrangements.

The IN will keep staff well informed and appropriately skilled to face insurance challenges with confidence. Whether you are looking for solutions to reduce costs of insurable risk, maintain an optimum balance between internal 'self-insurance' and the procurement of external insurance, improve fraud detection, protect your organisations from cyber-crime or introduce innovation in how the insurance department delivers services in the future, membership of the IN will offer you something.

The IN will keep you abreast of technical, legislative and regulatory requirements to empower you to deliver the most cost-efficient insurance arrangements for your organisation. Membership of the IN gives you valuable networking opportunities with many of our events offering a closed practitioner open forum, where you can discuss current issues with other insurance practitioners and experts.

If you would like further information about the benefits of subscribing to the network, please contact cipfanetworks@cipfa.org.
