- Social Value Lead delivering across many locations.
- Led on many social initiatives across my community.

## Women as Carers and Professionals - The Facts

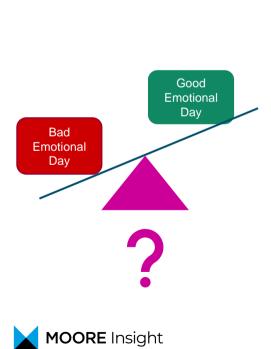

- Seldom do women have just one role
- Caring roles "Block" career advancement for 3 in 5 women
- Cultural expectations more likely to have caring responsibilities
   (holding them back from career advancement):
  - 50% Black, Asian and other Ethnic Minority Women
  - 39% White Women
- Sandwich Carers Parents and Children

Source: <u>www.theguardian.com/world/2022/mar/06/caring-roles-block-career-advancement-for-three-in-five-women</u> (poll by Ipsos Mori of 5,444 people).

# The Pressure is on...

# Think how incredible you are...

- You're not a superhuman, but close
- On many occasions, already run a marathon before work
- Brain is working on a whole new level, dealing with complexities of all kinds daily
- Skills: Constantly problem solving & negotiating
- Emotional Intelligence is Powerful
- Efficient in work no time otherwise
- An important perspective your voice is valuable

## **GIVE YOURSELF A BREAK!!**

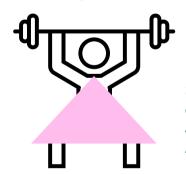

# Simple, Key Takeaways

- Speak to someone if it feels too much overload and emotional burnout is common (links at end)
- You can't be everything for everyone accept it
- Internal monologue take back control
- Let the bad day be, invite the good day back (organise what you can)
- Accept the imperfect
- Speak up! Even if your question feels stupid
- Work culture be open and transparent, don't struggle alone. Built trust with those around you.
- Behind every successful woman...is?

# 7 Leadership Lessons Men can Learn from Women (strong in carers):

https://hbr.org/2020/04/7-leadership-lessonsmen-can-learn-from-women

- Compassion
- Emotional Intelligence (don't command, empathize)
- Be humble. Be yourself.

Yes, it's supposed to be a skirt – why do they only have strong men images?
