

CIPFA North East 10th Annual Conference

Sustainable Route to Recovery

Friday 12th November 2021

The Crowne Plaza, Hawthorn Square, Forth Street, Newcastle Upon Tyne, NE1 3SA

Over the last two years our Public Services have faced and continue to face unprecedented challenges, threatening the way we work, deliver services and serve our communities. Although Covid restrictions have eased, the threat to Public Health remains, compounded by other challenges such as Climate Change, Transport and Economic forces following the pandemic. How we respond in the short, medium and long term will have far reaching consequences both nationally and internationally.

With collaboration, integration and innovation we can bring together cross sector organisations to meet these challenges head on.

Drawing on a wealth of experience across a range of sectors and professions, this one day conference will develop a thought provoking insight into how the Public Sector is responding to an unprecedented time of uncertainty to deliver sustainable services valued by the Public they serve.
