Chair's Foreword - Cllr Samantha Lloyd

The Pensions Sub-Committee has responsibility for the management of all aspects of the Pension Fund and it is my pleasure, as Chair of the Pensions Sub-Committee to introduce the London Borough of Hackney Pension Fund Annual Report and Accounts for 2012/13.

It is pleasing to see that the Fund has seen a significant growth in assets over the year as investment markets around the globe posted strong returns. At the end of March 2013, the Fund value had increased by around 13% to finish the year at a record £954 million. The year started with ongoing uncertainty in investment markets and concern over the outlook for economic growth, and whilst economic recovery is still muted, markets have recovered over the year. In terms of investments we have appointed two new multi-asset managers during the year following a strategic review of asset allocation. As a Committee we are always mindful of the need to ensure that the Fund's asset allocation and investment strategy are kept under review and that the investments deliver the necessary returns within certain risk parameters. The Committee is also very aware of the need to meet its longer term liabilities and has strengthened its governance arrangements over the year and implemented additional Committee meetings to focus solely on strategic issues for the Fund.

It seems that pension issues and in particular public sector pensions have been constantly in the news. Arrangements for a new LGPS scheme in 2014 have been consulted upon and final regulation on the benefits and contributions structure are expected shortly with further consultations due on governance to follow. The Committee has been fully engaged with the changes and what this is likely to mean for scheme members and employers and are working hard to ensure that the Fund is fully prepared to meet the new challenges that LGPS 2014 is likely to bring. Readers will also be aware of press coverage on wider discussions around increasing efficiency and cost saving for the LGPS culminating in a call for evidence from CLG Minister Brandon Lewis. The Fund has been working closely with other funds both within London and nationwide to ensure that it is involved in the move to improve efficiency and deliver costs savings. The London Borough of Hackney has been a lead member of the National LGPS Frameworks in successfully delivering national frameworks for the procurement of services for the LGPS, helping to drive through increased co-operation amongst funds and cost savings.

The Committee remains fully committed to ensuring that it fully prepared to meet the challenges ahead and that it receives the necessary training and development required to meet the high standards required for governance of the Pension Fund. It was gratifying to receive recognition by achieving 'Highly Commended' in the Knowledge and Skills category at the LGC Investment Awards 2012.

I would also like to take this opportunity of expressing my personal appreciation to the members of the Sub-Committee, our specialist advisors, the Corporate Director of Finance and Resources and his staff for all their hard work over the past year.

Councillor Samantha Lloyd

2012-2013 Highlights

The value of the Fund increased in value by 13% in 2012/13 and ended the year at a record high of £954.3m.

The Fund increased in value over the year as investment markets saw some recovery despite ongoing concerns about the Eurozone debt crisis, although Central Banks have continued with interventionist policies keeping interest rates low and quantitative easing (QE), with even Japan announcing a programme in the last quarter of the financial year. The US economy has also started to show some economic recovery, although there were some concerns that Chinese growth was stalling. The QE policies in the UK, pushed government bond yields to low levels pushing further pressure on defined benefit pension schemes liabilities, with even the Bank of England acknowledging the detrimental effect that QE was having on pension funds.

Following a review of asset allocation and a decision by the Committee to invest in further alternative strategies in the previous financial year, the Fund invested in two new pooled funds in 2012/13 with multi-asset absolute return strategies, namely GMO and PIMCO. The Committee continues to keep asset allocation and investment strategy under review with dedicated Committee meetings to consider wider strategic issues for the Fund.

Total scheme membership increased marginally over the financial year, although the split of membership between active/deferred/pensioner remains relatively stable. Concerns over large scale opt outs have not occurred to date and worries about contribution increases have been allayed at least in the short term. The 2014 LGPS changes should also ensure that the lower paid are protected from any increases in employee contributions at least in the short to medium term. The new scheme will also introduce the option for members to adopt a 50/50 approach to membership, i.e. they can pay 50% of normal contributions in return for 50% of the normal pension accrual. In addition, it is unclear at this stage what the impact of auto-enrolment will be on scheme membership with the main employer in the Fund (the Council) due to undergo auto-enrolment early in the new financial year, although this may actually see active membership increasing if recent experience at other Funds is carried through.

More importantly the Fund remains strongly cashflow positive with contributions into the Fund exceeding benefits paid by £16.4m over the last financial year. As the Fund approaches the 2013 actuarial valuation, it is clear that whilst assets have seen significant levels of growth, so too have the Fund's liabilities, it becomes increasingly important to recognise that whilst the deficit may have deteriorated further, the fact that the Fund is cashflow positive, even before taking investment income into account, it will continue to be able to meet its benefit payments over the short to medium term without the need to significantly amend its investment strategy.

Management Structure

The London Borough of Hackney Pension Fund is part of the Local Government Pension Scheme (LGPS). The LGPS is governed by statute with the LGPS falling under the remit of the Communities and Local Government Department (CLG).

The London Borough of Hackney is the Administering Authority for the London Borough of Hackney Pension Fund. The Pensions Sub-Committee has delegated responsibility for the management of the Fund and oversees the general framework within which the Fund is managed and agrees the policies under which the Fund will operate. The Corporate Director of Finance and Resources has delegated authority for the day to day running of the Fund.

The Pensions Sub-Committee during 2012/13 was made up of 7 Councillor Members, an Employer Representative and a Scheme Member Representative.

Scheme Details

Overview of the Scheme

The London Borough of Hackney Pension Fund is part of the Local Government Pension Scheme (LGPS) and is governed by Statute. The main regulations governing the operation of the scheme are the Superannuation Act 1972, the Local Government Pension Scheme (Members, Contributions and Benefits) Regulations 2007, Local Government Pension Scheme (Administration) Regulations 2008 and the Local Government Pension Scheme (Transition) Regulations 2008.

The London Borough of Hackney is the Administering Authority for the Pension Fund and pensions and entitlement to benefits are fully protected in law. Membership of the Scheme is open to all employees of the Council with the exception of teachers (who have their own pension scheme) and casual employees. Other employers are admitted to the Pension Fund and depending on their status; their employees may also be able to participate in the LGPS. Employee contributions are determined by central government and are currently between 5.5% and 7.5% based on pensionable pay. Employer rates are set by the Fund Actuary every 3 years following a valuation of the assets and liabilities of the Fund, with the next valuation due to take place as at 31st March 2013.

The conditions of the Local Government Pension Scheme (LGPS) Regulations set out in clear terms the benefits that are payable to Scheme members and as such the benefits are guaranteed for those members and therefore members are not reliant on investment performance for their pension benefits. The contributions payable by Scheme members are also defined in the Regulations. Employing Authorities are required to pay contributions into the Scheme in order to meet the cost of funding employee benefits and as such, are required to meet any shortfall in funding the pension liabilities of Scheme members.

The Pension Scheme is a final salary, defined benefit scheme and provides significant benefits for its members and compares favourably with many private sector schemes. The core benefits of the Scheme are outlined below:-

- A guaranteed pension based on final pay and length of time in the scheme.
- Tax free lump sum on benefit accumulated prior to 1st April 2008 and option to convert some of the pension into tax free lump sum on post 1st April 2008 service
- Life assurance cover 3x member final pay applicable from the day of joining scheme
- Pensions for spouses/civil and co-habiting partners and children
- An entitlement to have pension paid early on medical grounds
- Pensions increase annually in line with the CPI

It should be noted that the foregoing is not an exhaustive list and that certain conditions have to be met for an individual to be entitled to the benefits outlined.

Employers in the Pension Fund

The Pension Fund had twenty one employers in the Fund during the financial year 2012/13, which includes the London Borough of Hackney itself. During the year Caterlink were admitted as new employers to the Fund and the Learning Trust, Guinness South and Sanctuary Housing ceased as active employers. Other employers in the Fund fall into either scheduled body status or admitted body status. The table below outlines the membership profile for all of the employers in the Fund as well as their status within the Fund.

Membership by Employer as at 31 March 2013

Employer	Status	Members					%
		Active	Deferred	Pensioner	Total		
London Borough of Hackney	Scheduled	4,706	5,917	5,574	16,197	86.30%

Active Membership in the Fund

The breakdown of the active membership (i.e. those contributing to the Pension Scheme) of the Pension Fund by type of employer as at 31st March 2013 is shown below:

General Membership

Membership of the Scheme is split between the active members i.e. those who are still employed and contributing to the Scheme, deferred members i.e. members who are no longer active but who have benefits held until either retirement or transfer to a new employer's scheme and pensioner members. Pensioner members comprise both former employees who are now drawing their pension benefits and the dependents of former employees. The membership of the Scheme analysed over the relevant membership profile is shown below.

Scheme

Membership Profile for the Pension Fund 2012/2013

As can be seen from the chart below, active membership increased on the previous year as a result of a number of in-sourcing arrangements saw staff TUPE back to the Council. Overall membership increased year on year by 4.3% over the year to 18,769 scheme members.

Membership Profile Over 5 Years

Contributions and Benefits

Contributions

Total contributions (including transfers) into the Fund during 2012/13 amounted to £64.2 million compared to £67.9 million for the comparable period for 2011/12, the reduction on the previous year largely being attributable to a lower level of transfers in from other schemes, possibly reflecting the ending of the amnesty allowing scheme members to transfer in service over a year which ended in 2011/12. Contributions paid by employees are set by statute in a range of 5.5% up to 7.5% dependent on pensionable pay. Employer contribution rates are set by the Fund Actuary and for the year 2012/13, the rates that applied were set from the 2010 valuation.

As can be seen from the chart to the right the largest source of contributions remains employers on behalf of employees and former employees and amounted to 78% of contribution and transfer income during the financial year.

The chart below shows the actual sums being contributed by the employee and employer and the value of transfers in during the 2012/13 financial year along with comparatives for the previous financial year.

Contributions Comparison against previous Year

The table below outlines the contributions for all of the employers in the Fund:

Contributions by Employer for the year to 31 March 2013

Employer	Status	Members £'000	Employers £'000	Total £'000
London Borough of Hackney	Scheduled	7,315	40,643	47,958
Hackney Homes	Scheduled	1,464	5,823	7,287
The Learning Trust	Admission	221	2,126	2,347
Brooke House	Scheduled	75	154	229
Hanover Housing	Admission	5	80	85
Mossbourne Academy	Scheduled	66	95	161
Renaisi	Admission	39	103	142

Family Mosaic	Admission	5	22	27
Busy Bee	Admission	1	3	4
Caterlink	Admission	3	11	14
Employers no longer active	Ceased	0	(32)	(32)
Total Membership		9,485	50,155	59,640

Benefits

The benefits paid out from the Fund are made up of annual pensions, lump sum payments on retiring and, where applicable, death in service payments, whereby lump sums equivalent to 3x final salary are paid out to nominated beneficiaries. Total benefits paid out during 2012/13 amounted to £43.3 million compared to £44.3 million for the year 2011/12.

Benefits Paid Out in 2012/2013

Looking at the year on year increases, annual pensions increased by close to 5%, largely reflecting the Pensions Increase of 5.2%. Lump sum payments decreased by nearly 30% with the previous year reflecting a large scale restructuring exercise which took place in 2011/12. Lump sum death benefits saw an increase of just over 19% reflecting a slightly higher incidence of deaths in service during the year.

Benefits Paid Out in 2012/13 Compared to Previous Year

Pension benefits being paid out of the Fund have increased steadily over the last five years from £34 million in 2008/09 to £43.3 million in the last financial year, although stabilising in the last financial year. This is in part due to the fact that LGPS pension benefits rise each year in line with inflation more than a reflection of any significant increase in pensioner numbers, which have remained relatively static over the period. The chart below highlights how benefit payments have been increasing for the fund over the five year period.

Benefits Paid Over 5 Years

In addition the Fund has also paid refunds to members who have opted out of the scheme which is permissible under the regulations of the Scheme and made transfers to other schemes by way of individual transfers and group transfers. For 2012/13 the total value of payments to and on account of leavers was £3.0 million compared to £7.5 million in 2011/12, largely reflecting a drop in transfers to other schemes following the ending of the transfer amnesty in 2012.

Contributions paid into the Fund continue to exceed the sums paid out in benefits each year, making the Fund strongly cashflow positive. The chart below provides readers with the comparison of contributions paid in to the Fund over the last 5 years compared to the levels of benefits paid out. As the Scheme matures, there is likely to be a narrowing of the gap over time.

Contributions Received vs. Benefits Paid

Administration and Finance Review

Scheme Administration

The contract for pension administration and pension payroll was managed externally during the year by the Fund's pension administrators, Equiniti Paymaster¹, with the contract being overseen by the Financial Services Section based at London Borough of Hackney. The contract commenced on 1st April 2009.

The costs of administering the Fund over the financial year 2012/13 were £0.69 million, flat on the previous year. The administration expenses cover the costs involved in administering the Pension Scheme, with both external and internal costs being charged to the Pension Fund along with the Pension Fund audit fee.

The administrators have a comprehensive website available for members, employers and non-members to find information pertaining to the LGPS. The members area has an electronic version of the scheme guide providing details of the benefits of the scheme, pension membership forms, a series of FAQ's, a glossary of terms and relevant news items. The employers' area provides all of the above and also copies of Pension Sub-Committee reports, the Pension Fund Report & Accounts, Statement of Investment Principals (SIP), Funding Strategy Statement (FSS), Communications Policy and the Pension Administration Policy (PAS).

In March 2013, Equiniti launched the self-service facility, Member-web, which members of the pension scheme can register and check the details held in regard to their pensionable service. They can also amend their home address and contact details and they also have the ability to produce an estimated retirement statement.

Since its launch, there have been just over 530 registrations on the Member-web facility, with total logins of just over 700. Below is the Member-web (self service) activity since inception:

¹ Xafinity Paymaster has been part of the Equiniti Group since 2010 and with effect from 28 February 2013 operate under the single brand name of Equiniti Paymaster.

The Fund also has a procedure for dealing with disputes from members both active and deferred, internal disputes resolution procedure, IDR. These are mainly in regard to either their scheme membership or the non release of ill health benefits. The process for members is at Stage 1, to first appeal to the Specified Person appointed by the Fund who will assess the case to ensure due process has been followed. Should the member still be dissatisfied after this, they can then appeal to the Administering Authority (Stage 2), who will appoint a Specified Person who will again assess the case and make a determination.

If the member remains dissatisfied, they can then appeal to the Pension Ombudsman (Stage 3), who will then make the final determination on the case. The findings of the Ombudsman are legal and binding and no further action can be taken by the individual.

The number of completed IDR cases in reporting period was 3. The analysis is as follows:

Case Type	Resolution
Ill health – request uplift from Tier 3 to Tier 2	Upheld
Pension start date – request backdated	Withdrawn
Retrospective pension release	Upheld

Administration Management Performance

Over the past financial year the case load for the administrators has seen a decrease for the first time in 3 years with a total of 14,964 cases being handled during 2012/13 compared to 20,408 during 2011/12, a reduction of 26.6%. There were a total of 3 complaints in the current year, which equates to 0.007% of the total workload.

Below is the number and trend of the top 10 case types the administrators have dealt with in the year 2012/13:

Case Type	Number for Year
Death Notifications	232
Leavers	1,333
New Entrants	1,110
Transfer In	146
Transfer Out	49
Retirement Quote	352
Retirement Finalisations	212
Retirement Quote	419
GMP	918
Divorce	42

Over the year there has also been a decrease in the level of work overall received by the administrators. The average month in 2011/12 saw 1,500 pieces of work; the average monthly workload in 2012/13 has been in the region of 1,000 pieces.

The flow of work over the current year in comparison to 2011/12 is shown in the chart below:

Pension Administration Workflows

Notable peaks in workflow were from October to November which increased the workflow to around 1,500 pieces of work, due to the publication of the annual benefit statements (ABS) which normally raise queries from members in respect of part time hours, death grant nomination forms and transfer of service. Also a peak from January to March due to the commencement of the dedicated schools data cleansing programme, which has been allocated a full time member of staff from Equiniti, to visit all schools and to go through their data member by member, to ensure the correct membership details are held on the pension administration system.

The performance of the pension administrators is monitored by the Financial Services Section at Hackney on a monthly basis. Performance, under the pension administration contract, when compared to the service level agreement was an average of 98% for the year as a whole, the same as the previous year. Service levels are included within the Pensions Administration Strategy document (pages 158 to 183):

Performance Against Service Level Agreement

In addition to dealing with the day to day administration cases, Equiniti have also undertaken the following work on behalf of the Fund:

- All Monthly Payrolls balanced and reconciled
- The year end payroll process has been completed for both the monthly and annual payrolls including the application of the pension increase, reconciliation of the payrolls, production of P60s and reporting to HMRC
- System year end update of pension increase, Lifetime Allowance and Annual Allowance and earnings and contribution histories was completed
- A Scheme Event report has been submitted to HMRC
- Data submissions to central government as requested by Treasury and Communities and Local Government
- All benefit, payroll and AVC payments have been made on time
- Work has been completed on the year-end accounts
- All monthly ledger reconciliations completed
- All bank account reconciliations completed

- Life Certificate exercise – Certificates of Continued Entitlement
- Data extracts for both the triennial valuation and annual accounting valuations have been carried out and all queries raised by the actuary have been dealt with
- Annual Benefits Statements for year ending March 2011, were issued in September 2012 to:

Actives 5,456

Deferred 4,803

Councillors 46

- National Fraud Initiative - 180 members who were identified from the national fraud initiative data match as still in receipt of a pension but potentially deceased. 100 are still under investigation and 6 are currently being pursued for recovery of an overpayment of pension.
- Overpayment of pension - identified overpayments to a value of £47,897.97. These were as a result of late death notifications and errors made by the previous administrators. To date £45,896.98 has been recovered.

The total scheme membership, analysed by age, as at 31 March 2013 is shown below:

Age	Active	Deferred	Pensioner	Total
1 - 5	0	0	2	2
6 - 10	0	0	10	10
11 - 15	0	0	25	25
16 - 20	35	5	40	80
21 - 25	219	95	11	325
26 - 30	458	355	0	813
31 - 35	683	527	2	1,212
36 - 40	637	616	9	1,262
41 - 45	821	1,000	25	1,846
46 - 50	1,099	1,684	87	2,870
51 - 55	924	1,553	159	2,636
56 - 60	555	991	482	2,028
61 - 65	251	251	1,086	1,588
66 - 70	27	29	1,168	1,224
71 - 75	6	14	962	982
76 - 80	0	1	808	809
81 - 85	0	1	592	593
86 - 90	0	1	339	340
91 - 95	0	0	108	108
96 - 100	0	0	15	15
100 - 105	0	0	1	1
Total	5,715	7,123	5,931	18,769

Over the last 5 years (from April 2008 to March 2013) there have been 51 scheme members retire on the grounds of ill health; 35 of those have been from active membership and 16 from a deferred status.

Pension Administration Strategy

The Local Government Pension Scheme (Administration) Regulations 2008 gives Administering Authorities the discretion to issue a Pension Administration Strategy document. The Pension Administration Strategy was reviewed and updated following a period of consultation with stakeholders and agreed by Pensions Sub-Committee coming into effect on 1st April 2013. A copy of this statement is included in the annual report (pages 158 to 184). Set out in the section on performance is a record of the number of administration cases that have been processed and the performance against target.

In addition, a number of training sessions have been run for employers and individual schools on how to complete paperwork and the background to the LGPS regulations to enhance overall understanding and administration flows. This included an employer seminar held in December 2012 which covered, amongst other things, general administration issues, investment and actuarial updates and Automatic Enrolment (Workplace Pensions).

Through a rolling programme of training, site visits and seminars, the Pension Liaison Officer has continued to enhance the relationship between employers, payrolls and the administrators which has helped to promote a better understanding amongst employers of what their responsibilities are towards the Fund and their own employees. Particular attention has been paid to ensuring that schools are aware of their responsibilities towards employees during the year with a major data-cleansing exercise being undertaken.

Dedicated one-to-one sessions for scheme members continue to be popular and help to clarify any issues concerning their personal situation in regard to their pension benefits. The Pensions team continue to be involved in promoting the benefits of the Scheme providing support at induction sessions, general pension presentations and auto-enrolment sessions.

Monitoring of Employers

Employee and Employer contributions must be received by the 19th of the month. These are then reconciled against pensionable remuneration and contribution rates that apply to individual employers.

There were 19 instances of an employer submitting a late or an incorrect payment during 2012/13. Of those 19, some did not submit the supporting documentation required in order for Equiniti to reconcile the contributions. Contribution collections are subject to rigorous monitoring and the pursuit of correct payments and supporting documentation remains of paramount importance to the administrators. A continuous

programme of improving the relationships between employers, payroll providers and Equiniti Paymaster, the scheme administrators, has assisted in ensuring employers are aware of the importance of correct reporting and the timely submission of data.

In addition there have been significant numbers of year end queries raised with employers to resolve where paperwork has not previously been supplied, for example in relation to changes of part time hours, new starter paperwork and notification of leavers. Work continues to take place since the year end to resolve these queries to ensure that accurate data is available, in time, for the actuarial valuation.

Employers have been advised of the importance of providing the administrators with data, and training has also been provided to a wide range of employers and schools throughout the year, with more planned for the coming year. However, it is recognised that this may not be sufficient in some cases and that where the Fund continues to be faced with additional costs due to poor administration from some employers, it is necessary to pass such additional costs direct on to employers.

During 2012/13, the Fund sought to recoup additional administration costs from several employers and schools not complying with the Pensions Administration Strategy. Where there were instances of non-compliance, additional administration costs are recouped directly from those employers and schools concerned in regard to data irregularities, late payment of contributions or late submissions of data during the year.

Budget Review

The Pensions Sub-Committee agrees the budget for the Pension Fund on an annual basis and monitors progress quarterly, taking into consideration anticipated income and expenditure for the forthcoming year along with a comparison of the previous year forecast. The budget includes a forecast of the expected level of employee and employer contributions and estimated transfer values, although the latter is difficult to forecast being dependent to a large extent on staff turnover and individual decisions on whether to transfer benefits into the Hackney Pension Fund. Member expenditure forecasts are based on anticipated Pension Increases and also include an estimate of transfers out of the Fund.

The table below sets out the budget set at the start of the financial year 2012/13 and the outturn for the year and includes a brief analysis of the reasons for the differences between the budget and the outturn.

	2012-13 Budget	2012-13 Outturn	Outturn vs Budget %	Comments
Member Income	67,916	64,204	(5)	Within tolerance and due to transfers being lower than expected
Member Expenditure	(55,132)	(46,559)	(16)	Lower than forecast due to lower transfers being paid
Net Member Surplus	12,784	17,645	38	Higher member surplus due to lower member expenditure

				mainly transfers
Net Administration Expenditure	(785)	(693)	(12)	Lower costs reflecting a focus on ensuring efficiency
Surplus from Operations	11,999	16,952	41	Higher surplus due to lower outgoings than forecast
Investment Income/Expenditure				
Investment Income	11,828	13,324	13	Higher levels of dividend payouts than forecast
Investment Expenses & Management Fees	(2,247)	(2,842)	26	Higher costs due largely to increase in value of funds under management
Net Investment Income/Expenditure	9,581	10,482	9	Within 10% tolerance but due to higher than forecast investment income
Cashflow before Investment Performance	21,580	27,434	27	Higher than budgeted due to lower than forecast member expenditure, higher dividend income and lower costs

Gross income for the Pension Fund was around 6% lower than forecast at the time of the 2012/13 budget report (£64.2 million compared to the budget of £67.9 million), primarily due to lower than forecast transfers, which are highly dependent on the decisions of individual members and possibly reflecting the significant increase in transfers that took place during the LGPS amalgamation amnesty. Overall member expenditure was lower than projected by 19% largely reflecting a drop in the transfers out for similar reasons as the drop in contributions and other income. The impact of this was a net surplus of £19.8 million, significantly higher than budgeted for.

Administration expenses for the year ended 31st March 2013 were below forecast at £0.71m compared to a forecast within the 2012/13 budget of £0.79m. Administration costs were lower than anticipated due to a combination of factors, namely lower audit fee, lower central costs and lower external costs as data cleanse work was less than expected. Investment income was slightly higher than expected as were investment management costs at £2.89 million largely reflecting increased assets under management on which investment management fees are charged.

The Pension Fund as a consequence remained significantly cashflow positive both before and after taking investment income into account. The Pensions Sub-Committee will continue to monitor the budget and cashflow on a regular basis to ensure that any significant changes are captured and appropriate action taken. The budget for 2013/14 has been set and is still forecasting cashflow surplus for the year of around £9m before investment income.

Risk Management Review

Risk Register

Risk management forms a key part of Pension Fund Governance and is part of the ongoing decision making process for the Committee. The benefits of successful risk management are clear for the Fund; improved financial performance, better delivery of services, and improved Fund governance and compliance.

There are four general approaches to treating risk: avoid, reduce, transfer or accept:

- Avoidance of risk – not undertaking the activity that is likely to trigger the risk
- Reducing the risk – controlling the likelihood of the risk occurring, or controlling the impact of the consequences if the risk does occur.
- Transferring the risk – handing the risk on elsewhere, either totally or in part – e.g. through insurance.
- Accepting the risk – acknowledging that the ability to take effective action against some risks may be limited or that the cost of taking action may be disproportionate to the potential benefits gained.

The types of risk that the Fund is exposed to fall into the following broad categories:

- Financial – These relate to investment related risks including market, currency, credit and interest rate risks – These are outlined in detail in the Statement of Accounts
- Strategic – Failure to meet strategic objectives such as performance targets, Funding Strategy Statement objectives, etc.
- Regulatory – Regulatory changes impacting on the Fund, or failure to comply with legislation or meet statutory deadlines
- Reputational – Poor service damaging the reputation of the Fund
- Operational – Data maintenance, service delivery targets
- Contractual – 3rd party providers, failure to deliver, effective management of contracts
- Communication – Failure to keep all stakeholders notified of things that affect them, be they employers, scheme members or contractors

The Risk Register for the Pension Fund sets out the nature of the individual risks for the Fund with an assessment of level of risk. Risks fall into the following categories:

- High risk (red) – need for early action intervention where possible,
- Medium risk (amber) – action is required in the near future
- Low risk (green) – willing to accept this level of risk or requires action to improve over the longer term

The Pensions Sub-Committee reviews the Pension Fund Risk Register and the controls that it has in place to determine if there is any need to re-categorise existing risks or to add new, previously unidentified risks, with the most formal recent review

having taken place at the Committee meeting held in January 2013 alongside a training session on understanding risk management.

The key high level risks identified as being high following the latest review are:

- Increasing longevity
- Regulatory including 2014 LGPS Scheme changes
- Poor investment performance
- Asset/Liability mismatch
- Funding Risks
- Auto-Enrolment Implementation

The Committee recognises that whilst the above high risks relate primarily to external risk, measures are in place to monitor and manage these risks. These include:

- Monitoring longevity and ongoing discussions with the Fund Actuary on how best to manage the impact on the Fund from people living longer
- Monitoring regulatory changes and responding to consultations on future changes
- Quarterly monitoring of investment performance, funding and budget monitoring and regular reviews of asset allocation to ensure that it remains appropriate for the Fund taking into account the appropriate investment advice from the Pension Fund Consultant
- Contract monitoring and performance reviews
- Regular update on progress of Auto-Enrolment

Within the Statement of Accounts, there is a detailed analysis of the extent of risks arising from financial instruments, quantifying the impact of a range of investment risks, including market risk, interest rate risk and currency risk. This provides readers of the accounts with an overview of the impact of market movements both increases and decreases under the scenarios where standard deviations apply.

Whilst the Fund maintains a Risk Register, it is recognised that whilst this is reviewed annually, it is the day-to-day management of risks that remains key to understanding and controlling risks for the Pension Fund.

Investment Review

Investment Background

Equity markets around the globe saw significant gains in 2012/13 compared to the previous year as worries about economic growth and sovereign debt crisis in Europe started to ease and indeed there was some evidence to suggest that the US was seeing signs of a tentative recovery. Relief that the ECB had provided support for the weaker economies in Europe and that Greece had not been ejected from the EU also supported equities. Japan announced its own plans for quantitative easing which further helped to boost equity markets in the latter half of the year.

The UK market recovered strongly rising by 16.8% over the year, despite subdued economic growth over the year, benefiting from investor confidence that the Eurozone break up would not materialise and tentative signs of economic recovery in the US. The North American market was the strongest equity market up by 19.3% over the year most notably in the final quarter of the year with the Fed indicating it was willing to continue with loose monetary policy for longer. There were also signs of recovery in the housing market giving rise to hopes of improving consumer confidence and with it increased consumer spending. Despite the ongoing problems in Europe, markets recovered strongly up, 18% on the year with the ECB being willing to intervene to buy sovereign debt to support and stabilise government borrowing in the peripheral regions. Japanese equities performed strongly towards the end of the year following the announcement that they would also be entering a period of quantitative easing. Bond markets continued to deliver positive returns with the strongest being UK Index Linked which saw returns of 10.2% over the year, again reflecting the Bank of England's QE policies. Property by comparison put in a pedestrian performance delivering a return of 2.5% over the year. The table shows the returns on various markets over the last financial year:

Investment Markets 2012/2013

The chart below shows the market performance over the last 3 years highlighting the sharp rebound in equity markets in the last financial year following a weak performance in 2011/12 as the Eurozone crisis impacted on equity markets. Bond markets have shown strong performances over the three years with index linked markets continuing to be strong.

Market Performance over Three Years

Looking at the annualised market returns over 1, 3 and 5 years, shows the recovery in equity markets since the financial crisis in 2008, despite the ongoing problems in the Eurozone and weak economic growth. Bond markets and property have put in stable performances since the financial crisis, but the index linked market has benefited from the ongoing Quantitative Easing programme.

Market Performance annualised over 1, 3, 5 years

Fund Value

The Pension Fund Revenue Account has continued to benefit from the recovery in growth assets, namely equities where the largest proportion of the Fund's assets are held. At the end of March 2013, the market value of the Pension Fund's total assets was £954.3 million compared to £844.7 million as at 31st March 2012, showing the

ongoing recovery in markets over the year. This represents an increase over the year of 13%, reflecting the impact of the continuing recovery and strong cashflows.

The graph below shows the progress of the Fund's assets over the last ten years as at the 31st March in each year.

Fund Value over 10 Years 31st March

Investment Management

The management of the Fund's assets is determined by the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009. The regulations enable authorities to appoint investment managers to manage and invest Pension Fund monies on their behalf, subject to being satisfied with their experience, competence and risk control, with appropriate arrangements for monitoring performance. The Local Government Pension Scheme (Administration) Regulations 2008 require the Fund to publish a Statement of Investment Principles (SIP) setting out the main parameters and responsibilities for the management of the Fund. The SIP covers the investment style for fund managers e.g. balanced active/passive, types of investment to be permitted and the relative proportions between them, performance objectives for fund managers, socially responsible investment standards to be applied, and corporate governance matters to be exercised relating to the Fund's shareholding interests. A copy of the current SIP is included within this Report and Accounts (pages 79 to 108).

The allocation to the various asset classes as at the end of 2012/13 is as outlined below:

The chart below this sets out how the distribution across the various asset classes has moved between the end of the previous financial year, March 2012 and the end of the current financial year, March 2013. The increase in multi-asset pooled funds including alternatives relates to investment with two new strategies with PIMCO and GMO.

Asset Distribution over 2 Years

During the year the Fund had eight external managers, following investment in two new multi-asset absolute return strategies. The breakdown between managers is set out in the chart below.

The Fund has three equity managers - one passive UK fund manager, UBS with 27% of the Fund under management, and two active global equity managers, Lazard Asset Management with 17% and Wellington Investment Management with 17% of the Fund as at 31st March 2013. Fixed interest investments were managed by Foreign & Colonial (F&C) with 16% of the Fund and property via a Unit Trust with Threadneedle amounting to 8% of the Fund. Absolute return strategies were managed by PIMCO with 8% of the Fund and GMO with 4% of the Fund. BlackRock

with 2% of the Fund. Other Investments & Net Current Assets account for 1% of the Fund.

provided exposure to alternative assets in the form of global tactical asset allocation representing 2% of the Fund's assets.

The list of Fund Managers and the proportions of assets under management are shown below with comparisons against the prior year:

Fund Manager	Value £'000	% of total fund	Value £'000	% of total fund
	2011/12	2011/12	2012/13	2012/13
Lazard (Global Equities)	146,530	17.3%	161,667	16.9%
Wellington (Global Equities)	150,727	17.8%	163,400	17.1%
UBS (UK Equity Index)	241,143	28.5%	255,900	26.8%
F&C (Fixed Interest)	141,426	16.7%	151,382	15.9%
Threadneedle (Property)	91,825	10.9%	80,832	8.5%
PIMCO (Global Multi-Asset)	-	-	77,262	8.1%
GMO (Global Real Return)	-	-	33,434	3.5%
BlackRock (GTAA)	17,961	2.1%	17,373	1.8%
Net Current Assets	12,182	1.4%	10,434	1.1%
Other Investments (Including futures)	42,869	5.1%	2,585	0.3%
Total	844,663	100%	954,269	100%

Top Ten holdings by Market Value as at 31st March 2013

Total	464,801
--------------	----------------

Performance of Fund

The investment strategy and performance of the Fund is reported on a quarterly basis to the Pensions Sub-Committee with Fund Managers taking it in turns to present to the Committee. The investment performance of the Fund is measured by the WM Company against a customised benchmark.

The overall investment performance of the Fund for 2012/13 was up by 11.5% marginally underperforming against the customised benchmark which returned 12.1%. The Fund performed marginally below benchmark in global equities, but outperformed in bonds and property. There was again a negative performance from the GTAA mandate against benchmark. The Fund's performance against the different asset classes is shown in the table below:

Performance Against Benchmark

Over the longer term, the Fund has underperformed its customised benchmark over both three and five year periods. The Fund achieved an annualised return of 7.5% compared to the benchmark of 9.0% over three years and over a five year period 4.9% compared to 6.0%.

Whilst the Fund continues to have its own dedicated benchmark set by the Committee against which it measures performance, it continues to monitor its asset allocation compared to the WM Local Authority Universe, which is shown below:

Asset Allocation: London Borough of Hackney vs WM Local Authority Universe

Performance against the WM Local Authority Universe shows the Hackney Fund was at the 91st percentile in 2012/13, compared to last year's 46th percentile ranking versus the Local Authority Universe. Over the longer term horizon performance against the WM Universe remains with the fund at 71st percentile over three years and 93rd percentile over five years.

Investment Management Expenses

The investment management expenses for the year to 31st March 2013 were £2.8 million, i.e. slightly up on the previous year's value of £2.4 million. This increase relates primarily to the increase in investment assets under management. Investment management expenses cover the fees charged by the Fund's individual investment managers, and fees paid to the actuarial advisor, investment advisor and Fund custodian.

Actuarial Review

Background

The primary objective of the Pension Fund is to provide for members' pensions and lump sum benefits on their retirement or for their dependants' benefits on death before or after retirement, on a defined benefit basis. The Fund has to ensure that any surplus contributions and investment income are invested to provide returns to help meet future liabilities. An actuarial valuation of the Fund is carried out every three years taking into account the amount of current and future pension liabilities of the Fund, the expected contributions into the Fund, and the expected investment returns on assets held by the Fund. Other factors taken into account include pay inflation and mortality rates.

Actuarial Valuation

The Fund Actuary, Hymans Robertson, undertook a valuation of the Pension Fund as at the 31st March 2010, which showed that there had been a sharp deterioration in the funding position, from 77.6% to 65.8%, during the intervaluation period. This was due to a combination of poor investment returns between 2007 and 2010; a period which included the financial crisis, resulting in lower than expected returns and a sharp increase in liabilities. A summary of the assumptions used in the actuarial valuation is included in the Actuary's report in the following pages and a full copy of the valuation can be found on the Pension Fund website; <http://hackney.xpmemberservices.com/Home.aspx> or alternatively a copy can be obtained from the Financial Services Section, Finance and Resources Directorate, Keltan House, 89-115 Mare Street, London, E8 4RU. The next actuarial valuation based as at 31st March 2013 with results expected in the autumn. The 2013 valuation results will be used to assess the updated funding position and to determine contribution rates payable by employers for the year commencing 1st April 2014. The longer term funding picture is shown in the graph below and includes an estimated funding position as at 31st March 2013 based on a roll forward of the 2010 valuation:

The assumptions and contribution rates applying during the financial year 2011/12 were those set at the 2010 valuation.

Over the longer term the Fund is targeting a funding level of 100% and has set out its strategy for achieving this in the Funding Strategy Statement included within this Report and Accounts. The Funding Strategy Statement (pages 109 to 130) was approved by the Pensions Sub-Committee in January 2011.

The valuation determines contribution rates for the Fund and the 2010 valuation, which applied during the year, assessed the Common Contribution Rate for the Fund as being 31.1%. Of that, 16.7% represented the future service cost for meeting the pensions of current employees and 14.4% the cost of meeting the historic service deficit. These figures are for the Fund as a whole and individual employer rates can vary significantly from the overall Fund level. Individual contribution rates payable by employers are set out in the Rates and Adjustment Certificate. A chart showing how the Common Contribution Rate, future service rate and historic service cost has changed over the last few valuations is shown in the graph below along with the latest estimate of what the rates would be had a formal valuation taken place at 31st March 2013, based on a roll forward basis and not taking into account the proposed changes from the 2014 LGPS Scheme.

Contribution Rates

The employer contribution rate for the Council, the largest employer in the Fund, was set at 36.9% commencing on 1st April 2012 for the financial year 2011/12.

Report of the Fund Actuary

London Borough of Hackney Pension Fund (“the Fund”)

Actuarial Statement for 2012/13

This statement has been prepared in accordance with Regulation 34(1)(d) of the Local Government Pension Scheme (Administration) Regulations 2008, and Chapter 6 of the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the UK 2012/13.

Description of funding policy

The funding policy is set out in the London Borough of Hackney’s Funding Strategy Statement (FSS), dated January 2011. In summary, the key funding principles are as follows:

- to ensure the long-term solvency of the Fund as a whole and the solvency of each of the notional sub-funds allocated to the individual employers;
- to ensure that sufficient funds are available to meet all benefits as they fall due for payment;
- not to restrain unnecessarily the investment strategy of the Fund so that the Administering Authority can seek to maximise investment returns (and hence minimise the cost of the benefits) for an appropriate level of risk;
- to help employers recognise and manage pension liabilities as they accrue with consideration to the effect on the operation of their business where the Administering Authority considers this appropriate;
- to minimise the degree of short-term change in the level of each employer’s contributions where the Administering Authority considers it reasonable to do so;
- to use reasonable measures to reduce the risk to other employers and ultimately to the council tax payer from an employer ceasing participation or defaulting on its pension obligations;
- to address the different characteristics of the disparate employers or groups of employers to the extent that this is practical and cost-effective; and
- to maintain the affordability of the fund to employers as far as is reasonable over the longer term.

The FSS sets out how the Administering Authority seeks to balance the conflicting aims of securing the solvency of the Fund and keeping employer contributions stable.

Funding position as at the last formal funding valuation

The most recent actuarial valuation carried out under Regulation 36 of the Local Government Pension Scheme (Administration) Regulations 2008 was as at 31st March 2010. This valuation revealed that the Fund’s assets, which at 31st March 2010 were valued at £729 million, were sufficient to meet 65.8% of the liabilities (i.e. the present value of promised retirement benefits) accrued up to that date. The resulting deficit at the 2010 valuation was £378 million.

Individual employers' contributions for the period 1st April 2011 to 31st March 2014 were set in accordance with the Fund's funding policy as set out in its FSS.

Principal actuarial assumptions and method used to value the liabilities

Full details of the methods and assumptions used are described in my valuation report dated 31st March 2011.

Method

The liabilities were assessed using an accrued benefits method which takes into account pensionable membership up to the valuation date, and makes an allowance for expected future salary growth to retirement or expected earlier date of leaving pensionable membership.

Assumptions

A market-related approach was taken to valuing the liabilities, for consistency with the valuation of the Fund assets at their market value.

The key financial assumptions adopted for the 2010 valuation were as follows:

Financial assumptions	31 March 2010	
	% p.a. Nominal	% p.a. Real
Discount rate	5.95%	2.65%
Pay increases *	5.3%	2.0%
Price inflation (CPI)/Pension increases	3.3%	-

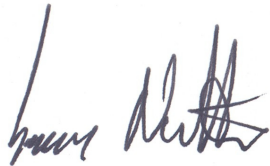

* plus an allowance for promotional pay increases. Short term pay growth was assumed to be 1% p.a. for 2010/11 and 2011/12, reverting to 5.3% p.a. thereafter.

The key demographic assumption was the allowance made for longevity. As a member of Club Vita, the baseline longevity assumptions adopted at this valuation were a bespoke set of VitaCurves that were specifically tailored to fit the membership profile of the Fund. Longevity improvements were in line with medium cohort projections and a 1% p.a. underpin effective from 2010. Based on these assumptions, the average future life expectancies at age 65 are as follows:

	Males	Females
Current Pensioners	20.9 years	23.5 years
Future Pensioners	23.0 years	25.4 years

Copies of the 2010 valuation report and Funding Strategy Statement are available on request from the London Borough of Hackney, Administering Authority to the Fund.

The next actuarial valuation will be carried out as at 31st March 2013. The Funding Strategy Statement will also be reviewed at that time.

Audit Opinion

Independent auditor's report to the members of London Borough of Hackney Pension Fund

We have audited the financial statements of the local government pension fund administered by London Borough of Hackney for the year ended 31 March 2013 on pages 45 to 78. The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2012/13.

This report is made solely to the members of the Authority, as a body, in accordance with Part II of the Audit Commission Act 1998. Our audit work has been undertaken so that we might state to the members of the Authority, as a body, those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the members of the Authority, as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of the Corporate Director of Finance and Resources and auditor

The Corporate Director of Finance and Resources is responsible for the preparation of the pension fund financial statements in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2012/13 and for being satisfied that they give a true and fair view of the financial transactions of the pension fund during the year ended 31 March 2013 and the amount and disposition of the fund's assets and liabilities as at 31 March 2013. Our responsibility is to audit, and express an opinion on, the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of whether the accounting policies are appropriate to the pension fund's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the Corporate Director of Finance and Resources; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Pension Fund Annual Report and Accounts to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the financial transactions of the pension fund during the year ended 31 March 2013 and the amount and disposition of the fund's assets and liabilities as at 31 March 2013; and

- have been prepared properly in accordance with the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2012/13.

Matters on which we are required to report by exception

The Code of Audit Practice for Local Government Bodies 2010 requires us to report to you if:

- the information given in the Pension Fund Annual Report and Accounts for the financial year for which the financial statements are prepared is not consistent with the financial statements; or
- any matters relating to the pension fund have been reported in the public interest under section 8 of Audit Commission Act 1998 in the course of, or at the conclusion of, the audit.

We have nothing to report in respect of these matters.

Statement of Responsibilities

The London Borough of Hackney as Administering Authority of the London Borough of Hackney Pension Fund is required to:

- make arrangements for the proper administration of its financial affairs and to secure that one of its Officers has the responsibility for the administration of those affairs. In this Council, that Officer is the Corporate Director of Finance and Resources;
- manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets;
- approve the Statement of Accounts.

Responsibilities of the Corporate Director of Finance and Resources

The Corporate Director of Finance and Resources is responsible for the preparation of the Pension Fund Statement of Accounts in accordance with proper practices as set out in CIPFA's Code of Practice on Local Authority Accounting in the United Kingdom ("the Code of Practice").

In preparing this Statement of Accounts, the Corporate Director of Finance and Resources has:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent; and
- complied with the Code of Practice, except where otherwise stated.

The Corporate Director of Finance and Resources has:

- kept proper accounting records which were up to date; and
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

Responsible Financial Officer's Certificate:

I certify that the Accounts set out on pages 45 - 78 have been prepared in accordance with proper practices and present fairly the transactions of the London Borough of Hackney Pension Fund during the year ended 31st March 2013 and financial position of the Fund at that date of its assets and liabilities, other than liabilities to pay pensions and benefits after the year end.

Ian Williams, CPFA
Corporate Director, Finance and Resources

Knowledge and Skills Policy Statement

CIPFA Code of Practice on Public Sector Pensions – Finance Knowledge and Skills

This organisation adopts the key recommendations of the Code of Practice on Public Sector Pensions Finance Knowledge and Skills.

This organisation recognises that effective financial administration, scheme governance and decision-making can only be achieved where those involved have the requisite knowledge and skills.

Accordingly this organisation will ensure that it has formal and comprehensive objectives, policies and practices, strategies and reporting arrangements for the effective acquisition and retention of the relevant public sector pension scheme finance knowledge and skills for those in the organisation responsible for financial administration, scheme governance and decision-making.

These policies and practices will be guided by reference to a comprehensive framework of knowledge and skills requirements such as that set down in the CIPFA Pensions Finance Knowledge and Skills Frameworks.

This organisation will report on an annual basis how these policies have been put into practice throughout the financial year.

This organisation has delegated responsibility for the implementation of the requirements of the CIPFA Code of Practice to the Corporate Director of Finance and Resources, who will act in accordance with the organisation's policy statement, and where they are a CIPFA member with CIPFA Standards of Professional Practice.

This organisation recognises the importance of ensuring that it has the necessary resources to discharge its pensions administration responsibilities and that all staff and members charged with the financial administration, governance and decision-making with regard to the pension scheme are fully equipped with the knowledge and skills to discharge the duties and responsibilities allocated to them.

It therefore seeks to utilise individuals who are both capable and experienced and it will provide and/or arrange training for staff and members of the pensions decision making and governance bodies to enable them to acquire and maintain an appropriate level of expertise, knowledge and skills.

2012/13 Reporting on Knowledge and Skills Framework

How the Frameworks have been Applied

The Pensions Sub-Committee is the body that has delegated responsibility for managing all aspects of the London Borough of Hackney Pension Fund. The Pensions Sub-Committee reviews and agrees a training plan on an annual basis at

the first meeting of the Municipal Year. The training plan is developed taking into consideration the needs of the Committee to both enhance existing knowledge and skills and to develop new areas of understanding. Pensions and in particular investments are constantly evolving and therefore in order for the Committee to be effective, they need to ensure that their knowledge is current. The Committee has had a long standing commitment to engage in a training programme and to ensure that training is accessible to all members of the Committee including co-opted members. Consequently training is provided as matter of course at all regular quarterly Committee meetings and is carried out prior to the main business agenda items. This ensures that training is accessible to all Committee members and key officers involved in the Pension Fund. Attendance at other training courses and conferences occurs on an ad-hoc basis to meet additional training needs.

It was gratifying that the training carried out by the The Pension Fund and its Committee was recognised with a Highly Commended in the LGC Investment Awards in December 2012.

Assessment of Training Needs

The issue of the Knowledge and Skills Framework in 2010 set out a matrix of six relevant areas of knowledge for members of decision making bodies, namely:

1. Pensions Legislative and Governance Context
2. Pensions Accounting and Auditing Standards
3. Financial Services Procurement and Relationship Management
4. Investment Performance and Risk Management
5. Financial Markets and Products Knowledge
6. Actuarial Methods, Standards and Practices

Following on from the Training Needs Assessment undertaken in 2011/12, the training programme in 2012/13 focused on addressing on weaker areas including a greater understanding of actuarial methods, standards and practice with a dedicated training session combined with initial work on the 2013 actuarial valuation.

In addition to the TNA, training needs are also assessed in relation to current relevant decision making programmes, for example in relation to specific asset classes where these are under consideration for investment.

As part of the Committee's understanding of their own effectiveness and that of their advisers, Committee Members completed a self-assessment in March 2013. The results of the self-assessment showed that Members either had or were provided with sufficient information to be able to undertake their role as decision-makers on behalf of the Pension Fund and that advisers to the Committee were either good or very good at assisting them with that decision making process.

Training Delivered against identified training needs

As outlined in the Assessment of Training Needs, the decision-making body for the Pension Fund, the Pensions Sub-Committee is committed to ensuring that they have the appropriate levels of knowledge and skill to be able to engage in effective decision

making. The dedicated training Programme for 2012/13 was supplemented by additional information contained within the main agenda items. An outline of the specific training and supplemental areas is shown in the table below:

Dedicated Training	Date
Economy (KSF 5)	26/06/2012
Derivatives (KSF 5)	20/09/2012
Risk Management (KSF 1, 3, 4, 5 & 6)	17/01/2013
Longevity Monitoring (KSF 6)	18/02/2013
Actuarial Methods Standards & Practices (KSF 6)	18/02/2013
Supplemental Training	Date
Regulatory – Discretions (KSF 1)	26/06/2012, 20/09/2012 & 17/01/13
Governance Review (KSF 1)	20/09/2012
Asset Allocation Rebalancing (KSF 3)	20/09/2012
Pension Fund Objectives & Measurement (KSF 1, 4, 5, 6)	26/11/2012 & 17/01/13
Investment Screening (KSF 4, 5)	26/11/2012
Performance Monitoring (KSF 4)	26/11/2012
Fixed Interest Investments (KSF 4, 5)	18/02/13
Investment Strategy (KSF 4, 5, 6)	27/03/13
Public Sector Pension Reform (KSF 1)	Quarterly

Attendance at Committee meetings and training sessions is monitored by Officers and a record of attendance is included within the Governance Reporting for 2012/13 (page 144).

A full training programme has been scheduled for the next financial year and will include a wide range of topics, primarily focussing on areas where the Committee is required to make longer term strategic decisions in order to assist with the governance role.

Notes to Accounts

1. Description of the Fund

The Hackney Pension Fund ('the Fund') is part of the Local Government Pension Scheme and is administered by the London Borough of Hackney.

The following description of the Fund is a summary only. For more detail, reference should be made to the Hackney Pension Fund Annual Report 2012/13, the Pension Fund website <http://hackney.xpmemberservices.com/Home.aspx> and the underlying statutory powers underpinning the Scheme, namely the Superannuation Act 1972 and the Local Government Pension Scheme (LGPS) Regulations.

a) General

The Fund is governed by the Superannuation Act 1972. The Fund is administered with the following secondary legislation:

- the Local Government Pension Scheme (Members, Contributions and Benefits) Regulations 2007 (as amended)
- the Local Government Pension Scheme (Administration) Regulations 2008 (as amended)
- the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009 (as amended)

It is a contributory final salary, defined benefit pension scheme administered by the London Borough of Hackney ("the Council") to provide pensions and other benefits for pensionable employees of the London Borough of Hackney and for the employees of admitted and scheduled bodies eligible to participate in the Fund.

The London Borough of Hackney has delegated responsibility for the management of the Pension Fund to the Pensions Sub-Committee with the Corporate Director of Finance and Resources being given delegated authority for the day to day operations of the Fund.

b) Membership

All local government employees (except casual employees, teachers and those eligible for to be members of the NHS Pension Scheme) are automatically entered into the Scheme. However membership of the LGPS is voluntary and employees are free to choose whether to opt out, remain in the Scheme or make their own personal arrangements outside the Scheme.

Organisations participating in the Hackney Pension Fund include:

- Scheduled bodies, which are local authorities and similar bodies whose staff are automatically entitled to be members of the Fund.
- Admitted bodies, which are other organisations that participate in the Fund under an admission agreement between the Fund and the relevant organisation. Admitted bodies include voluntary, charitable and similar bodies

or private contractors undertaking a local authority function following outsourcing to the private sector.

As at 31st March 2013 there are 19 active employer organisations within the Fund, including the London Borough of Hackney.

London Borough of Hackney Pension Fund	31 March 2012	31 March 2013
Number of Employers with active members	21	19
Number of Employees in scheme		
Council	4,018	4,706
Scheduled bodies	938	897
Admitted bodies	502	112
Total	5,458	5,715
Number of pensioners		
Council	5,505	5,574
Scheduled bodies	102	137
Admitted bodies	177	220
Total	5,784	5,931
Deferred pensioners		
Council	5,677	5,917
Scheduled bodies	229	273
Admitted bodies	845	933
Total	6,751	7,123

During the year Caterlink were admitted as new employers to the Fund following an outsourcing. The Learning Trust, Guinness South and Sanctuary Housing ceased as active employers during the year. Staff from the Learning Trust transferred back to the Council following the ending of the contract.

c) Funding

Benefits are funded by contributions and investment earnings. Contributions are made by active members of the Fund in accordance with the LGPS (Benefits, Membership and Contributions) Regulations 2007 and range from 5.5% to 7.5% of pensionable pay for the financial year ending 31st March 2013. Employers also make contributions, which are set based on the triennial actuarial funding valuations. The last such valuation was at 31st March 2010 with the next valuation due to take place at 31st March 2013. Current employer contribution rates can be found in the Statement to the Rates and Adjustments Certificate in the Hackney Pension Fund Annual Report and Accounts 2012/13 or within the Actuarial valuation on the Pension Fund Website:- <http://hackney.xpmemberservices.com/Home.aspx>

d) Benefits

Pension benefits under LGPS are based on final pensionable pay and length of service, summarised below:

	Service pre 1 April 2008	Service post 31 March 2008
Pension	Each year worked is worth 1/80 x final pensionable salary.	Each year worked is worth 1/60 x final pensionable salary.
	Automatic lump sum of 3 x salary.	No automatic lump sum.
Lump Sum	In addition, part of the annual pension can be exchanged for a one-off tax-free cash payment. A lump sum of £12 is paid for each £1 of pension given up.	Part of the annual pension can be exchanged for a one-off tax-free cash payment. A lump sum of £12 is paid for each £1 of pension given up.

There are a range of other benefits provided under the Scheme including early retirement, disability pensions and death benefits. For more details please refer to the scheme guides which can be found at <http://hackney.xpmemberservices.com/>.

Benefits are index-linked in order to keep pace with inflation. In June 2010, the government announced that the method of indexation would change from the Retail Prices Index to the Consumer Prices Index. This change took effect from 1st April 2011.

e) LGPS 2014

On 31st May 2012, proposed changes were announced in respect of the LGPS which would see the implementation of a new Career Average Revalued Earnings (CARE) Scheme effective from 1st April 2014. Other proposed changes would include retirement ages linked to a person's state pension age, the move to an accrual rate of 1/49th, higher member contributions for those earning over £34,000 and the option for flexibility over contributions, i.e. a lower contribution for lower benefits. The changes are currently being consulted upon with final regulations due to be issued during 2013. The Fund's Actuaries are able to take the changes into consideration for the next triennial actuarial valuation due to take place at 31st March 2013. At the time of finalising the accounts, it has not been possible to quantify the impact of the proposed changes.

2. Basis of Preparation

The Statement of Accounts summarises the Fund's transactions for the 2012/13 financial year and its position at year-end as at 31st March 2013. The accounts have been prepared in accordance with the *Code of Practice on Local Authority Accounting in the United Kingdom 2012/13* which is based upon International Financial Reporting Standards (IFRS), as amended for the UK public sector.

The accounts summarise the transactions of the Fund and report on the net assets available to pay pension benefits. The accounts do not take account of

obligations to pay pensions and benefits which fall due after the end of the financial year. The actuarial present value of promised retirement benefits, valued on an International Accounting Standard (IAS) 19 basis, is disclosed in Note 16 of these accounts.

3. Summary of Significant Accounting Policies

Fund Account – revenue recognition

a) Contributions income

Normal contributions, both from members and employers, are accounted for on an accruals basis (at the percentage rate recommended by the Fund Actuary) in the payroll period they relate.

Pension strain contributions are accounted for in the period in which the liability arises. Any amounts due in year but unpaid will be classed as a current financial asset.

b) Transfers to and from schemes

Transfer values represent the amounts received and paid during the year for members who have either joined or left the Fund during the financial year and are calculated in accordance with the Local Government Pension Scheme Regulations (see Notes 8 and 10).

Individual transfers in/out are accounted for when received/paid, which is normally when the member liability is accepted or discharged.

Transfers in from members wishing to use the proceeds of their Additional Voluntary Contributions to purchase scheme benefits are accounted for on a receipts basis and are included Transfers In (see Note 8).

Bulk (group) transfers are accounted for on an accruals basis in accordance with the terms of the transfer agreement.

c) Investment income

i) Interest income

Interest income is recognised in the fund account as it accrues, using the effective interest rate of the financial instrument as at the date of acquisition or origination. Income includes the amortisation of any discount or premium, transaction costs or other differences between the initial carrying amount of the instrument and its amount at maturity calculated on an effective interest rate basis.

ii) Dividend income

Dividend income is recognised on the date the shares are quoted ex-dividend. Any amount not received by the end of the reporting is disclosed in the Net Assets Statement as a current financial asset.

iii) Distributions from pooled funds

Distributions from pooled funds are recognised at the date of issue. Any amount not received by the end of the reporting is disclosed in the Net Assets Statement as a current financial asset.

v) Movement in the net market value of investments

Changes in the net market value of investments are recognised as income and comprise all realised and unrealised profits/losses during the year.

Fund account – expense items

d) Benefits payable

Pensions and lump-sum benefits payable include all known to be due at the end of the financial year. Any amounts due but unpaid are disclosed in the Net Assets Statement as current liabilities.

e) Taxation

The Fund is a registered public service scheme under section 1(1) of Schedule 36 of the Finance Act 2004 and as such is exempt from UK income tax on interest received and from capital gains tax on the proceeds of investments sold. Income from overseas investments suffers withholding tax in the country of origin, unless exemption is permitted. Irrevocable tax is accounted for as a fund expense as it arises. All income and expenditure in the Statement of Accounts is net of VAT, where recoverable.

f) Administrative expenses

All administrative expenses are accounted for on an accruals basis. Relevant officer costs and other overheads are apportioned to the Fund.

g) Investment management expenses

All investment management expenses are accounted for an accruals basis.

Fees of the external investment managers and custodian are agreed in the respective mandates governing their appointments. Broadly, these are based on the market value of the investments under their management and therefore increase or decrease as the value of these investments change.

Where an investment manager's fee note has not been received by the balance sheet date, an estimate based upon the market value of their mandate as at the end of the year is used for inclusion in the fund account. In 2012/13, there were no fees based on such estimates (2011/12: no fees estimated). A similar procedure is used for custodian fees and in 2012/13, £12k of fees were based on such estimates (2011/12: £33k of fees).

The cost of obtaining investment advice from external consultants is included in investment management charges. Actuarial fees are also included within the investment management expenses.

Net Assets Statement

h) Financial assets

Financial assets are included in the Net Assets Statement on a fair value basis as at the reporting date. A financial asset is recognised in the Net Assets Statement on the date the Fund becomes party to the contractual acquisition of the asset. From this date any gains or losses arising from changes in the fair value of the asset are recognised by the Fund.

The values of investments as shown in the Net Assets Statement have been determined as follows:

i) Market-quoted investments

The value of an investment for which there is a readily available market price is determined by the bid market price ruling on the final day of the accounting period.

ii) Fixed interest securities

Fixed interest securities are recorded at net market value based on their current yields.

iii) Unquoted investments

The fair value of investments for which market quotations are not readily available is determined as follows:

- Valuations of de-listed securities are based on the last sale price prior to delisting, or where subject to liquidation, the amount the Council expects to receive on wind-up, less estimated realisation costs.
- Investments in unquoted pooled funds are valued based on the Fund's share of the net asset value or a single price advised by the fund manager. The valuation of these pools or directly held securities is undertaken by the investment manager or responsible entity and advised as a unit or security price. The valuation standards followed in these valuations adhere to industry guidelines or to standards set by the constituent documents of the pool or the management agreement.
- The Fund has no holdings in private equity funds or unquoted listed partnerships.

iv) Pooled investment vehicles

Pooled investment vehicles are valued at closing bid price if both bid and offer prices are published; or if single priced, at the closing single price. In the case of pooled investment vehicles that are accumulation funds, change in market value also includes income which is reinvested in the fund, net of applicable withholding tax.

v) Limited partnerships, freehold and leasehold property

The Fund has no holdings in limited partnerships, freehold and leasehold property.

i) Foreign currency transactions

Dividends, interest and purchases and sales of investments in foreign currencies have been accounted for at the spot market rates at the date of transaction. End-of-year spot market exchange rates are used to value cash balances in foreign currency bank accounts, market values of overseas investments and purchases and sales outstanding at the end of the reporting period.

j) Derivatives

Derivative contract assets are fair valued at bid prices and liabilities are fair valued at offer prices. Changes in the fair value of derivative contracts are included in change in market value.

The value of futures positions is determined using the single settlement price at the reporting date. Amounts due from or owed to the broker are the amounts outstanding in respect of the initial margin and variation margin.

The future value of forward currency contracts is based on market forward exchange rates at the year-end date and determined as the gain or loss that would arise if the outstanding contract were matched at the year-end with an equal and opposite contract.

The Fund has no direct holdings in exchange traded or over-the-counter options.

k) Cash and cash equivalents

Cash comprises cash in hand and deposits payable on demand.

Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and that are subject to minimal risk of changes in value.

l) Financial liabilities

The Fund recognises financial liabilities at fair value as at the reporting date. A financial liability is recognised in the Net Assets Statement on the date the Fund becomes party to the liability. From this date any gains or losses arising from changes in fair value of the liability are recognised by the Fund.

m) Actuarial present value of promised retirement benefits

The actuarial present value of promised retirement benefits is assessed on a triennial basis by the Scheme actuary in accordance with the requirements of IAS 19 and relevant actuarial standards.

As permitted under IAS 26, the Fund has opted to disclose the actuarial present value of promised retirement benefits by way of a note to the Net Assets Statement (Note 17).

n) Additional Voluntary Contributions (AVC's)

The Hackney Pension Fund provides an Additional Voluntary Contributions (AVC) Scheme for its members, the assets of which are invested separately from those of the pension fund. The Fund has appointed Prudential as its AVC provider. AVCs are paid by members to the AVC provider and are specifically for providing additional benefits for individual contributors. Each AVC contributor receives an annual statement showing the amount held in their account and the movements in the year.

AVCs are not included in the accounts in accordance with section 4(2)(b) of the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009 (SI 2009/3093) but are disclosed as a note only (Note 20).

4. Critical Judgements in Applying Accounting Policies

In applying the accounting policies set out in Note 3, the Fund has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made are as follows:

- The Pension Fund liability is calculated every three years by the appointed Actuary, with quarterly updates in the intervening years. The methodology used is in line with accepted guidelines. Assumptions underpinning the valuations are agreed with the Actuary and are summarised in Note 16. This estimate is subject to significant variances based on changes to the underlying assumptions.

5. Assumptions Made about The Future and Other Major Sources of Estimation Uncertainty

The Statement of Accounts contains estimated figures that are based on assumptions made by the Fund about the future. Estimates are made taking into consideration historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Statement of Accounts 2012/13 for which there is a significant risk of material adjustment in the forthcoming financial years are as follows:

Item	Uncertainties	Effect if actual results differ from assumptions
Actuarial present value of promised retirement benefits	Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Fund with expert advice about the assumptions to be applied.	The effects on the net pension liability of changes in individual assumptions can be measured. For instance, a 0.5% decrease in Real Discount Rate assumption would result in an increase in the pension liability of £129 million approximately. A 0.5% increase in Salary Increase Rate would increase the value of liabilities by approximately £29 million, and a one-year increase in assumed

life expectancy would increase
the liability by approximately £39
million.

6. Events after the Balance Sheet Date

There have been no events since 31st March 2013 and up to the date when these accounts were authorised, which require any adjustments to these accounts. However, as noted in Section 1 (e), the Local Government Pension Scheme is subject to a fundamental review, which will see both the benefit structure and governance structure face significant changes which are due to come into effect on the 1st April 2014, although at this time, it is difficult to quantify such changes. In addition the 2013 Triennial Actuarial Valuation is due to be carried out as at 31st March 2013 and this will set the employer contribution rates to be paid from 1st April 2014.

7. Contributions Receivable

Interest on Cash Deposits	(157)	(190)
Other Income	0	0
Total	(11,511)	(13,324)

13. Investments

The Fund's investments are held in a wide range of assets to ensure diversification, and to optimise returns whilst having regard to the management of risk. The movement in asset classes over the year is largely a reflection of the relative performance of those assets.

Investments were made with two new investment managers in 2012/13, namely PIMCO and GMO. They were funded from cash held, futures and a small amount of reallocation from other managers.

a. Analysis of Investments

A breakdown of investments held by the Fund's external managers across the various asset classes is shown in the table on the following page:

	Market Value 2011/12	Market Value 2012/13

Total Investment Liabilities	(2,794)	(6,240)
Net Investment Assets	832,481	943,835

b. Investments analysed by fund managers

As at 31st March 2013 the Fund's investments are managed by eight principal Investment Managers according to defined benchmarks which are set out in the Statement of Investment Principals (SIP). The following is a breakdown of the investments between the Investment Managers.

Fund Manager	Value £'000	% of total fund	Value £'000	% of total fund
	2011/12	2011/12	2012/13	2012/13
Lazard (Global Equities)	146,530	17.3%	161,667	16.9%
Wellington (Global Equities)	150,727	17.8%	163,400	17.1%
UBS (UK Equity Index)	241,143	28.6%	255,900	26.8%
F&C (Fixed Interest)	141,426	16.7%	151,382	15.9%
Threadneedle (Property)	91,825	10.9%	80,832	8.5%
PIMCO (Global Multi-Asset)	-	-	77,262	8.1%
GMO (Global Real Return)	-	-	33,434	3.5%
BlackRock (GTAA)	17,961	2.2%	17,373	1.8%
Net Current Assets	12,182	1.4%	10,434	1.1%
Other Investments (Including futures)	42,869	5.1%	2,585	0.3%
Total	844,663	100%	954,269	100%

c. Reconciliation of movements in investments and derivatives

For each asset class, the opening position is reconciled with closing position as set out in the tables below.

Investment type	Market Value 1/04/2011 Restated £'000	Purchases during the year and derivative payments £'000	Sales during the year and derivative receipts £'000	Change in Market Value during the year £'000	Market Value 31/03/2012 £'000
Fixed Interest Securities	78,928	692,406	(694,577)	5,466	82,223
Index Linked Securities	27,065	36,056	(26,978)	4,696	40,839
Equities	289,673	125,782	(120,726)	(6,905)	287,824

Pension Fund Annual Report and Accounts
2012 - 13

	1/04/2012 Restated	year and derivative payments	year and derivative receipts	Value during the year	31/03/2013
	£'000	£'000	£'000	£'000	£'000
Fixed Interest Securities	82,223	305,578	(306,497)	5,458	86,762
Index Linked Securities	40,839	29,013	(26,810)	3,522	46,564
Equities	287,824	102,139	(106,027)	35,142	319,078
Pooled Investment Vehicles	365,916	124,592	(51,731)	41,054	479,831
Derivative contracts					
Forward Currency Contracts	3,389	7,657	(11,011)	(2,639)	(2,604)
Futures	362	1,754	(2,114)	(2)	0
	780,553	570,733	(504,190)	82,535	929,631
Other investment balances:					
Cash Deposits	50,053			(371)	13,974
Receivable for sales	2,493			(1)	1,100
Investment Income due	2,063			5	2,483
Payable for purchases	(2,681)			4	(3,353)
Net Investment Assets	832,481			82,172	943,835

Direct transaction costs (i.e. fees, commissions, stamp duty and other fees) associated with purchases and sales of investments were £0.33 million (£0.37 million in 2011/12) and are included in the cost of purchases and in sale proceeds.

Derivative payments and receipts correspond to the sterling equivalent amount of forward foreign exchange and futures contracts settled during the year. Further disclosure regarding derivative contracts can be found below.

d. Analysis of Derivative contracts

Most of the holding in derivatives is to hedge liabilities or hedge exposures to reduce risk to the Fund. Derivatives may also be used to gain exposure to an asset class more efficiently than holding the underlying asset.

i) Forward currency contracts

In order to maintain appropriate diversification and to take advantage of overseas investment returns, a significant proportion of the Fund is in overseas securities. Consequently the Fund has a passive currency programme in place managed by the investment managers with segregated global mandates (Lazard and Wellington). The purpose of this is to reduce the Fund's exposure to fluctuations in exchange rates.

Forward foreign exchange contracts are disclosed in the accounts at fair value which is the gain or loss that would arise from closing out the contract at the balance sheet date by entering into an equal and opposite contract at that date. A breakdown of forward contracts held by the Fund as at 31st March 2013 is given below. All forward contracts held by fund managers are exchange traded.

Open forward currency contracts

Settlement	Currency Bought	Local Value	Currency Sold	Local Value	Fair Value
					£'000
Assets					
Up to one month	GBP	77,977	JPY	967,800	615
	GBP	42,190	USD	64,499	1,818
One to six months	GBP	8,563	JPY	1,034,296	693
	GBP	28,961	USD	45,721	339
Total Assets					3,465

	GBP	46,023	USD	69,858	(2)
	Total Liabilities				
Net Forward Contracts 2012/13					(2,604)

ii) Futures

As at 31st March 2012 the Fund was holding significant cash assets in anticipation of investment with two new managers, PIMCO and GMO. In order to ensure this cash was not 'out of the market' the Fund entered into exchange traded index-based futures contracts, which were fully closed out as at 31st March 2013:

Type	Expires	Economic Exposure £'000	Market Value 31 March 2012 £'000	Economic Exposure £'000	Market Value 31 March 2013 £'000
Assets					
Overseas Equity	Less than one year	16,744	399	0	0
Total Assets		16,744	399	0	0
Liabilities					
Overseas Equity	Less than one year	3,539	(37)	0	0
Total Liabilities		3,539	(37)	0	0
Net Futures		20,283	362	0	0

e. Investments exceeding 5% of net assets

The following investments represent more than 5% of the net assets of the fund:

Security	Market Value 31 March 2012 £'000	% of total fund	Market Value 31 March 2013 £'000	% of total fund
UBS UK Equities Index Tracker Fund	241,143	28.5%	255,900	23.8%
Threadneedle Property Fund	91,825	10.9%	80,832	8.5%
PIMCO Global Multi-Asset Fund	-	-	77,262	8.1%

f. Stock Lending

The Fund did not undertake any direct stock lending activity during the year, but acknowledges that within pooled investments fund managers may participate in this activity.

14. Financial Instruments

a. Classification of financial instruments

Accounting policies describe how different asset classes of financial instruments are measured, and how income and expenses, including fair value gains and losses, are recognised. The following table analyses the carrying amounts of financial assets and liabilities by category. No financial assets were reclassified during the accounting period.

Pension Fund Annual Report and Accounts
2012 - 13

Investment type	2011/2012			2012/2013		
	Designated as Fair Value through Profit & Loss	Loans & Receivables	Financial Liabilities at amortised costs	Designated as Fair Value through Profit & Loss	Loans & Receivables	Financial Liabilities at amortised costs
	£'000	£'000	£'000	£'000	£'000	£'000
Financial Assets						
Fixed interest securities	82,223			86,762		
Index linked securities	40,839			46,564		
Equities	287,824			319,078		
Pooled Investments	365,916			479,831		
Derivative contracts	3,864			283		
Cash		56,683			18,728	
Other Investment Balances	4,556			3,583		
Debtors		7,247			7,543	
	785,222	63,930	-	936,101	26,271	-
Financial Liabilities						
Derivative contracts	(113)			(2,887)		
Other Investment Balances	(2,681)			(3,353)		
Creditors			(1,695)			(1,863)
	(2,794)	-	(1,695)	(6,240)	-	(1,863)
	782,428	63,930	(1,695)	929,861	26,271	(1,863)

b. Net gains and losses on financial instruments

The following table summarises the net gains and losses. As the majority of the financial assets and liabilities are classed at fair value through profit and loss, these relate to gains or losses on disposal and changes in market value of investments.

	31 March 2012	31 March 2013
	£'000	£'000
Fair Value through profit and loss	19,654	82,172
Loans and Receivables	(1)	0
Financial Liabilities measured at amortised cost	-	-
Total	19,653	82,172

c. Fair Value of financial instruments and liabilities

The following table summarises the carrying values of the financial assets and financial liabilities by class of instrument compared with their fair values. The fair value may differ from the carrying value where an investment is in an asset that is not traded such as a local authority company, however in most instances the carrying value will equate to the fair value.

	31 March 2012		31 March 2013	
	Carrying Value	Fair Value	Carrying Value	Fair Value
	£'000	£'000	£'000	£'000
Financial Assets				
Fair Value through profit and loss	785,222	785,222	936,101	936,101
Loans and Receivables	63,930	63,930	26,271	26,271
Total Financial Assets	849,152	849,152	962,372	962,372
Financial Liabilities				
Fair Value through profit and loss	(2,794)	(2,794)	(6,240)	(6,240)
Financial Liabilities measured at amortised cost	(1,695)	(1,695)	(1,863)	(1,863)
Total Financial Liabilities	(4,489)	(4,489)	(8,103)	(8,103)

d. Valuation of Financial instruments carried at fair value

The valuation of financial instruments has been classified into three levels, according to the quality and reliability of information used to determine fair values.

Level 1

Financial instruments at Level 1 are those where the fair values are derived from unadjusted quoted prices in active markets for identical assets or liabilities. Products classified as Level 1 comprise quoted equities, quoted fixed securities, quoted index linked securities and unit trusts.

Listed investments are shown at bid prices. The bid value of the investment is based on the bid market quotation of the relevant stock exchange.

Level 2

Financial instruments at Level 2 are those where quoted market investments are not available; for example, where an instrument is traded in a market that is not considered to be active or where valuation techniques are used to determine fair value and where these techniques use inputs that are based significantly on observable market data.

Level 3

Financial instruments at Level 3 are those where at least one input that could have a significant effect on the instrument's valuation is not based on observable data. Such instruments would include unquoted equity investments (such as private equity) and hedge fund of funds, which are valued using various valuation techniques that require significant judgement in determining appropriate assumptions.

The following table provides an analysis of the financial assets and liabilities of the pension fund grouped into Levels 1 to 3, based on the level at which the fair value is observable.

	Quoted market price	Using observable inputs	With significant unobservable inputs
Values at 31 March 2012	Level 1 £'000	Level 2 £'000	Level 3 £'000
Financial Assets			
Fair Value through profit and loss	653,527	131,686	9
Loans & Receivables	63,930	-	-
Total Financial Assets	717,457	131,686	9
Financial Liabilities			
Fair Value through profit and loss	(2,718)	(76)	-
Financial Liabilities measured at amortised cost	(1,695)	-	-
Total financial liabilities	(4,413)	(76)	0
Net Financial Assets	713,044	131,610	9

	Quoted market price	Using observable inputs	With significant unobservable inputs
Values at 31 March 2013	Level 1 £'000	Level 2 £'000	Level 3 £'000
Financial Assets			
Fair Value through profit and loss	322,661	613,431	9
Loans & Receivables	26,271	-	-
Total Financial Assets	348,932	613,431	9
Financial Liabilities			
Fair Value through profit and loss	(3,353)	(2,887)	-
Financial Liabilities measured at amortised cost	(1,863)	-	-
Total financial liabilities	(5,216)	(2,887)	0
Net Financial Assets	343,716	610,544	9

Between 2012 and 2013 the UBS UK Equities Index Tracker Fund was reclassified from level 1 to level 2 and all fixed income securities have been downgraded from level 1 to level 2 in line with the custodian's default pricing matrix, the reasons being the lack of liquidity in the market, and in most cases the prices being evaluated vendors rather than quoted.

15. Nature and Extent of Risks Arising from Financial Instruments

Risk and Risk Management

The Fund's primary long term risk is that the Fund's assets will be insufficient to meet its liabilities, in other words the promised benefits payable to members. The Fund maintains positions in a variety of financial instruments, as dictated by the Statement of Investment Principles (SIP) with the aim of minimising the risk of an overall reduction in the value of the Fund and to maximise the opportunity for gains across the whole fund portfolio.

Consequently the Fund is exposed to credit and liquidity risk, as well as market risk including foreign exchange and interest rate risk. A policy of diversification for its asset classes and investment managers helps the Fund to lower risk arising from financial instruments. Benchmarks for asset allocation and targets against which investment managers are expected to perform are further measures put in place to manage risk.

The management of risk is a key objective of the Fund and is part of the ongoing decision making process for the Pension Fund Sub-Committee. Risk management policies, such as the Risk Register for the Pension Fund, identify and analyse the risks faced by the Council's pensions operations. Measures to control and manage risks are also included within the risk register. Policies and the Risk Register are reviewed by Pension Fund Sub-Committee and also by Officers on a more frequent basis if required.

a. Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk includes interest rate risk, foreign exchange risk and other price risk. The Fund holds a variety of investments which expose it to market risk and details of the Fund's investment portfolio are set out in Note 13.

The Fund manages exposure to market risk in the following main areas:

- Regularly reviewing the pension fund investment strategy.
- Regular monitoring of asset allocation and investment performance.
- A policy of security and manager diversification.

On a daily basis Investment Managers will manage market risk in line with policies and procedures put in place in the Investment Manager Agreement and ensure the agreed limit on maximum exposure to any one issuer or any class of asset is not breached.

Other price risk

Other price risk is the risk that the value of the instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk).

Price risk is managed by constructing a diversified portfolio of investments traded in various markets. The Pension Fund Sub-Committee regularly reviews its asset allocation policy and seeks to diversify the assets that it holds. Diversification helps to ensure that the Fund has a balance of investments which offer different levels of risk and return. Pooled Funds are used where these represent the most efficient means of investing in an asset class. The breakdown between managers and asset class can be seen in Note 13.

Other price risk – sensitivity analysis

Potential price changes are determined based on the observed historical volatility of asset class returns. 'Riskier' assets such as equities will display greater potential volatility than bonds as an example, so the overall outcome will depend largely on funds' asset allocations.

Asset class	1 year expected volatility (%)	% of Fund
UK equities	16.0	29.8
Global equities (ex UK)	19.0	31.1
Property	14.5	8.6
Corporate bonds (short term)	7.1	1.3
Corporate bonds (medium term)	10.4	3
Corporate bonds (long term)	18.5	1.8
UK fixed gilts (short term)	2.9	0.3
UK fixed gilts (medium term)	7.9	2.1
UK fixed gilts (long term)	12.9	2.2
UK index linked gilts (short term)	3.3	1
UK index linked gilts (medium term)	5.9	1.1
UK index linked gilts (long term)	8.5	2.9
Cash*	0.8	1.2
Private Equity	27.8	0
Absolute Return/Diversified Growth	11.8	13.6
Total fund volatility	11.7	100

*includes exposure to Currency Forwards

The volatilities for each asset class and correlations used to create the total fund volatility have been estimated using standard deviations of 5,000 simulated one-year total returns using HRAM, the economic scenario generator maintained by Hymans Robertson LLP. The calibration of the model is based on a combination of historical data, economic theory and expert opinion. This can then be applied to the period end net investment assets as follows:

31 March 2012		Percentage change	Value on Increase	Value on Decrease
	£'000	%	£'000	£'000
Net Investment Assets	832,481	11.7	929,881	735,081
Total assets available to pay benefits	832,481		929,881	735,081

31 March 2013		Percentage change	Value on Increase	Value on Decrease
	£'000	%	£'000	£'000
Net Investment Assets	943,835	11.7	1,054,264	833,406
Total assets available to pay benefits	943,835		1,054,264	833,406

The calculations assume that these changes occur immediately. In practice any changes will occur over time and the actual funding level will therefore also be affected by a number of factors including further benefit accruals, contributions and differences between expected and actual investment returns. The calculations assume that all other factors and assumptions, in particular exchange rates, remain unchanged.

Interest Rate Risk

The Fund invests in financial assets for the primary purpose of obtaining a return on investments. These investments are subject to interest rate risks, which represent the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Fund's interest rate risk is routinely monitored by the Council and its investment advisors in accordance with the Fund's risk management strategy, including monitoring the exposure to interest rates and assessment of actual interest rates against the relevant benchmark. Investment Managers will also manage interest rate risk in line with policies and procedures put in place in the Investment Manager Agreements. Pension Fund cash held by the Administering Authority is invested in accordance with the Pension Fund's Treasury Management Strategy as agreed by the Pensions Sub-Committee.

The Fund's direct exposure to interest rate movement as at 31st March 2012 and 31st March 2013 is set out below. These disclosures present interest rate risk based on the underlying financial assets at fair value:

Asset Type	Balance at 31 March 2012	Balance at 31 March 2013
	£'000	£'000
Cash Deposits	50,053	13,974
Cash Balances	6,630	4,754
Fixed Interest Securities	97,200	101,781
Total	153,883	120,509

Interest Rate risk - Sensitivity Analysis

The Council recognises that interest rates can vary and can affect both income to the Fund and the value of the net assets available to pay benefits. A 100 basis points (bps) movement in interest rates is consistent with the level of sensitivity applied as part of the Fund's risk management strategy.

The analysis that follows assumes that all other variables, in particular exchange rates, remain constant, and shows the effects in the year on the net assets available to pay benefits of a +/- 100 bps change in interest rates:-

Asset Type	Carrying amount as at 31 March 2012	Change in year in the net assets available to pay benefits	
		+100 bps	-100 bps
	£'000		£'000
Cash & Cash Equivalents	50,053	501	(501)
Cash Balances	6,630	66	(66)
Fixed Interest securities	97,200	(11,470)	11,470
Total	153,883	(10,903)	10,903

Asset Type	Carrying amount as at 31 March 2013	Change in year in the net assets available to pay benefits	
		+100 bps	-100 bps
	£'000		£'000
Cash & Cash Equivalents	13,974	140	(140)
Cash Balances	4,754	48	(48)
Fixed Interest securities	101,781	(12,010)	12,010
Total	120,509	(11,822)	11,822

Note that an increase in the interest rates results in a decrease in the value of the bond portfolio and vice versa. This is due to the impact of the duration of the bonds and the inverse relationship between bond prices and interest rates.

Currency Risk

The Pension Fund may invest in financial instruments and transact in denominated currencies other than its functional currency (£UK). As a result the Fund is exposed to risks that the exchange rate of its currency relative to other foreign currencies may change in a manner that has an adverse impact on the portion of the Fund's assets or liabilities denominated in currencies other than sterling.

Investment Managers will manage foreign exchange risk by the means of passive hedging and enter into forward currency contracts to protect assets which have exposure to currencies other than sterling (further details are in Note 13).

The following table summarises the Fund's fair value exposure to assets denominated in currencies other than pound sterling as at 31st March 2013 and as at the previous period end:

Currency Exposure	Asset Value as at 31 March 2012	Asset Value as at 31 March 2013
	£'000	£'000
US DOLLAR	144,358	173,712
JAPANESE YEN	32,860	33,830
EURO	25,470	23,184
HONG KONG DOLLAR	18,352	17,872
SWISS FRANC	10,052	17,450
CANADIAN DOLLAR	7,698	5,588
SINGAPORE DOLLAR	5,212	5,227
NORWEGIAN KRONE	5,072	2,771
NEW TAIWAN DOLLAR	4,436	3,634
AUSTRALIAN DOLLAR	4,113	2,548
SWEDISH KRONA	3,032	3,025
BRAZILIAN REAL	2,430	1,876
MALAYSIAN RINGGIT	1,999	1,624
SOUTH AFRICAN RAND	1,646	282
SOUTH KOREAN WON	1,432	3,886
YUAN RENMINBI	1,361	0
DANISH KRONE	2	0
THAILAND BAHT	0	1,259
INDONESIAN RUPIAH	0	1,139
Total	269,525	298,907

Currency Rate risk – Sensitivity Analysis

Following analysis of historical data in consultation with the Fund's investment consultant, the estimated volatility for individual currency was assessed and used for the following sensitivity analysis.

31 March 2012		Potential Change v GBP	Value on increase	Value on decrease
	£'000	%	£'000	£'000
Currency Exposure	269,525	13	304,563	234,487
Total change in assets			35,038	(35,038)

31 March 2013		Potential Change v GBP	Value on increase	Value on decrease
	£'000	%	£'000	£'000

Pension Fund Annual Report and Accounts
2012 - 13

Currency Exposure	298,907	13	337,765	260,049
Total change in assets			38,858	(38,858)

This analysis assumes that all other variables, in particular interest rates, remain constant and that these changes occur immediately. In practice any changes will occur over time.

b. Credit Risk

Credit risk is the risk that the counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The market value of investments generally reflect an assessment of credit risk in their pricing and consequently the risk of loss is implicitly provided for in the carrying value of the Fund's financial assets and liabilities.

The Pension Fund reviews its exposure to credit and counterparty risk through its external Investment Managers by the review of the Managers' annual internal control reports to ensure that Managers exercise reasonable care and due diligence in their activities for the Pension Fund, such as in the selection and use of brokers, clearing houses, counterparties and other appointees with whom transactions on behalf of the Fund take place.

A counterparty rating is one measure of credit risk. The carrying amounts of investment assets best represent the maximum credit risk exposure at the Net Asset Statement date.

A majority of the assets of the Fund are held by the Fund's Custodian, StateStreet Global Services. Bankruptcy or insolvency of the Custodian may cause the Fund's rights with respect to securities held by the Custodian to be delayed or limited. Cash not forming part of the investment assets is held in the Fund's current accounts with the Co-operative Bank and Lloyds TSB Bank.

The Pension Fund Sub-Committee and senior officers monitor this risk by monitoring the credit rating and financial positions of the Custodian and banks the Fund uses.

Any excess cash from the Fund's bank accounts is invested in accordance with the Pension Fund's Treasury Management Strategy, prepared in accordance with the CIPFA Prudential Code and CIPFA Treasury Management Code of Practice. The Treasury Management Strategy sets out the criteria for investing and selecting investment counterparties and details the approach to managing risk for the Fund's exposure. In addition, excess cash held with the Custodian is swept into a liquidity fund to provide further diversification.

The Fund's holdings under the arrangements described above were held with the following institutions:

Summary	Rating (Fitch)	Balance at 31 March 2012 £'000	Balance at 31 March 2013 £'000
Cash (Current Assets)			
Co-operative Bank Plc	BBB+	8	67
Lloyds TSB Plc	A	6,622	4,688
Cash Deposits (Investment Assets)			
<i>Cash held outside fund managers and Custodian</i>			
Money Market Funds (Various)	AAA	10,605	0
Term Deposits (Co-operative Bank Plc)	BBB+	4,480	2,200
<i>Cash held by fund managers and Custodian</i>			
Cash (StateStreet Global Services)	AA-	1,432	334
Call Accounts (Various)	AA- to A	2,859	1,580
Money Market Funds (StateStreet Global Advisors)	AAA	30,677	9,857
Total		56,683	18,726

c. Liquidity Risk

Liquidity risk corresponds to the pension fund's ability to meet its financial obligations when they come due with sufficient and readily available cash resources.

The Fund's investments are substantially made up of listed securities which are considered readily realisable as they are listed on major security exchanges. The Fund has no holdings in private equity, infrastructure or direct property which can be considered 'illiquid'.

The Fund maintains investments in cash and cash equivalents outside of the investment assets held by the Custodian that are highly liquid and can be used for payables and expenses such as pension payments, transfers out, etc. The Fund's cash position is monitored on a daily basis by both the pension administrator and the Financial Services team.

Management prepares periodic cash flow forecasts to understand and manage the timing of the Fund's cash flows. The Pension Fund Sub-Committee in collaboration with the Fund's Actuary regularly review the Funding Strategy which considers the results of the triennial valuations to ensure the long-term solvency of the Fund as a whole, and that sufficient funds are available to meet all benefits as they fall due for payment. This ensures that sufficient cash reserves are available to meet forecasted cash outflows.

16. Funding Arrangements

The actuarial valuation of the Pension Fund is carried out every three years, in line with the Local Government Pension Scheme. The purpose is to set employer contribution rates for the forthcoming triennial period. This is carried out by an independent actuary appointed by the Fund and the last valuation took place as at 31st March 2010. The next valuation will take place as at 31st March 2013.

The contribution rates are set at a level sufficient to meet the cost of future benefits accruing and to eliminate, over a period of time, the deficit arising from past service. The valuation is carried out in accordance with the Fund's Funding Strategy Statement (FSS) a copy of which can be found on the Pension Fund website <http://hackney.xpmemberservices.com/> and a copy is also included in the Pension Fund Report and Accounts.

The objectives of the Fund's funding policy include the following:

- to ensure the long-term solvency of the Fund as a whole and the solvency of each of the notional sub-funds allocated to the individual employers;
- to ensure that sufficient funds are available to meet all benefits as they fall due for payment;
- not to restrain unnecessarily the investment strategy of the Fund so that the Administering Authority can seek to maximise investment returns (and hence minimise the cost of the benefits) for an appropriate level of risk;
- to help employers recognise and manage pension liabilities as they accrue with consideration to the effect on the operation of their business where the Administering Authority considers this appropriate;
- to minimise the degree of short-term change in the level of each employer's contributions where the Administering Authority considers it reasonable to do so;
- to use reasonable measures to reduce the risk to other employers and ultimately to the council tax payer from an employer ceasing participation or defaulting on its pension obligations;
- to address the different characteristics of the disparate employers or groups of employers to the extent that this is practical and cost-effective; and
- to maintain the affordability of the Fund to employers as far as is reasonable over the longer term.

The 2010 valuation was based on a market value of the Fund's assets as at 31st March 2010, which amounted to £729 million and revealed a past service deficit of £378 million. This represents a funding level of 65.8% of past service liabilities.

The valuation takes account of the amount of current and future pension liabilities of the Fund, the expected contributions received by the Fund and the expected rate of investment returns held by the Fund. Other factors which influence the valuation and are taken into account by the Actuary include anticipated pay and pension inflation, and mortality rates. The rates payable by the London Borough of Hackney and other participating scheduled and admission bodies vary from the contribution rate for the

Fund as a whole according to the employer's individual circumstances. The rates applying from 1st April 2011 (expressed as a percentage of employees' pensionable pay) are shown below:

Year	Employer Contribution rate
2011/2012	31.1%
2012/2013	31.1%
2013/2014	31.1%

The Fund's Actuary, Hymans Robertson, has calculated the contribution rate using the Projected Unit Method. This assesses the cost of benefits (as a percentage of pay) accruing to existing members during the year following the valuation, allowing for future salary increases. The resulting rate is adjusted to recover the past service deficit over twenty-two years, as noted above. The principal assumptions were:

Financial Assumptions

Assumption	Rate	Explanation
Investment return (discount rate)	5.95%	Based on 25-Year bond returns extrapolated to reflect the duration of the Fund's liabilities
Inflation	3.3% - CPI	
Salary increases	2.0% pa over CPI*	
Pension increases	In line with CPI	Assumed to be 0.5% less than RPI

* plus an allowance for promotional pay increases. Short term pay growth was assumed to be 1% p.a. for 2010/11 and 2011/12, reverting to 5.3% p.a. thereafter.

Mortality Assumptions

Future life expectancy based on the actuary's fund-specific mortality review was:

Mortality assumptions at age 65	Male	Female
Current pensioners	20.9	23.5
Future pensioners (assumed current age 65)	23.0	25.4

Commutation assumption

Future pensioners are assumed to elect to exchange pension for additional tax free cash up to 25% of HMRC limits for service to 31st March 2008 but that 63% of individuals would opt for tax free cash to HMRC limits for service from 1st April 2008.

17. Actuarial Present Value of Promised Retirement Benefits

In addition to the triennial funding valuation, the Fund's Actuary also undertakes a valuation of pension fund liabilities on an IAS 19 basis every year, using the same base data as the funding valuation rolled forward to the current financial year. This figure is used for statutory accounting purposes and differs from the assumptions and calculations contained in the triennial Actuarial Valuation (see Note 16), which is used

to determine the contribution rates payable by employers. This is because IAS 19 stipulates a discount rate rather than a rate which reflects market values.

The actuarial present value of promised retirement benefits at the accounting date, calculated in line with IAS 19 assumptions, is estimated to be £1,526 million (£1,296 million in 2011/12). The Fund accounts do not take account of liabilities to pay pensions and other benefits in the future.

The financial assumptions used for the IAS 19 valuation are set out in the table below:

Assumption	2012	2013
Inflation/pension increase rate assumption	2.5%	2.8%
Salary increase rate	4.8%*	5.0%**
Discount rate	4.8%	4.5%

* Salary increases are 1% per annum nominal for three years to 31 March 2015 reverting to the long term rate thereafter. ** Salary increases are 1% per annum nominal for three years to 31 March 2016 reverting to the long term rate thereafter.

18. Current Assets

The following is an analysis of the non-investment debtors balance carried on the Net Asset Statement.

Debtors	31 March 2012 £'000	31 March 2013 £'000
Contributions due	3,791	4,782
Sundry debtors	3,456	2,761
Cash Balances	6,630	4,754
Total	13,877	12,297

Analysis of Debtors

	31 March 2012 £'000	31 March 2013 £'000
Central Government bodies	0	0
Other local authorities	5,721	6,965
NHS Bodies	0	0
Public corporations and trading funds	0	0
Other entities and individuals	1,526	578
Total	7,247	7,543

19. Current Liabilities

The following is an analysis of the non-investment creditors balance carried on the Net Asset Statement.

Creditors	31 March 2012	31 March 2013
	£'000	£'000
Benefits Payable	(32)	(431)
Sundry Creditors	(1,663)	(1,432)
Total	(1,695)	(1,863)

Analysis of Creditors

	31 March 2012	31 March 2013
	£'000	£'000
Central Government bodies	(10)	(436)
Other local authorities	(304)	(305)
NHS Bodies	0	0
Public corporations and trading funds	(6)	0
Other entities and individuals	(1,375)	(1,122)
Total	(1,695)	(1,863)

20. Additional Voluntary Contributions

The Fund provides an AVC scheme for its contributors, the assets of which are invested separately from the Fund, in accordance with regulation 4(2)(b) of the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009. The scheme provider is Prudential, where the sums saved are used to secure additional benefits on a money purchase basis for those contributors electing to pay additional voluntary contributions.

The total value of sums invested in the AVC funds as at 31st March 2013 was £6.3 million (£6.5 million as at 31st March 2012). Contributions received into the AVC facility during the year amounted to £0.26 million (£0.28 million in 2011/12). The efficiency and effectiveness of the provider is monitored on a periodic basis to assess performance.

21. Related Party Transactions

London Borough of Hackney

The Fund is administered by the London Borough of Hackney. The Council is also the single largest employer of members of the pension fund and contributed £47.96

million to the Fund in 2012/13 (2011/12: £43.72 million). Consequently there is a strong relationship between the Council and the Pension Fund.

The Council incurred costs of £0.3 million in 2012/13 (0.3 million in 2011/12) in relation to administration of the Fund and was consequently reimbursed by the Fund for these expenses. Part of the Pension Fund cash holdings are invested on the money markets by the treasury management operations of the London Borough of Hackney in line with the Treasury Management Strategy.

Governance

The following Councillors were also members of the Local Government Pension Scheme (LGPS) during the year; Cllr Samantha Lloyd (Chair), Cllr Brian Bell, Cllr Robert Chapman (Vice Chair), Cllr Abraham Jacobson Cllr Daniel Kemp and Cllr Geoff Taylor.

Cllr Samantha Lloyd is a Board Member of Hackney Homes Ltd and is on the Governing Body at Mossbourne Academy (scheduled body employer). Cllr Brian Bell is Chair of Governors at Parkwood Primary School (LBH scheduled body). Cllr Geoff Taylor is on the Governing Body of Orchard Road Primary School (LBH scheduled body).

Neil Isaac, Employer Representative, is an employee of Hackney Homes Ltd and a member of the Pension Scheme. Jonathan Malins-Smith, Scheme Member Representative, is an employee of the London Borough of Hackney and a member of the Pension Scheme.

Key management personnel

Several employees of the London Borough of Hackney hold key positions in the financial management of the Fund. As at 31st March 2013 these employees included:

Ian Williams	Corporate Director of Finance and Resources
Michael Honeysett	Assistant Director, Financial Management
Jill Davys	Head of Financial Services
Julie Stacey	Treasury and Pension Manager, Financial Services
Richard Law-Deeks	Group Accountant, Financial Services

All of these employees are also members of the pension scheme. The financial value of their relationship with the Fund (in accordance with IAS 24) is set out below:

	31 March 2012	31 March 2013
	£'000	£'000
Short term benefits	120	124
Long term/post retirement benefits	20	20
Total	140	144

The disclosures required by Regulation 7(2)-(4) of the Accounts and Audit (England) Regulations can be found in the main accounts of the London Borough of Hackney.

22. Contingent Assets, Contingent Liabilities and Contractual Commitments

The Pension Fund has no material contingent assets, liabilities or contractual commitments.

23. Impairment Losses

During 2012/13 the Fund recognise an impairment loss of £0k (2011/12: £4k) for possible non-recovery of pension overpayments.

London Borough of Hackney Pension Fund

Statement of Investment Principles

 **Hackney**

INTRODUCTION

The London Borough of Hackney is the Administering Authority for the London Borough of Hackney Pension Fund. The Pensions Sub-Committee is the body with delegated powers to administer the Fund. The Committee, comprised of elected representatives of Hackney Council and non-voting employer and scheme member representatives, recognise that they have fiduciary duties and responsibilities towards beneficiaries, employers and local taxpayers that are analogous to those holding the office of Trustee in the private sector. The Committee takes expert professional financial advice to assist it with managing the Fund.

1 BACKGROUND TO THE FUND

1.1 The Legal Requirements

The Local Government Pension Scheme (Management and Investment of Funds) (Amendment) Regulations 2009 require pension fund administering authorities to prepare, maintain and publish a statement of the principles governing their decisions on the investment of the pension fund.

The Statement must cover the policy on:

- (a) the types of investment to be held;
- (b) the balance between different types of investments;
- (c) risk, including the ways in which risks are to be measured and managed;
- (d) the expected return on investments;
- (e) the realisation of investments;
- (f) the extent (if at all) to which social, environmental or ethical considerations are taken into account in the selection, retention and realisation of investments;
- (g) the exercise of the rights (including voting rights) attaching to investments, if the authority has any such policy; and
- (h) stock lending.

Regulation 12(3) also requires Administering Authorities to have regard to guidance given by the Secretary of State on investment decision making and to state in their Statement how far they comply with that guidance. This is included as appendix 1.

1.2 The Scheme

The Pension Scheme for the London Borough of Hackney is a final salary defined benefit scheme. Benefits are determined by a range of statutory provisions. The main regulations governing the operation of the scheme are the Local Government Pension Scheme (Members, Contributions and Benefits) Regulations

2007, Local Government Pension Scheme (Administration) Regulations 2008 and the Local Government Pension Scheme (Transition) Regulations 2008.

The terms of the Local Government Pension Scheme (LGPS) Regulations set out in clear terms the benefits that are payable to Scheme members and as such the benefits are guaranteed for those members. The contributions payable by Scheme members are also defined in the Regulations and therefore members are not reliant on investment performance for their pension benefits. Employing Authorities are required to pay contributions into the Scheme in order to meet the cost of funding employee benefits and as such are required to meet any shortfall in funding the pension liabilities of Scheme members. This means that if the Pension Fund's investments do not perform as well as expected, any shortfall has to be met from Council Tax, other public funds and by other employers participating in the Fund, not by reducing the amount of pension benefits paid or by increasing employees' contributions.

Pension benefits for individuals are increased each year in line with movements in the Consumer Prices Index (CPI).

1.3 The Fund's Objectives

The objectives of the Fund as laid down in the Funding Strategy Statement include the following:

- To ensure the long-term solvency of the Fund;
- To ensure that sufficient funds are available to meet all benefits as they fall due for payment;
- Not to restrain unnecessarily the investment strategy of the Fund so that the Administering Authority can seek to maximise investment returns (and hence minimise the cost of the benefits) for an appropriate level of risk;
- To help employers recognise and manage pension liabilities as they accrue;
- To minimise the degree of short-term change in the level of each employer's contributions where the Administering Authority considers it reasonable to do so;
- To use reasonable measures to reduce the risk to other employers and ultimately to the Council Tax payer from an employer defaulting on its pension obligations; and
- To address the different characteristics of the disparate employers or groups of employers to the extent that this is practical and cost-effective.

The primary investment objective of the Fund is to ensure that due regard is paid to the best financial interests of all its stakeholders. Against this background, the Fund's approach to investing is to:

- Optimise the return on investment consistent with a prudent level of risk;
- Ensure that there are sufficient assets to meet the liabilities; and
- Ensure the suitability of assets in relation to the needs of the Fund.

1.4 The Pensions Sub-Committee

The Council has delegated responsibility for the operation and management of the scheme to the Pensions Sub-Committee (a Sub-Committee of the Regulatory Committee).

The Sub-Committee's terms of reference require them to act as Trustees of the Council's Pension Fund within the terms of the Superannuation Act 1972. The terms of reference are included within the Council's Constitution which can be found on the Council's website www.hackney.gov.uk or a copy obtained from the Financial Services Department, Keltan House, 89-115 Mare Street, London E8 4RU, email: pensions@hackney.gov.uk.

1.5 Advice

Advice to the Members of the Pension Sub-Committee is given by the executive officers of the Council (including, but not limited to, the Corporate Director of Finance and Resources and the Corporate Director of Legal, HR and Regulatory Services).

The Pension Fund has access to the use of external providers for actuarial and investment services for advice. The Pension Fund employs the services of an Actuary to provide ongoing actuarial advice and to carry out a valuation of the Fund every three years (the triennial valuation) in accordance with the Administration Regulations. In addition the Fund also uses an appointed Investment Advisor to provide professional advice to the Committee on investment related issues.

The Pensions Sub-Committee monitors the level of fees that are paid to the advisers in order to ensure that the advice is charged at an appropriate level, and represents value for money. The Committee will carry out procurement exercises at appropriate intervals to ensure that this continues to be the case.

1.6 Types of Investment

The Fund invests primarily in Equities (UK and Global) with the balance invested in Bonds (UK, Overseas and Index-Linked), Property, a Global Tactical Asset Allocation Strategy and Multi-Asset Absolute Return. The Fund regularly reviews its asset allocation policy and seeks to diversify the assets that it holds. Diversification helps to ensure that the Fund has a balance of investments which offer different levels of risk and return. Pooled Funds are used where these represent the most efficient means of investing in an asset class. Some use of derivatives may also be made. More detail on the types of investment, the balance between the investment types and the managers that the Fund employs is contained within section 5, Investments.

1.7 The Management of Risk

Whilst the objective of the Fund is to maximise the return on its investments, it recognises that this has to be within certain risk parameters and that no investment is without an element of risk. The Fund acknowledges that its predominantly equity based investment strategy may entail significant risk, particularly due to the short term volatility that equity investments can involve. The longer term nature of the fund and the expected higher longer term returns expected of equity investments over bonds mean, however, that this remains an appropriate strategy for the Fund. A policy of diversification for its investments and investment managers helps the Fund to lower overall risk. Benchmarks and targets against which investment managers are expected to perform are further measures put in place to manage the risks for the fund. The Fund maintains a Risk Register which is reviewed on an annual basis by the Pensions Sub-Committee.

The Committee monitors risk in two ways. As indicated above, they have set a strategic asset allocation benchmark for the Fund. They assess risk relative to that benchmark by monitoring the fund's asset allocation and investment returns relative to the benchmark. They also assess risk relative to liabilities by monitoring the delivery of benchmark returns relative to liabilities.

The Committee provides a practical constraint on Fund investments deviating greatly from the Committee's intended approach by adopting a specific asset allocation benchmark and by agreeing benchmark asset allocations and tracking error requirements with their managers which the Committee monitors.

2 RESPONSIBILITIES

2.1 The Pensions Sub-Committee terms of reference as at the date of the publication of this Statement are as follows:

- (a) To act as Trustees of the Council's Pension Fund within the terms of the Superannuation Act 1972, the Local Government Pension Scheme Regulations 2008 (as amended) and the Local Government Pension Scheme (Management and Investment of Funds) Regulations 1998 (as amended).
- (b) To make arrangement for the appointment of and appoint suitably qualified pension fund administrators, advisors, investment managers and custodians and to periodically review those arrangements.
- (c) To formulate and publish a Statement of Investment Principles
- (d) To set the overall strategic objectives for the Pension Fund having taken appropriate expert advice, and develop a medium term plan to deliver the objectives.
- (e) To determine the strategic asset allocation policy, the mandates to be given to the investment managers and the performance measures to be set for them.
- (f) To monitor the performance and effectiveness of the investment managers and their compliance with the Statement of Investment Principles.
- (g) To set an annual budget for the operation of the Pension Fund and to monitor income and expenditure against budget.
- (h) To receive and approve an Annual Report on the activities of the Fund prior to publication.
- (i) To keep members of the Pension Fund informed of performance and developments relating to the Pension Fund on an annual basis.
- (j) To keep terms of reference under review.
- (k) To make recommendations to Regulatory Committee in respect of employer discretions.
- (l) To determine all matters in relation to admission body issues.

2.2 The Sub-Committee is also responsible for reviewing performance of the investment managers (including the AVC manager), the expertise and sustainability of the investment process, procedures, risk management, internal controls, transaction costs and key personnel. It is also responsible for reviewing social, environmental and ethical matters and the exercise of rights including voting rights.

2.3 Members of the Sub-Committee receive training in their responsibilities as quasi trustees to the Pension Fund and in the operation of the pension scheme with training primarily provided as part of the formal Committee meeting process to ensure that as many Members as possible are in attendance. The Fund's investment advisor, officers of the Council and other external providers will provide the training itself with the Committee reviewing the programme of training to be administered to ensure that it is appropriate to the Committee's needs. The Pensions Sub-Committee has embraced the CIPFA Knowledge and Skills Framework and has undertaken a training programme to ensure that Committee

Members have the requisite knowledge and skills to be able to fulfil their responsibilities as 'trustees' of the Pension Fund.

2.4 The Council's Corporate Director of Finance & Resources is responsible for ensuring the following are provided to the Committee for decision making, where appropriate including: -

- (a) Budget setting and monitoring
- (b) Annual Report and Accounts
- (c) Preparation of Statement of Investment Principles
- (d) Obtaining the Actuarial Report
- (e) Developing and maintaining the Funding Strategy Statement
- (f) Scheme Communications

2.5 The responsibilities of the following are set out below

- (a) Investment Manager – Day-to-day decisions on investment of the Fund's assets within the mandates approved by Committee and set out by the Investment Management Agreement. Exercise of corporate actions within the policy set by this Statement of Investment Principles. Reporting to the Executive Officers and Pensions Sub-Committee on performance against established benchmarks.
- (b) Custodian – Providing safe keeping for the share certificates and other documents of title to Fund investments. Receiving and accounting for dividends. Taking corporate actions if required to do so. Investing surplus cash.
- (c) Actuary – Carrying out the actuarial valuation of the Fund's assets and liabilities every three years in accordance with the regulations. The valuation report specifies the level of funding to cover accrued liabilities and the consequent changes (if any) to the employer's contribution rates. The Actuary is also responsible for negotiating bulk transfer arrangements and determining contribution rates for new employers where these are established between triennial valuations.
- (d) Investment Consultant – The investment consultant is there to provide the Pension Sub-Committee and officers of the Council with investment related advice pertinent to the management of the Pension Fund to ensure that it's investments are appropriate and prudent.
- (e) Administrators – The Council employs an external Pension Fund administrator to undertake the day to day administration of the Pension Fund, including the payment of pension benefits and maintenance of pension benefit records.

3 FUNDING POSITION

3.1 The liabilities of the Pension Fund are the pensions due to be paid to current pensioners and their dependents, deferred members of the Scheme and the future benefits that will be paid to active members of the Scheme. The assets held to meet those liabilities are the investments held by the Pension Fund. The Fund's actuarial advisor undertakes an actuarial valuation once every three years in accordance with the prevailing regulations. This reviews the projected liabilities of the Fund at the valuation date (in respect of benefits accrued up to that point) and the assets held by the Fund to meet those liabilities. Comparing the assets against the projected liabilities establishes the overall funding level that the Fund has.

3.2 The results of the last actuarial valuation carried out as at 31st March 2010 are set out below: -

Liabilities	£m
Pensioners, spouses and other beneficiaries	445.5
Deferred pensioners	331.8
Active members (Fund membership to 31 st March 2010)	330.2
Total liabilities	1,107.5
Market value placed on the assets	729.2
Past service shortfall	(378.3)
Funding Level	65.8%

3.3 The valuation therefore shows a past service deficit of £378.3 million representing a funding level of 66%.

3.4 In the intervening period between valuations the Committee receives regular updates on the overall funding position of the Fund and where appropriate individual employer positions.

3.5 Under the Local Government Pension Scheme (Administration) 2008 Regulations, the Fund is required to publish a Funding Strategy Statement in an actuarial valuation year. This is to set out the principles of how the Fund intends to meet its liabilities and where there is a deficit to set out how it intends to recover that deficit. The latest Funding Strategy Statement can be found on the Pension Fund website <http://hackney.xpmemberservices.com/Home.aspx> or alternatively a copy can be obtained from the Financial Services Department, Keltan House, 89-115 Mare Street, London E8 4RU, email: pensions@hackney.gov.uk

3.6 The committee, on advice from the actuarial and investment advisors, will give due consideration to undertaking asset/liability studies to determine the most appropriate asset distribution.

3.7 Pensions are paid by the Fund calculated in accordance with the provisions laid down in the Local Government Pension Scheme (Members, Benefits and Contributions) Regulations 2007 (as amended). Pension benefits are therefore set down by Statute meaning that the level of pension benefits that an individual receives is not affected by the investment returns on the Fund.

3.8 Notwithstanding this, pensions do have to be funded and the main sources of funding are: -

- (a) Employee contributions (generally based on a range between 5.5% to 7.5% of salaries for existing and all new members);
- (b) Income from investment of funds not needed to meet day to day liabilities; and
- (c) Employer contributions to meet future liabilities not met by other means plus any deficit identified in the actuarial review

3.9 This means that employers participating in the Fund, including the Council have a direct interest in the investment returns achieved for the Fund to the extent that any funding shortfall is met from employer's contributions.

4 INVESTMENT POLICY

- 4.1 The investment objectives are to maximise income while managing risk so that the Pension Fund can meet its liabilities with the minimum employers' contributions and give the greatest stability of contributions over the long term. The Committee keeps under review the asset allocation within the Fund to ensure that the Fund has the most appropriate asset distribution to achieve its objectives. The Committee will also review the most appropriate method of reviewing the asset allocation policy to determine whether this should be an asset liability study or a policy of ongoing strategy review.
- 4.2 The predominance of equities is based on the evidence that over the long term they have outperformed other asset classes. The central investment scenario (based on 2007 valuation assumptions) is that, after allowing for the higher expenses involved in investing in equities, returns will on average exceed gilt returns by 1.45% p.a.
- 4.3 The use of fixed interest investments (a combination of conventional, index-linked and corporate bonds) is to hedge liability risks and reduce volatility in the Fund. Similarly property, currency and other alternative investment assets are used as a means of diversifying the portfolio to ensure that there is a sufficient spread of risk. Within this structure the Trustees have sought to balance risk with return by having a spread of investment categories and having a portion of its investments managed passively.
- 4.4 The structure of eight managers was selected because it represents a good balance between the benefits of manager diversification and the disadvantage of reduced economies of scale on the investment fees charged.
- 4.5 The strategic benchmarks of the managers are set out in paragraph 5.7 The performance targets and targeted tracking errors are given below: -

	Reporting Frequency	Performance Target	Timeframe	Tracking Error/Volatility
Global Equities manager A – Lazard	Monthly	+3%	p.a. on rolling 3 year	5-6%
Global Equities manager B – Wellington	Monthly	+2%	p.a. on rolling 3 year	Not Applicable
Passive Equity manager – UBS	Monthly	+/-0.25%	p.a. on rolling 3 year	Not Applicable
Fixed Interest manager – F&C	Monthly	+1%	p.a. on rolling 3 year	Less than 3%
Property Manager – Threadneedle	Quarterly	+1%	p.a. on rolling 3 year	n/a
GTA Manager – BlackRock	Monthly	+15%	p.a. on rolling 3	14-16%

			year	
Multi-Asset Absolute Return - GMO	Monthly	+3-5%	p.a. on rolling 3 year	5-10%
Multi-Asset Absolute Return - PIMCO	Monthly	+8-10%	p.a. on rolling 3 year	9-11%

- 4.6 The minutes of each meeting of the Pensions Sub-Committee are published after they have been approved by the following meeting of the Sub-Committee. Copies of the agenda, papers and minutes of all meetings are published on the Council website www.hackney.gov.uk
- 4.7 The Statement of Investment Principles will be reviewed at least every three years following the triennial valuation or where there are material changes required to be made to the Statement. Where material changes occur the SIP will be revised within six months of such changes.
- 4.8 The majority of investments held by the Fund will be held within the investments that are realisable within a short time frame with the exception of property which is relatively illiquid and represents less than 15% of the Fund's assets.

5 INVESTMENTS

- 5.1 The general powers and duties of local authorities regarding the investment of Pension Fund monies is contained in the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009 and any subsequent amending regulations. The main provisions are that an administering authority: -
- (a) Must invest any fund money that is not needed immediately to make payments from the fund.
 - (b) Must obtain proper advice at reasonable intervals about their investments.
 - (c) Must consider such advice in taking any steps about their investments.
 - (d) May appoint one or more investment managers to manage and invest fund money instead of managing and investing it themselves.
 - (e) Must keep the performance of an appointed investment manager under review.
 - (f) May invest in any investment made in accordance with a Section 11 scheme under the Trustee Investments Act 1961 without any restriction as to quantity.
- 5.2 The Sub-Committee decided that with the exception of the GTAA fund manager, the other managers will only be allowed to use derivatives for hedging purposes and not for gearing or speculative purposes, although some hedging may be used to be able to maintain market exposure in anticipation of receipt of dividends. The use of index futures must be relevant to the Benchmark.
- 5.3 Existing arrangements also permit fund managers to make use of corporate bonds. Having considered the issue of balancing risk with return, the Pensions Sub-Committee decided that the minimum credit rating for direct investments in corporate bonds (or Preference Shares) should be no lower than a B with an overall average rating of BBB or higher for the credit portfolio and a limit of 5% maximum of F&C's assets for an allocation to high yield bonds.
- 5.4 These arrangements followed an extensive review process conducted by the Committee with the advice of expert specialists as described earlier. This has created a structure which is intended to balance risk with return. At this stage no provision has been made for investing in hedge funds or private equity.
- 5.5 The Pension Sub-Committee accepts, however, that circumstances can change and therefore intends to keep the inclusion of private equity, hedge funds and other alternative asset classes under review.
- 5.6 Information on the Investment Managers selected by the Pensions Sub-Committee to manage the investment of the fund is given below: -
- (a) **Global Equities** - Lazard has a thematic approach to investing, which places a high emphasis on longer term growth trends. Wellington operates a more value based approach looking for undervalued companies in which to invest. Using two managers with differing investment styles reduces the risk of volatility in fund performance. When one style of investment is not
-

performing well, the other should compensate and vice versa. Both managers operate with an MSCI All Countries benchmark which includes an element of active UK investments.

- (b) **UK Equities** - UBS has been appointed to invest a proportion of the Fund's assets in UK equities on a passive basis. This means they will not attempt to outperform the index but will invest in the same proportions as the stocks in the index. The Pension Fund is invested through a pooled fund arrangement in its indexed portfolio. The Pension Fund has decided to increase the maximum any one investment manager can invest in any single pooled fund up to 35%. This decision allows for more effective and cost efficient investment arrangements through the increased use of pooled funds and complies with the LGPS (Management and Investment of Funds) Regulations 2009.
- (c) **Bonds** - F&C will manage a bond portfolio on an active basis, including corporate and overseas bonds.
- (d) **Property** - Threadneedle will manage the Fund's property exposure on an active basis through a pooled fund arrangement.
- (e) **Global Tactical Asset Allocation** – BlackRock is an active GTAA manager with the Pension Fund invested through a pooled investment vehicle.
- (f) **Multi-Asset Absolute Return Funds** – GMO and PIMCO are active multi-asset absolute return funds designed to provide the Fund with equity like returns with a focus on capital preservation. Both investments are through pooled investment vehicles.

5.7 The Pension Fund employs eight external fund managers to handle the investment of the Fund's assets. They have responsibility for making day to day decisions on investments within the constraints of agreements made with the Pension Fund and the terms of this Statement of Investment Principles. The specific mandates given to each manager are summarised below: -

- two active global equity managers (Lazard and Wellington)
- a passive UK equity manager (UBS)

The overall benchmark allocations to each asset class and the index against which performance is measured are set out in the table below. Investment ranges have been set to allow flexibility within investment parameters.

Asset Class	Benchmark Allocation	Index	Investment Ranges
UK Equities	26.2%	FTSE All Share	24-28.5%
Global Equities*	32.8%	MSCI AC World Index	30-35.5%
Total	59%	Total Equities	54-64%

*Global equity allocation includes c3.3% UK Equities bringing the effective Fund target benchmark allocation to 29.5% UK Equities/29.5% Overseas Equities

The Fund employs an active bond manager, F&C, with the following benchmarks:

Asset Class	Benchmark Allocation	Index	Investment Ranges
UK Fixed Interest (Gilts)	6.4%	FT Gilt All Stock Index	
Corporate Bonds	6.4%	Merrill Lynch Sterling Non-Gilts Index	
UK index linked bonds	4.2%	FT Over 5 Years Index-Linked	
Total	17%	Composite	15-19%

The Fund also employs an active property manager Threadneedle with the benchmark as set out below:

Asset Class	Benchmark Allocation	Index	Investment Ranges
Property	10%	HSBC APUT All Balanced Funds Index	
Total	10%		9-11%

The Fund employs three managers for investments in alternative asset classes for Global Tactical Asset Allocation (GTAA), BlackRock and multi asset absolute return, GMO and PIMCO:

Asset Class	Benchmark Allocation	Index	Investment Ranges
Alternative Investments	14%		
GTAA	2%	Cash LIBOR	
GMO	3.5%	CPI	
PIMCO	8.5%	n/a	
Total	14%		12-16%

5.8 All investment managers are required to report performance on at least a quarterly basis with performance also being measured by an independent external performance measurement service. The Pension Sub-Committee reviews the

performance of all its investment managers on a quarterly basis and receives reports from officers and investment advisors on that performance. The Committee will also receive presentations from its investment managers over the course of a financial year at its regular Committee meetings with officers also meeting with investment managers on a more regular basis. In addition the Committee will consider in conjunction with its investment advisors and officers the appropriate asset allocation for the Fund on a regular basis.

6 RISK

- 6.1 Risk management forms a key part of Pension Fund Governance and is part of the ongoing decision making process for the Committee. The benefits of successful risk management are clear for the Fund in improved financial performance, better delivery of services, improved Fund governance and compliance.
- 6.2 The Fund recognises that the lowest risk strategy would be to fully match its assets against the liabilities which the Fund has and that this would involve a 100% weighting towards index-linked government bonds. The longer term nature of the Fund and the current funding position mean however that such an approach may not be the most cost effective for the Fund and therefore, having sought actuarial and investment advice, the Fund has adopted a more calculated 'higher' risk approach to its investment strategy in order to achieve a higher rate of return over the longer term and therefore reduce the overall cost of funding the scheme. Consequently the Fund operates with an asset distribution which it believes will over the longer term achieve a better rate of return.
- 6.2 The Fund also operates with a policy of diversifying the asset classes it invests in order to assist with the objective of reducing overall risk to the Fund. The Fund also diversifies using a number of investment managers to spread the risk to the Fund of being overly reliant on one manager.
- 6.3 The management of risk is a key objective of the Fund and as part of that management, the Fund sets its managers with appropriate benchmarks against which they are measured. Managers are also set targets for performance against their benchmark as outlined in the section on investments.
- 6.4 The Fund maintains a risk register which is reviewed annually by the Pensions Sub-Committee. The risk register sets out the nature of the risks which face the fund and an assessment of those risks as to whether they fall into high, medium or low categories. Measures to control and manage risks are included within the risk register and these are also monitored by the Committee.

7 SOCIALLY RESPONSIBLE INVESTMENTS

- 7.1 The Pension Sub-Committee acting in their role as quasi Trustees have carefully considered socially responsible investment in the context of their legal and fiduciary duties and obligations.
- 7.2 In view of the Trustees principal objectives described earlier in this statement, they take the view that non-financial factors should not drive the investment process at the cost of financial return on the Fund. They will not actively disinvest in companies for ethical, social or environmental reasons as this may impact on fund returns and would not accord with their principal objectives.
- 7.3 The Trustees also believe that they do not have the relevant expertise to make frequent assessment of the financial impact of companies' activities. To that extent, they hold a policy of non-interference with the day-to-day decision making of the investment managers.
- 7.4 However, the Pension Sub-Committee takes the view that companies that operate socially responsible policies and attempt to find environmentally sustainable ways of meeting customers' needs, will tend to have a more secure future than those that do not. The Committee therefore encourages its active equity investment managers to take a positive view of such companies where their performance on other criteria is similar to that of other comparable companies.
- 7.5 The London Borough of Hackney is a member of the Local Authority Pension Fund Forum (LAPFF), which currently comprises 55 local authority pension funds with combined assets of £115 billion. The Forum exists to promote the investment interests of local authority pension funds, and in particular to maximise their influence as shareholders to promote corporate social responsibility and high standards of corporate governance amongst the companies in which they invest.
- 7.6 The Administering Authority of the London Borough of Hackney recognises that the public health role of the principle employer in the Pension Fund may be seen to be in conflict with the Pension Fund's investment in certain stocks or sectors. At this time, the Fund does not believe that a screening policy to specifically exclude or include companies should be put in place as this would conflict with the fiduciary responsibilities of managing the Fund.

8 VOTING RIGHTS

8.1 The Pensions Sub-Committee's policy on corporate governance and proxy voting policy is set out in Appendix 2 to this Statement. Individual investment managers will comply as far as possible with the fund's voting policies.

9 STOCK LENDING

9.1 The Fund does not currently undertake any direct stock lending, but the position will be subject to review. The Fund does recognise however, that within pooled funds, investment managers may engage in stock lending activities.

10 COMPLIANCE

10.1 In accordance with regulation 12(3) of the LGPS (Management and Investment of Funds) Regulations 2009, the Council acting in its capacity as Administering Authority is required to state the extent to which it complies with guidance given by the Secretary of State and where it does not comply the reasons for non-compliance.

10.2 The current guidance relates to that issued by the CIPFA Pensions Panel – Principles for Investment Decision Making and disclosure in the Local Government Pension Scheme in the United Kingdom – A guide to the Application of the 2008 Myners Principles to the Management of LGPS Funds. The Principles revolve around Pension Fund investment, scheme governance, disclosure and consultation and have been set at a relatively high level to give funds flexibility whilst at the same time ensuring that Local Authority Funds have a common set of principles and guidance on which to operate. These Principles have replaced the 10 Myners Principles published in 2001.

10.3 The set of six Myners Principles as they apply to Local Authority Pension Funds are:

- Effective Decision Making
- Clear Objectives
- Risk and Liabilities
- Performance Assessment
- Responsible Ownership
- Transparency and Reporting

10.4 The Principles and the requirements are set out in Appendix 2 to this report. Compliance against these principles is also detailed in the appendix.

10.5 A glossary of technical terms used by investment professionals is attached as Appendix 3.

APPENDIX 1

PRINCIPLES FOR INVESTMENT DECISION MAKING AND DISCLOSURE IN THE LOCAL GOVERNMENT PENSION SCHEME IN THE UNITED KINGDOM 2009 – APPLICATION OF MYNERS PRINCIPLES 2008 TO THE MANAGEMENT OF THE LGPS FUNDS

The LGPS (Management and Investment of Funds) Regulations 2009, regulation 12(3) require Administering Authorities to state the extent to which they comply with the Guidance given by the Secretary of State and give reasons for non-compliance.

Principle	Compliance Statement
<p>Effective Decision Making Administering Authorities should ensure that:</p> <ul style="list-style-type: none"> • Decisions are taken by persons or organisations with the skills, knowledge, advice and resources necessary to make them effectively and monitor their implementation • Those persons or organisations have sufficient expertise to be able to evaluate and challenge the advice they receive, and manage conflicts of interest 	<p>Compliant</p> <p>The Pensions Sub-Committee is the body responsible for the management of the Pension Fund.</p> <p>The Committee receives regular training and seeks and obtains professional advice. The Committee are clear on their fiduciary responsibilities in the management of the Fund. Papers are circulated in advance of meetings and a yearly business plan is presented to Committee at the start of each year.</p> <p>A dedicated training plan to cover the CIPFA Knowledge and Skills Framework has been developed to enable Members of the Committee to assess and meet the required levels of skill and knowledge.</p>
<p>Clear Objectives</p> <ul style="list-style-type: none"> • An overall investment objective(s) should be set out for the fund that takes account of the scheme's liabilities, the potential impact on local tax payers, the strength of covenant for non-local authority employers, and the attitude to risk of both the administering authority and scheme employers, and these should be clearly communicated to advisers and investment managers. 	<p>Compliant</p> <p>The Committee's objective for investment is to maximise return within controlled risk parameters.</p> <p>The Committee regularly reviews the asset/liability position of the Fund and seeks the advice of its advisers including the Fund Actuary when determining investment policy. The Fund has set its own benchmark for performance.</p> <p>The Fund's Funding Strategy Statement can be found on the Pension Fund website at: http://hackney.xpmemberservices.com/Home.aspx</p>
<p>Risk and Liabilities</p>	<p>Compliant</p>

<ul style="list-style-type: none"> • In setting and reviewing their investment strategy, administering authorities should take account of the form and structure of liabilities • These include the implications for local tax payers, the strength of the covenant for participating employers, the risk of default and longevity risk 	<p>The Fund Actuary undertakes a triennial valuation of the Fund, measuring the gap between the Fund's assets and liabilities. The Committee receives regular updates on the funding position of the Fund, the appropriateness of the assets and benchmarks.</p> <p>The Committee regularly receives updates on the status of employers within the Pension Fund.</p> <p>The Fund has in place a risk register which is reviewed on a regular basis.</p> <p>The Committee is aware of their responsibility to all stakeholders in the Fund including the local tax payers.</p> <p>The Fund is a member of Club Vita which looks at longevity risk specific to the London Borough of Hackney Pension Fund.</p>
<p>Performance Assessment</p> <ul style="list-style-type: none"> • Arrangements should be in place for the formal measurement of the investments, investment managers and advisers. • Administering Authorities should also periodically make a formal assessment of their own effectiveness as a decision making body and report on this to scheme members. 	<p>Compliant</p> <p>Formal arrangements are in place for monitoring both quarterly and longer term performance of the Fund's investments and investment managers with the use of external performance measurement services.</p> <p>The Pensions Sub-Committee produce an annual report of the work of the Committee and the training undertaken by the Committee. Members are also involved in a dedicated training programme to ensure that they meet the requirements under the CIPFA Knowledge and Skills Framework.</p>
<p>Responsible Ownership</p> <p>Administering Authorities should:</p> <ul style="list-style-type: none"> • Adopt or ensure their investment managers adopt, the Institutional Shareholders' Committee Statement of Principles on the responsibilities of shareholders and agents, • Include a statement of their policy on responsible ownership in the Statement of Investment Principles; and • Report periodically to scheme members on the discharge of such responsibilities. 	<p>Compliant</p> <p>The Fund's Statement of Investment Principles (SIP) contains a statement on the Fund's policy towards socially responsible investment.</p> <p>The Fund's investment managers have adopted the ISC Statement on Responsibilities. The SIP is included in the Pension Fund Annual Report and is also available on the Pension Fund website: http://hackney.xpmemberservices.com/Home.aspx</p> <p>The London Borough of Hackney is a member of the Local Authority Pension Fund Forum (LAPFF), which currently comprises 52 local authority pension funds with combined assets of £90 billion. The Forum exists to promote the investment interests of local authority pension funds, and in particular to maximise their influence as shareholders to promote corporate social responsibility and high standards of corporate governance amongst the companies in which</p>

<p>Transparency and Reporting</p> <p>Administering Authorities should:</p> <ul style="list-style-type: none"> Act in a transparent manner, communicating with stakeholders on issues relating to their management of investment, its governance and risks, including performance against stated objectives; and Provide regular communication to scheme members in the form they consider most appropriate. 	<p>they invest</p> <p>Compliant</p> <p>The Fund's Governance Policy and Compliance Statement and the Fund's Communication Policy Statement setting out the Fund's policies in respect of governance and communicating with stakeholders are available on the Pension Fund website.</p> <p>The Fund holds an annual Employer Forum to ensure all employer's can be updated with issues concerning the Fund and can feedback ideas to the Fund.</p> <p>The Fund produces an Annual Report and Accounts which can be found on the Pension Fund website.</p> <p>The Fund sends an Annual newsletter to all Scheme Members which includes a summary of the Annual Report and Accounts. In addition active and deferred members of the Pension Fund are sent an Annual Benefit Statement. Other newsletters are also sent, as required, to ensure that scheme members are updated with any changes to their benefits.</p> <p>All policy documents can be found on the Pension Fund website: http://hackney.xpmemberservices.com/Home.aspx</p>

APPENDIX 2

Corporate Governance and Proxy Voting Policy

IMPLEMENTATION AND BENEFITS

Introduction

This document is designed to set out the policy, which directs our proxy voting; to deal with the implementation of the policy; and to outline the benefits that accrue to the Fund by the policy's application.

Principle

The right of shareholders to vote at company meetings is a fundamental link in the chain that binds the owners of the company to those who make the investment decision. The exercise of that vote in an informed way lies at the heart of the regulation and promotion of good corporate governance.

To this end, our Fund managers will be instructed to vote shares in UK companies in accordance with this policy. We retain a commitment to pragmatic and flexible voting and we would instruct our fund managers to contact us on any matters of corporate governance which might be considered contentious.

Policy

Our policy is based on the principles of best practice of corporate governance as laid out in the Combined Code. As such, we will tend to vote in favour of company management except in cases judged to be in breach of the code or when we believe that companies are not acting in the best interests of shareholders. In these cases we will either abstain or vote against resolutions.

In order to avoid the simple box ticking which robs the proxy vote of much of its strength, we assess each resolution on a case-by-case basis and implement our policy in a flexible manner. We consider this especially important in the arena of smaller company voting where standards of proxy voting may be less developed than in larger UK companies. This practical and pragmatic approach allows us to use our voting power to maximum effect.

We will normally vote against:

- Combined roles of chairman and chief executive where not publicly justified; and
- The election of executive directors with positions on either remuneration or audit committees.

We will normally abstain on:

- The election of an executive director over the age of 70 where the appointment is not justified in the report and accounts.

We are supportive of initiatives to ensure that all non-executive and executive directors stand for re-election at least once every three years.

Appointment of non executive directors

The election of a powerful constituency of non-executive directors as a counter-balance to executive management is one of the most effective ways of ensuring that the wider interests of shareholders are heard in the boardroom.

Directors

Directors are the stewards of shareholders' capital and should be properly accountable for their actions. Sufficient information should be disclosed in the report and accounts to allow shareholders to judge the success of boards in leading and controlling their company.

We will normally vote in favour of:

- A sufficiency of non executive directors on a board (the code recommends one third as a minimum); and
- A majority within the non-executives of those the Fund Manager considers being independent of the company.

We will normally abstain on:

- The election of non-executive directors over the age of 70 where the remuneration committee does not justify the appointment.

Executive remuneration

One of the most contentious and closely examined areas of corporate governance is that of executive remuneration, comprising directors' service contracts and long-term incentive plans.

Whilst we do not consider it appropriate to comment on the quantum of a director's pay, we believe it is important to ensure that remuneration is linked to results.

Service contracts

The length of directors' service contracts forms a central part of the Combined Code. The code recommends that existing contracts or notice periods be reduced to terms of 12 months rolling or less, and that new contracts should either be established on the same terms or fixed for an initial period and subsequently reduced.

The basic principle of the code is to contain the length of directors' service contracts whilst tying directors into the long-term future of the company by offering incentives for good performance. From the shareholders' point of view, 'reward for results' clearly remunerates directors who enhance the value of their company. At the opposite end of the scale, the reduction in the rolling elements of the contract ensures that shareholders in a company whose management is under performing do not have to suffer the double penalty to having to overpay for the management's removal.

We will normally vote in favour of:

- Rolling contracts of one year's term;
- Two year rolling contracts where justified by the remuneration committee; and
- Fixed contracts up to two years in length with subsequent reductions to 12 month rolling periods.

We will normally vote against:

- Contracts whose terms lie outside any of the above.

Long- term incentive plans

We realise that the corollary of shorter service contracts is that directors be rewarded for exceptional company performance via long-term incentive plans.

We will support long-term incentive plans which;

- Directly align the interests of directors with those of shareholders;
- Establish challenging performance criteria for the plans to vest - performance at or below the median should not be rewarded;
- Measure performance by total shareholder return in relation to the market or a range of comparable companies rather than growth in earnings per share;
- Are long-term in nature (the code recommends a minimum of three years); and
- Encourage long-term ownership of the shares once awarded.

We would ask our Fund Managers to enter into dialogue with companies to try to amend the terms of an incentive plan rather than simply to cast a vote against.

Political donations

We normally consider any political donations to be a misuse of shareholders' funds and we will ***vote against resolutions proposing them.***

Take over bids

The main issue is whether any bid is in the Pension Fund Members' best long-term interests. We would wish to be convinced that this is the case before accepting any bid, whether or not it is contested.

Implementation

We intend our voting policy to be implemented across the FTSE All Share Index. Voting custom and practice and levels of disclosure among overseas companies are not the same as for the UK and it is not possible to vote in accordance with this policy for non-UK equities at the current time. We would, however, look towards implementing our policy overseas when circumstances permit.

Shareholder Resolutions will be considered on their merits and we will ask our Fund managers to contact the company secretary for further information on resolutions deemed to be contentious, if necessary.

The Director of Finance and Resources gives instructions to the Fund managers to vote our shares in accordance with this policy. In addition to our own records, we ask our Fund managers to keep a record of all votes cast so that we may, if required, inspect them for compliance purposes.

The exercise of a proxy vote is a somewhat blunt tool with which to improve standards of corporate governance, but it is not the only way in which we can influence corporate behaviour. Most investment managers meet, on a one to one basis, the senior management of many UK Plc's each year. Although the primary purpose of such meetings is to give management the opportunity to discuss matters of strategic importance, the highly interactive nature of these meetings means that this is a natural forum in which to raise matters such as corporate governance.

Benefits

We believe that the use of these meetings, in conjunction with the disciplined and consistent voting policy detailed above, contributes to higher standards of corporate governance in the UK. Linking the remuneration of directors to the fortunes of their company whilst reducing the rolling elements of contracts is a clear way of aligning the interest of directors with those of shareholders. The establishment of challenging performance criteria, which must be met for incentive plans to vest, reinforces this objective. Importantly, these performance targets can often give an insight into companies' aims and ambitions which can otherwise remain obscure, and it is in this way that the right to vote on resolutions becomes supplementary to the investment process; not just a duty but a benefit.

APPENDIX 3

Glossary of Technical Terms

Unregistered stock

Unregistered stock describes the common practice of allowing professional investors to trade newly issued shares or bonds before they are registered with the SEC or other national regulatory body. The purpose of this is to speed the issuance of new bonds or shares to professional investors without burdening the issuer with rules that are designed to protect amateur investors. Registration is usually completed a few months after the stock is first issued.

Short sales of stock

Selling a share that the vendor has borrowed and is committed to buy at a future date on the expectation of making a profit as the share price declines.

Margin purchases.

Buying shares with borrowed money, usually from a brokerage. 'Margin' refers to the collateral that needs to be posted to support the borrowing. This collateral requirement is less than the cost of buying shares. The effect of buying 'on margin' is that the investor has greater exposure to the share price rising or falling than the amount of money invested.

Stocklending

The practice of lending stock to other investors. Investors may wish to borrow stock in order to enter into a short sale (see above) or to avoid a settlement failure.

Venture capital

Early stage financing for smaller companies.

Direct venture capital.

Investing directly in an early stage company as opposed to investing in a venture capital fund.

Index futures contracts

An exchange-traded contract that requires delivery of a stock index on terms agreed today but where settlement occurs some months later rather than the following day. Index futures are used to reflect views on the future value of an index, to reduce exposure to index movements, and to effect asset allocation moves. Unlike options (see below), futures oblige both parties to transact. Distinguished from forwards (see below) in that futures are standardised, exchange-traded contracts.

Purchased stock put/call options

Right (but no obligation) to sell (put) or buy (call) an underlying stock at an agreed price. Other party to the contract will have *written* stock put/call options and has sold the option to sell or buy the underlying stock. The writer of the stock put/call option faces the obligation to buy or sell, respectively, at the agreed price. The purchase of a put or call option is often motivated by the desire to decrease or increase the exposure to changes in the value of a holding in the underlying stock.

Purchased index put/call options

Right (but no obligation) to buy or sell the value of an index. See purchased stock put/call options above.

Forward currency trades

A currency forward contract is, in effect, an agreement to exchange currencies on terms agreed today but where settlement occurs some months later rather than the following day. Currency forwards can be used either to take a position on future changes in exchange rates or to reduce the exposure to particular currencies. The forward currency market is large and liquid but transactions are not made on an exchange.

Purchased currency options

Right (but no obligation) to buy or sell an amount of foreign currency at an agreed price before a specific date. The use of currency options may be motivated by the desire to increase or decrease the exposure to changes in particular currency exchange rates.

Bond futures

A bond future is an exchange traded derivative contract. As such the terms of the contract are standardised and trading in the contracts is supervised by the exchange. The purchase of a bond future is perhaps best regarded as the purchase of a basket of bonds with delayed settlement. One common use of bond futures is to effect portfolio positions that reflect duration or yield curve views. Bond futures permit more precise management of bond portfolios and are often a quicker and cheaper way of delivering a devised asset allocation strategy.

Purchased bond put/call options

As purchased stock put/call options above.

Deposit futures

A standardized, transferable, exchange-traded contract that requires delivery of a Certificate of Deposit (CD). CD's are typically short- to medium-term, interest-bearing, insured debt instruments offered by banks. See index futures above.

Purchased deposit put/call options

As purchased stock put/call options above. Certificates of Deposit are the underlying commodity.

Derivatives

A financial instrument whose value is derived from an underlying security or benchmark. (Examples are the options referred to above).

Currency spot and forward contracts

A spot contract is a trade carried out for normal settlement, which is usually the next business day. For currency forward contracts see forward currency trades above.

Options, futures and options on futures.

Options on futures are exchange-traded and can be based on any futures contract. Most often used by investment banks to manage exposure arising from their normal trading activities and by specialist investors wishing to express views on narrow areas of the financial markets.

Investor puts

Investor holds the right to sell a specified stock, index or commodity at an agreed price. (See purchased stock put/calls above)

Traditional equity convertible bonds

A convertible bond is one that can be exchanged for a specified amount of stock at the option of the holder and in some cases the issuer. Today these are traded in the same way as any other bond. Traditional equity convertible bonds are now rare and are no longer being issued but are traded like equities on exchanges.

Callable fixed interest investments

Bonds where the issuer has the option to repay the bond on terms that are set out in the original issue documentation. These terms will specify when the issuer can exercise the option and at what price. Some callable bonds include changes to the bond coupon that are penal to the issuer if they do not exercise their option.

Protective covenants

Requirements placed upon the borrower in the lending agreement, which restrict the ability of the borrower to act against the interests of the lender. Usually require the borrower to maintain agreed levels of solvency and liquidity.

London Borough of Hackney Pension Fund

Funding Strategy Statement

 **Hackney**

Funding Strategy Statement

1 Introduction

This is the Funding Strategy Statement (FSS) of the London Borough of Hackney Pension Fund (“the Fund”), which is administered by London Borough of Hackney (“the Administering Authority”).

It has been prepared by the Administering Authority in collaboration with the Fund’s actuary, Hymans Robertson LLP and after consultation with the Fund’s employers and investment adviser and is effective from 31 March 2011.

1.1 Regulatory framework

Members’ accrued benefits are guaranteed by statute. Members’ contributions are fixed in the Regulations at a level that covers only part of the cost of accruing benefits. Employers pay the balance of the cost of delivering the benefits to members. The FSS focuses on the pace at which these liabilities are funded and, insofar as is practical, the measures to ensure that employers or pools of employers pay for their own liabilities.

The FSS forms part of a framework that includes:

- the Local Government Pension Scheme Regulations 1997 (regulations 76A and 77 are particularly relevant);
- the Local Government Pension Scheme (Administration) Regulations 2008 (regulations 35 and 36);
- the Rates and Adjustments Certificate, which can be found appended to the Fund actuary’s triennial valuation report;
- actuarial factors for valuing early retirement costs and the cost of buying extra service; and
- the Statement of Investment Principles.

This is the framework within which the Fund’s actuary carries out triennial valuations to set employers’ contributions, provides recommendations to the Administering Authority when other funding decisions are required, such as when employers join or leave the Fund. The FSS applies to all employers participating in the Fund.

The key requirements relating to the FSS are that:

- After consultation with all relevant interested parties involved with the Fund, the administering authority will prepare and publish their funding strategy.
- In preparing the FSS, the administering authority must have regard to:
 - FSS guidance produced by CIPFA
 - its statement of investment principles published under Regulation 12 of the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009.
- The FSS must be revised and published whenever there is a material change in either the policy on the matters set out in the FSS or the Statement of Investment Principles.

The Fund's actuary must have regard to the FSS as part of the fund valuation process.

1.2 Reviews of the FSS

The FSS is reviewed in detail at least every three years ahead of triennial valuations being carried out, with the next full review due to be completed by 31 March 2014. More frequently, Annex A is updated to reflect any changes to employers.

The FSS is a summary of the Fund's approach to funding liabilities. It is not an exhaustive statement of policy on all issues. If you have any queries please contact Jill Davys in the first instance at jill.davys@hackney.gov.uk or on 0208 356 2646.

2 Purpose

2.1 Purpose of the FSS

The Department for Communities and Local Government (CLG) has stated that the purpose of the FSS is:

- "to establish a clear and transparent fund-specific strategy which will identify how employers' pension liabilities are best met going forward;
- to support the regulatory framework to maintain as nearly constant employer contribution rates as possible; and
- to take a prudent longer-term view of funding those liabilities."

These objectives are desirable individually, but may be mutually conflicting. Whilst the position of individual employers must be reflected in the statement, it must remain a single strategy for the Administering Authority to implement and maintain.

This statement sets out how the Administering Authority has balanced the conflicting aims of affordability of contributions, transparency of processes, stability of employers' contributions, and prudence in the approach to funding the scheme's liabilities across a range of employers participating in the Fund.

2.2 Purpose of the Fund

The Fund is a vehicle by which scheme benefits are delivered. The Fund:

- receives contributions, transfer payments and investment income;
- pays scheme benefits, transfer values and administration costs.

One of the objectives of a funded scheme is to reduce the variability of pension costs over time for employers compared with an unfunded (pay-as-you-go) alternative.

The roles and responsibilities of the key parties involved in the management of the pension scheme are summarised in Annex B.

2.3 Aims of the Funding policy

The objectives of the Fund's funding policy include the following:

- to ensure the long-term solvency of the Fund as a whole and the solvency of each of the notional sub-funds allocated to the individual employers;
- to ensure that sufficient funds are available to meet all benefits as they fall due for payment;

- not to restrain unnecessarily the investment strategy of the Fund so that the Administering Authority can seek to maximise investment returns (and hence minimise the cost of the benefits) for an appropriate level of risk;
- to help employers recognise and manage pension liabilities as they accrue with consideration to the effect on the operation of their business where the Administering Authority considers this appropriate;
- to minimise the degree of short-term change in the level of each employer's contributions where the Administering Authority considers it reasonable to do so;
- to use reasonable measures to reduce the risk to other employers and ultimately to the council tax payer from an employer ceasing participation or defaulting on its pension obligations;
- to address the different characteristics of the disparate employers or groups of employers to the extent that this is practical and cost-effective; and
- to maintain the affordability of the fund to employers as far as is reasonable over the longer term.

3 Solvency issues and target funding levels

3.1 Derivation of employer contributions

Employer contributions are normally made up of two elements:

- a) the estimated cost of future benefits being accrued, referred to as the "future service rate"; plus
- b) an adjustment for the funding position (or "solvency") of accrued benefits relative to the Fund's solvency target, "past service adjustment". If there is a surplus there may be a contribution reduction; if a deficit a contribution addition, with the surplus or deficit spread over an appropriate period.

The Fund's actuary is required by the regulations to report the Common Contribution Rate², for all employers collectively at each triennial valuation. It combines items (a) and (b) and is expressed as a percentage of pay. For the purpose of calculating the Common Contribution Rate, the surplus or deficit under (b) is currently spread over a period of 22 years.

The Fund's actuary is also required to adjust the Common Contribution Rate for circumstances which are deemed "peculiar" to an individual employer³. It is the adjusted contribution rate which employers are actually required to pay. The sorts of peculiar factors which are considered are discussed in Section 3.5.

In effect, the Common Contribution Rate is a notional quantity. Separate future service rates are calculated for each employer together with individual past service adjustments according to employer-specific spreading and phasing periods.

For some employers it may be agreed to pool contributions, see Section 3.7.6.

² See Regulation 36(5) of LGPS (Administration) Regulations 2008

³ See Regulation 36(7) of LGPS (Administration) Regulations 2008

Annex A contains a breakdown of each employer's contributions following the 2010 valuation for the financial years 2011/12, 2012/13 and 2013/14. It includes a reconciliation of each employer's rate with the Common Contribution Rate.

Any costs of non ill-health early retirements must be paid as lump sum payments at the time of the employer's decision in addition to the contributions described above (or by instalments shortly after the decision).

Employers' contributions are expressed as minima, with employers able to pay regular contributions at a higher rate. Employers should discuss with the Administering Authority before making one-off capital payments.

3.2 Solvency and target funding levels

The Fund's actuary is required to report on the "solvency" of the whole fund at least every three years.

'Solvency' for ongoing employers is defined to be the ratio of the market value of assets to the value placed on accrued benefits on the Fund actuary's ongoing funding basis. This quantity is known as a funding level.

The ongoing funding basis has traditionally been used for each triennial valuation for all employers in the fund. The ongoing funding basis assumes employers in the Fund are an ongoing concern and is described in the next section.

Where an admission agreement for an admission body that is not a Transferee Admission Body and has no guarantor is likely to terminate within the next 5 to 10 years or lose its last active member within that timeframe, the fund reserves the right to set contribution rates by reference to liabilities valued on a gilts basis (i.e. using a discount rate that has no allowance for potential investment outperformance relative to gilts). The target in setting contributions for any employer in these circumstances is to achieve full funding on a gilts basis by the time the agreement terminates or the last active member leaves in order to protect other employers in the fund. This policy will increase regular contributions and reduce, but not entirely eliminate, the possibility of a final deficit payment being required when a cessation valuation is carried out.

The Fund also reserves the right to adopt the above approach in respect of those non-Transferee admission bodies with no guarantor, where the strength of covenant is considered to be weak but there is no immediate expectation that the admission agreement will cease.

The Fund actuary agrees the financial and demographic assumptions to be used for each such valuation with the administering authority.

The fund operates the same target funding level for all ongoing employers of 100% of its accrued liabilities valued on the ongoing basis. The time horizon of the funding target for community and transferee admission bodies will vary depending on the expected duration of their participation in the fund. Please refer to paragraph 3.8 for the treatment of departing employers.

3.3 Ongoing funding basis

The demographic assumptions are intended to be best estimates of future experience in the Fund based on past experience of LGPS funds advised by the Fund Actuary. It is acknowledged that future life expectancy and in particular, the allowance for future

improvements in mortality, is uncertain. Employers should be aware that their contributions are likely to increase in future if longevity exceeds the funding assumptions. The approach taken is considered reasonable in light of the long term nature of the Fund and the assumed statutory guarantee underpinning members' benefits. The demographic assumptions vary by type of member and so reflect the different profiles of employers.

The key financial assumption is the anticipated return on the Fund's investments. The investment return assumption makes allowance for anticipated returns from the Fund's assets in excess of gilts. There is, however, no guarantee that assets will outperform gilts or even match the return on gilts. The risk is greater when measured over short periods such as the three years between formal actuarial valuations, when the actual returns and assumed returns can deviate sharply.

In light of the statutory requirement for the Actuary to consider the stability of employer contributions it is therefore normally appropriate to restrict the degree of change to employers' contributions at triennial valuation dates.

Given the very long-term nature of the liabilities, a long term view of prospective returns from equities is taken. For the 2010 valuation, it is assumed that the Fund's investments will deliver an average real additional return of 1.45% a year in excess of the return available from investing in index-linked government bonds at the time of the valuation.

The same financial assumptions are adopted for all ongoing employers. All employers have the same asset allocation.

3.4 Future service contribution rates

The future service element of the employer contribution rate is traditionally calculated on the ongoing valuation basis, with the aim of ensuring that there are sufficient assets built up to meet future benefit payments in respect of future service. The future service rate has been calculated separately for all the employers, although employers within a pool will pay the contribution rate applicable to the pool as a whole. Where it is considered appropriate to do so then the Administering Authority reserves the right to set a future service rate by reference to liabilities valued on a gilts basis (most usually for admission bodies that are not a Transferee Admission Body and that have no guarantor in place). The approach used to calculate each employer's future service contribution rate depends on whether or not new entrants are being admitted. Employers should note that it is only Admission Bodies that may have the power not to admit automatically all eligible new staff to the Fund, depending on the terms of their Admission Agreements and employment contracts.

3.4.1 Employers that admit new entrants

The employer's future service rate will be based upon the cost (in excess of members' contributions) of the benefits that employee members earn from their service each year. Technically these rates will be derived using the Projected Unit Method with a one year control period.

If future experience is in line with assumptions, and the employer's membership profile remains stable, this rate should be broadly stable over time. If the membership of employees matures (e.g. because of lower recruitment) the rate would rise.

3.4.2 Employers that do not admit new entrants

Certain Admission Bodies have closed the scheme to new entrants. This is expected to lead to the average age of employee members increasing over time and hence, all other things being equal, the future service rate is expected to increase as the membership ages.

To give more long term stability to such employers' contributions, the Attained Age funding method is normally adopted. This will limit the degree of future contribution rises by paying higher rates at the outset.

Both funding methods are described in the Actuary's report on the valuation.

Both future service rates will include expenses of administration to the extent that they are borne by the Fund and include an allowance for benefits payable on death in service and ill health retirement. Adjustments for individual employers

Adjustments to individual employer contribution rates are applied both through the calculation of employer-specific future service contribution rates and the calculation of the employer's funding position.

The combined effect of these adjustments for individual employers applied by the Fund actuary relate to:

- past contributions relative to the cost of accruals of benefits;
- different liability profiles of employers (e.g. mix of members by age, gender, manual/non manual);
- the effect of any differences in the valuation basis on the value placed on the employer's liabilities;
- any different deficit/surplus spreading periods or phasing of contribution changes;
- the difference between actual and assumed rises in pensionable pay;
- the difference between actual and assumed increases to pensions in payment and deferred pensions;
- the difference between actual and assumed retirements on grounds of ill-health from active status;
- the difference between actual and assumed amounts of pension ceasing on death;
- the additional costs of any non ill-health retirements relative to any extra payments made;

over the period between the 2007 and 2010 valuations and each subsequent triennial valuation period.

Actual investment returns achieved on the Fund between each valuation are applied proportionately across all employers. Transfers of liabilities between employers within the Fund occur automatically within this process, with a sum broadly equivalent to the reserve required on the ongoing basis being exchanged between the two employers.

The Fund actuary does not allow for certain relatively minor events occurring in the period since the last formal valuation [see section 3.6 below], including, but not limited to:

- the actual timing of employer contributions within any financial year;
- the effect of the premature payment of any deferred pensions on grounds of incapacity.

These effects are swept up within a miscellaneous item in the analysis of surplus, which is split between employers in proportion to their liabilities.

3.5 Asset share calculations for individual employers

The Administering Authority does not account for each employer's assets separately. The Fund's actuary is required to apportion the assets of the whole fund between the employers (or pool of employers) at each triennial valuation using the income and expenditure figures provided for certain cash flows for each employer or pool of employers. This process adjusts for transfers of liabilities between employers participating in the Fund, but does make a number of simplifying assumptions. The split is calculated using an actuarial technique known as "analysis of surplus". The methodology adopted means that there will inevitably be some difference between the asset shares calculated for individual employers and those that would have resulted had they participated in their own ring-fenced section of the Fund. The asset apportionment is capable of verification but not to audit standard.

The Administering Authority recognises the limitations in the process, but having regard to the extra administration cost of building in new protections, it considers that the Fund actuary's approach addresses the risks of employer cross-subsidisation to an acceptable degree.

3.6 Stability of employer contributions

3.6.1 Solvency issues and target funding levels

A key challenge for the Administering Authority is to balance the need for stable, affordable employer contributions with the requirement to take a prudent, longer-term view of funding and ensure the solvency of the Fund. With this in mind, there are a number of prudential strategies that the Administering Authority may deploy in order to maintain employer contribution rates at as nearly a constant rate as possible. These include:-

- capping of employer contribution rate increases / decreases within a pre-determined range ("Stabilisation")
- the pooling of contributions amongst employers with similar characteristics
- the use of extended deficit recovery periods
- the phasing in of contribution increases / decreases

3.6.2 Stabilisation

There can be occasions when, despite the deployment of contribution stabilising mechanisms such as pooling, phasing and the extension of deficit recovery periods, the theoretical employer contribution rate is not affordable or achievable. This can occur in times of tight fiscal control or where budgets have been set in advance of

new employer contribution rates being available. The Administering Authority has in conjunction with the Fund Actuary reviewed the possibility of adopting a stabilisation approach but has decided not to use this mechanism at this time, but will continue to keep stabilisation options under review for future valuations.

The Fund currently has a strong net cash inflow and can therefore take a medium to long term view on determining employer contribution rates to meet future liabilities through operating a fund with an investment strategy that reflects this long term view. It allows short term investment markets volatility to be managed so as not to cause volatility in employer contribution rates.

The LGPS regulations require the longer term funding objectives to be to achieve and maintain assets to meet the projected accrued liabilities. The role of the Fund Actuary in performing the necessary calculations and determining the key assumptions used, is an important feature in determining the funding requirements. The approach to the actuarial valuation and key assumptions used at each triennial valuation form part of the consultation undertaken with the FSS.

3.6.3 Deficit recovery periods

The Administering Authority instructs the actuary to adopt specific deficit recovery periods for all employers when calculating their contributions.

The Administering Authority normally targets the recovery of any deficit over a period not exceeding 22 years. However, these are subject to the maximum lengths set out in the table below:

Type of Employer	Maximum Length of Deficit Recovery Period
Statutory bodies with tax raising powers	a maximum period 22 years
Admission Bodies with funding guarantees	a period to be agreed with each employer not exceeding 22 years
Transferee Admission Bodies	the period from the start of the revised contributions to the end of the employer's contract
Community Admission Bodies that are closed to new entrants whose admission agreements continue after last active member retires.	a period equivalent to the expected future working lifetime of the remaining scheme members allowing for expected leavers
All other types of employer	a period equivalent to the expected future working lifetime of the remaining scheme members

This *maximum* period is used in calculating each employer's *minimum* contributions. Employers may opt to pay higher regular contributions than these minimum rates.

The deficit recovery period starts at the commencement of the revised contribution rate (1 April 2011 for 2010 valuation). The Administering Authority would normally expect the same period to be used at successive triennial valuations, but would reserve the right to propose alternative spreading periods, for example to improve the stability of contributions.

3.6.4 Surplus spreading periods

Following the completion of the 2010 valuation, some employers may have a funding level greater than 100%.

These employers will have a choice not afforded to many other employers in the fund. Any employers deemed to be in surplus may be permitted to reduce their contributions below the cost of accruing benefits, by spreading the surplus element over the maximum periods shown above for deficits in calculating their minimum contribution. However if they take the full benefit of their surplus re-payments then their ability to withstand future adverse shocks in the 2013 valuation will be diminished. Employers should consider carefully whether or not to take the full benefit of their current surplus. It is recommended that employers in surplus do not reduce their contribution rate from the rate certified at the 2010 valuation.

3.6.5 Phasing in of contribution rises

Transferee Admission Bodies are not eligible for phasing in of contribution rises. Other employers may opt to phase in contribution rises as follows:

- for employers contributing at or above its future service rate in 2010/11, phasing in the rise in employer contributions over a period of three years;
- for employers contributing at less than its future service rate in 2010/11 phasing in the rise in contributions rises over a period of three years.

3.6.6 Phasing in of contribution reductions

Any contribution reductions will be phased in over six years for all employers except Transferee Admission Bodies who can take the reduction with immediate effect.

3.6.7 The effect of opting for longer spreading or phasing-in

Employers that are permitted and elect to use a longer deficit spreading period than was used at the 2007 valuation or to phase-in contribution changes will be assumed to incur a greater loss of investment returns on the deficit by opting to defer repayment. Thus, deferring paying contributions is expected to lead to higher contributions in the long-term (depending on the actual financial and demographic performance of the Fund relative to the valuation assumptions).

However any adjustment is expressed for different employers, the overriding principle is that the discounted value of the contribution adjustment adopted for each employer will be equivalent to the employer's deficit.

3.6.8 Pooled contributions

a. Smaller employers

The Administering Authority may allow smaller employers to pool their contributions as a way of sharing experience and smoothing out the effects of costly but relatively rare events such as ill-health retirements or deaths in service. The Administering Authority may specify the maximum number of active members to participate in a pool.

Community Admission Bodies that are deemed by the Administering Authority to have closed to new entrants are not permitted to participate in a pool. Transferee Admission Bodies are also ineligible for pooling.

At the 2007 valuation there were no pools for smaller employers.

b. Other contribution pools

Schools are pooled with Hackney Council.

3.7 Admission bodies ceasing

Admission Agreements for Transferee Admission Body contractors are assumed to expire at the end of the contract.

Admission Agreements for other employers are generally assumed to be open-ended and to continue until all the benefits have been paid in full. Contributions, expressed as capital payments, can continue to be levied after all the employees have retired. These Admission Agreements can however be terminated at any point subject to the terms of the agreement.

- The Fund, however, considers any of the following as triggers for the termination of an Admission Agreement:
- Last active member ceasing participation in the LGPS;
- The insolvency, winding up or liquidation of the admission body;
- Any breach by the Admission Body of any of its obligations under the agreement that they have failed to remedy to the satisfaction of the Fund;
- A failure by the Admission Body to pay any sums due to the Fund within the period required by the Fund; or
- The failure by the Admission Body to renew or adjust the level of the bond or indemnity or to confirm appropriate alternative guarantor as required by the Fund.

In addition either party can voluntarily terminate the admission agreement by giving the appropriate period of notice as set out in the Admission Agreement to the other party (or parties in the case of a Transferee Admission Body).

If an Admission Body's admission agreement is terminated, the Administering Authority instructs the Fund actuary to carry out a special valuation to determine whether there is any deficit.

The assumptions adopted to value the departing employer's liabilities for this valuation will depend upon the circumstances. For example:

- a) For Transferee Admission Bodies, the assumptions would be those used for an ongoing valuation to be consistent with the assumptions used to calculate the initial transfer of assets to accompany the active member liabilities transferred.
- b) For admission bodies that are not Transferee Admission Bodies whose participation is voluntarily ended either by themselves or the Fund, or which triggers a cessation event, the Administering Authority must look to protect the interests of other ongoing employers and will require the actuary to adopt valuation assumptions which, to the extent reasonably practicable, protect the

other employers from the likelihood of any material loss emerging in future. Where there is a guarantor, the cessation valuation will normally be calculated using an ongoing valuation basis appropriate to the investment strategy. Where a guarantor does not exist then, in order to protect other employers in the Fund, the cessation liabilities and final deficit will normally be calculated using a “gilts cessation basis” with no allowance for potential future investment outperformance and with an allowance for further future improvements in life expectancy. This approach results in a higher value being placed on the liabilities than would be the case under a valuation on the ongoing funding basis and could give rise to significant payments being required.

- c) For Admission Bodies with guarantors, it is possible that any deficit could be transferred to the guarantor in which case it may be possible to simply transfer the former Admission Bodies members and assets to the guarantor, without needing to crystallise any deficit.

Under (a) and (b), any shortfall would be levied on the departing Admission Body as a capital payment.

In the event that the Fund is not able to recover the required payment in full directly from the Admission Body or from any bond or indemnity or guarantor, then:

- a) In the case of Transferee Admission Bodies the awarding authority will be liable. At its absolute discretion, the Administering Authority may agree to recover any outstanding amounts via an increase in the awarding authority’s contribution rate over an agreed period.
- b) In the case of admission bodies that are not Transferee Admission Bodies and have no guarantor, the unpaid amounts fall to be shared amongst all of the employers in the Fund. This will normally be reflected in contribution rates set at the formal valuation following the cessation date

As an alternative to (b) above where the ceasing Admission Body is continuing in business, the Fund, at its absolute discretion, reserves the right to enter into an agreement with the ceasing Admission Body to accept an appropriate alternative security to be held against any funding deficit and to carry out the cessation valuation on an ongoing valuation basis. This approach would be monitored as part of each triennial valuation and the Fund reserves the right to revert to a “gilts cessation basis” and seek immediate payment of any funding shortfall identified.

3.8 Early retirement costs

3.8.1 Non ill-health retirements

The actuary’s funding basis makes no allowance for premature retirement except on grounds of ill-health. Employers are required to pay additional contributions wherever an employee retires before attaining the age at which the valuation assumes that benefits are payable.

It is assumed that members’ benefits on age retirement are payable from the earliest age that the employee could retire without incurring a reduction to their benefit and without requiring their employer’s consent to retire. Members receiving their pension unreduced before this age other than on ill-health grounds are deemed to have retired early.

The additional costs of premature retirement are calculated by reference to these ages.

Employers must make these additional contributions as a one off payment to the fund immediately on awarding the early retirement. The exception to this rule are statutory bodies with tax raising powers, where, depending on the circumstances, the Administering Authority may at its absolute discretion agree to spread the payment over a period not exceeding 5 years. If this is agreed, interest will be charged, using factors provided by the actuary. In any event the spread period cannot exceed the period to the member's normal retirement date if this is shorter than 5 years.

3.8.2 Ill-health monitoring

The Fund monitors each employer's, or pool of employers, ill health experience on an ongoing basis. If the cumulative number of ill health retirement in any financial year exceeds the allowance at the previous valuation, the employer may be charged additional contributions on the same basis as apply for non ill-health cases.

3.9 New admitted bodies

The Fund requires the following from any potential Admission Bodies wishing to join the Fund.

Transferee Admission Bodies will be required to have a guarantee from the transferring scheduled body and also provide a bond/or asset backed security if requested by the Administering Authority. The bond is required to cover the following:

- the strain cost of any redundancy early retirements resulting from the premature termination of the employer's contract
- allowance for the risk of asset underperformance
- allowance for the risk of a fall in gilt yields

The employer may also be required to include their current deficit within the bond amount. The bond will be reassessed on an annual basis.

The Administering Authority will only consider requests from Community Admission Bodies to join the Fund if they are sponsored by a scheduled body with tax raising powers, guaranteeing their liabilities and also provide a bond if requested.

This reduces the risk to the Fund of potentially having to pick up any shortfall in respect of Admission Bodies.

4 Links to investment strategy

Funding and investment strategy are inextricably linked. Investment strategy is set by the Administering Authority, after consultation with the employers' representatives and after taking investment advice.

4.1 Investment strategy

The investment strategy currently being pursued is described in the Fund's Statement of Investment Principles.

The investment strategy is set for the long-term, but is reviewed from time to time, normally every three years, to ensure that it remains appropriate to the Fund's liability profile. The Administering Authority has adopted a benchmark, which sets the proportion of assets to be invested in key asset classes such as equities, bonds and

property. As at 31 March 2010, the proportion held in equities and property was 74% of the total Fund assets.

The investment strategy of lowest risk would be one which provided cashflows which replicate the expected benefit cashflows (i.e. the liabilities). Equity investment would not be consistent with this.

The Fund's benchmark includes a significant holding in equities in the pursuit of long-term higher returns than from index-linked bonds. The Administering Authority's strategy recognises the relatively immature liabilities of the Fund and the secure nature of most employers' covenants.

The same investment strategy is currently followed for all employers. The Administering Authority does not currently have the facility to operate different investment strategies for different employers. Funding differing investment strategies for individual employers will require investment in new systems and higher ongoing costs which would have to be borne by the employers. The potential benefits of multiple investment strategies need to be assessed against the cost.

4.2 Consistency with funding basis

The funding policy currently adopts an asset out-performance assumption of 1.45% per annum over and above the redemption yield on index-linked gilts. This resulted in a return on the Fund's assets of 6.0% p.a. to be adopted for the 2007 and 2010 formal valuation. The Fund's investment strategy is as currently outlined in the Fund's Statement of Investment Principles. The Fund's Actuary considers that the funding basis does conform to the requirements to take a "prudent longer-term" approach to funding.

The Administering Authority has sought specific advice from the Fund's Actuary on the interaction between funding and investment strategy. In particular, the Administering Authority will consider the implications of the combined strategy on the key objectives of stability of contributions, affordability for employers, transparency of process and method, and prudence. The Administering Authority considers that its funding and investment policy appropriately balances these objectives.

The Administering Authority is aware that, in the short term – such as the three yearly assessments at formal valuations – the proportion of the Fund invested in equities brings the possibility of considerable volatility and there is a material chance that in the short term and even medium term, the asset returns will fall short of the out-performance target. The stability measures described in Section 3 will dampen down, but not remove, the effect on employers' contributions.

The Fund does not hold a contingency reserve to protect it against the volatility of equity investments.

4.3 Balance between risk and reward

Prior to implementing its current investment strategy, the Administering Authority considered the balance between risk and reward by altering the level of investment in potentially higher yielding, but more volatile, asset classes like equities. This process was informed by the use of Strategic Benchmarking techniques to model the range of potential future solvency levels and contribution rates.

4.4 Inter-valuation monitoring of funding position

The Administering Authority monitors investment performance relative to the growth in the liabilities by means of methods such as quarterly interim valuations designed to indicate if current investment strategy remains optimal given the liability profile. It intends to report back to employers via regular meetings with employers in order to keep them updated as to the estimated movement in funding levels since the formal valuation.

5 Key risks and controls

5.1 Types of risk

The Administering Authority's has an active risk management programme in place. The measures that the Administering Authority has in place to control key risks are summarised below under the following headings:

- financial;
- demographic;
- regulatory; and
- governance.

5.2 Financial risks

Risk	Summary of Control Mechanisms
Fund assets fail to deliver returns in line with the anticipated returns underpinning valuation of liabilities over the long-term	<i>Only anticipate long-term return on a relatively prudent basis to reduce risk of under-performing. Analyse progress at three yearly valuations for all employers. Inter-valuation roll-forward of liabilities between formal valuations subject to market experience</i>
Inappropriate long-term investment strategy	<i>Set Fund-specific benchmark, informed by Asset-Liability modelling of liabilities. Consider measuring performance relative to bond based target, absolute returns or a Liability Benchmark Portfolio and not relative to indices</i>
Fall in risk-free returns on Government bonds, leading to rise in value placed on liabilities	<i>Inter-valuation monitoring, as above. Some investment in bonds helps to mitigate this risk.</i>
Active investment manager under-performance relative to benchmark	<i>Short term (quarterly) investment monitoring analyses market performance and active managers relative to their index benchmark.</i>
Pay and price inflation significantly more than anticipated	<i>The focus of the actuarial valuation process is on real returns on assets, net of price and pay increases. Inter-valuation monitoring, as above, gives early warning. Some investment in index-linked bonds also helps to mitigate this risk. Employers pay for their own salary awards and are reminded of the geared effect on pension liabilities of any bias in pensionable pay rises towards longer-serving employees.</i>
Effect of possible increase in employer's contribution rate on service delivery and admission/scheduled bodies	<i>Seek feedback from employers on scope to absorb short-term contribution rises. Mitigate impact through deficit spreading and phasing in of contribution rises.</i>

5.3 Demographic risks

Risk	Summary of Control Mechanisms
Pensioners living longer.	<p><i>Set mortality assumptions with some allowance for future increases in life expectancy.</i></p> <p><i>Fund actuary monitors combined experience of around 50 funds to look for early warnings of lower pension amounts ceasing than assumed in funding.</i></p> <p><i>Participation in fund specific mortality monitoring services.</i></p> <p><i>Administering Authority encourage any employers concerned at costs to promote later retirement culture. Each 1 year rise in the average age at retirement would save roughly 5% of pension costs.</i></p>
Deteriorating patterns of early retirements	<p><i>Employers are charged the extra capital cost of non ill health retirements following each individual decision.</i></p> <p><i>Employer ill health retirement experience is monitored.</i></p>
A company admitted to the Fund as an admission body may become financially unviable	<p><i>A surety bond is required to cover the potential risk of the admitted body becoming insolvent and the value of this surety or bond is reviewed regularly to ensure it provides adequate cover for the financial risks involved.</i></p>
Ill-health retirements significantly more than anticipated	<p><i>Monitoring of each employer's ill-health experience on an ongoing basis. The employer may be charged additional contributions if this exceeds the ill-health assumption built in.</i></p>

5.4 Regulatory

Risk	Summary of Control Mechanisms
Changes to regulations, e.g. more favourable benefits package, potential new entrants to scheme, e.g. part-time employees	<i>The Administering Authority is alert to the potential creation of additional liabilities and administrative difficulties for employers and itself.</i>
Changes to national pension requirements and/or HM Revenue and Customs rules e.g. effect of abolition of earnings cap for post 1989 entrants from April 2006, abolition of 85 year rule, new 2008 scheme, tax simplification and budget changes for higher earners.	<i>It considers all consultation papers issued by the CLG and comments where appropriate. The Administering Authority will consult employers where it considers that it is appropriate. In all circumstances where it appears that changes may impact on the Fund's solvency the Administering Authority will consider seeking actuarial advice to mitigate or manage the impact of such changes.</i>

5.5 Governance

Risk	Summary of Control Mechanisms
Administering Authority unaware of structural changes in an employer's membership (e.g. large fall in employee members, large number of retirements).	<i>The Administering Authority monitors membership movements on a quarterly basis, via a report from the administrator at quarterly meetings.</i>
Administering Authority not advised of an employer closing to new entrants.	<i>The Actuary may be instructed to consider revising the Rates and Adjustments certificate to increase an employer's contributions (under Regulation 38) between triennial valuations</i> <i>Deficit contributions are expressed as monetary amounts (see Annex A).</i>
Administering Authority failing to commission the Fund Actuary to carry out a termination valuation for a departing Admission Body and losing the opportunity to call in a debt.	<i>In addition to the Administering Authority monitoring membership movements on a quarterly basis, it requires employers with Transferee Admission Agreements to inform it of forthcoming changes.</i> <i>It also operates a diary system to alert it to the forthcoming termination of Transferee Admission Agreements.</i> <i>Setting a minimum limit of 5 employees for prospective employers.</i>
An employer ceasing to exist with insufficient funding or adequacy of a bond.	The Administering Authority believes that it would normally be too late to address the position if it was left to the time of departure. The risk is mitigated by: <ul style="list-style-type: none"> • <i>Seeking a funding guarantee from another scheme employer, or external body, where-ever possible.</i> • <i>Alerting the prospective employer to its obligations and encouraging it to take independent actuarial advice.</i> • <i>Vetting prospective employers before admission.</i> • <i>Where permitted under the regulations requiring a bond to protect the scheme from the extra cost of early retirements on redundancy if the employer failed.</i>

Annex A – Statement to the Rates and Adjustments Certificate

The Common Rate of Contribution payable by each employing authority under regulation 36(4)(a) of the Administration Regulations for the period 1 April 2011 to 31 March 2014 is 31% of pensionable pay (as defined in Appendix B).

Individual Adjustments are required under regulation 36(4)(b) of the Administration Regulations for the period 1 April 2011 to 31 March 2014 resulting in Minimum Total Contribution Rates expressed as a percentage of pensionable pay are as set out below:

Employer Code	Employer	Minimum contributions for the year ending			Additional deficit contributions (£)		
		31 March 2012	31 March 2013	31 March 2014	31 March 2012	31 March 2013	31 March 2014
350	London Borough of Hackney	16.5%	16.5%	16.5%	20.4% (18,000K)	20.4% (18,900K)	20.4% (19,845K)

379	Skidders Academy	20.1%	20.1%	20.1%	-	-	-

Notes

Contributions expressed as a percentage should be paid into London Borough of Hackney Pension Fund ('the Fund') at a frequency in accordance with the requirements of the Regulations.

The bracketed figures shown for London Borough of Hackney are the minimum additional amounts which should be paid in each of the years shown.

Further sums should be paid to the Fund to meet the costs of any early retirements and/or augmentation using methods and factors issued by me from time to time.

Further sums should be paid to the Fund by employers to meet the capital costs of any ill-health retirements that exceed those included within our assumptions.

The certified contribution rates represent the minimum level of contributions to be paid. Employing authorities may pay further amounts at any time and future periodic contributions may be adjusted on a basis approved by the Fund actuary.

Further comments

Ill health liability insurance

Note that, if an employer has ill health liability insurance in place with a suitable insurer and provides satisfactory evidence to the administering authority, then their Minimum Total Contribution Rate may be reduced by their insurance premium, for the period the insurance is in place.

Annex B – Responsibilities of Key Parties

The Administering Authority should:-

- collect employer and employee contributions;
- invest surplus monies in accordance with the regulations;
- ensure that cash is available to meet liabilities as and when they fall due;
- manage the valuation process in consultation with the fund's actuary;
- prepare and maintain and FSS and a SIP, both after proper consultation with interested parties; and
- monitor all aspects of the fund's performance and funding and amend FSS/SIP

The Individual Employer should:-

- deduct contributions from employees' pay correctly;
- pay all contributions, including their own as determined by the actuary, promptly by the due date;
- exercise discretions within the regulatory framework;
- make additional contributions in accordance with agreed arrangements in respect of, for example, augmentation of scheme benefits, early retirement strain; and
- notify the administering authorities promptly of all changes to membership or, as may be proposed, which affect future funding.

The Fund actuary should:-

- prepare valuations including the setting of employers' contribution rates after agreeing assumptions with the Administering Authority and having regard to the FSS; and
- prepare advice and calculations in connection with bulk transfers and individual benefit-related matters.

London Borough of Hackney Pension Fund

Governance Policy and Compliance Statement

 **Hackney**

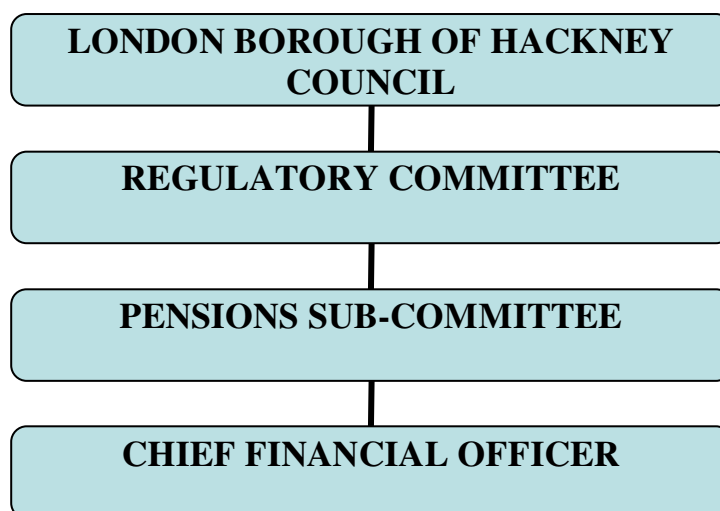

Governance Statement– Administering Authority

The London Borough of Hackney Council is the Administering Authority of the London Borough of Hackney Pension Fund and administers the Local Government Pension Scheme on behalf of participating employers.

The Local Government Pension scheme (Administration) Regulations 2008 – Regulation 31 and its predecessor, Regulation 73A of the LGPS Regulations 1997 (as amended), requires Local Government Pension Scheme (LGPS) Administering Authorities to publish Governance Compliance Statements. It also requires the Authority to keep the statement under to review and to make revisions as appropriate and where such revisions are made to publish a revised statement.

Structure

The Constitution of the Council published on 16th June 2011 sets out how the Council operates, how decisions are made and the procedures which are followed to ensure that these are efficient, transparent and that those who made the decisions are accountable to local people. The Constitution sets out the framework under which the Pension Fund is to be administered as shown in the diagram below.

The Constitution allows for the appointment of a Regulatory Committee which has responsibility for the discharge of all non-executive functions assigned to it. The Regulatory Committee may appoint other Sub-Committees as it considers appropriate to discharge any of its functions. The terms of reference for the Regulatory Committee delegated to the Committee in relation to the Pension Fund are set out below:

Responsibility for the appointment of a Pensions Sub-Committee, including approval of its terms of reference and membership

To receive performance monitoring information on matters within the remit of the Pensions Sub-Committee

To develop, review, monitor and maintain a strategic overview of the Council's regulatory function

Terms of Reference for the Pensions Sub-Committee

The following are the terms of reference for the Pensions Sub-Committee, last reviewed and updated in June 2011:

1. To act as Trustees of the Council's Pension Fund within the terms of the Superannuation Act 1972, the Local Government Pension Scheme Regulations 1997 (as amended) and the Local Government Pension Scheme (Management and Investment of Funds) Regulations 1998 (as amended).
2. To make arrangements for the appointment of and to appoint suitably qualified pension fund administrators, advisers, investment managers and custodians and to periodically review those arrangements.
3. To formulate and publish a Statement of Investment Principles.
4. To set the overall strategic objectives for the Pension Fund, having taken appropriate expert advice, and develop a medium term plan to deliver the objectives.
5. To determine the strategic asset allocation policy, the mandates to be given to the investment managers and the performance measures to be set for them.
6. To monitor the performance and effectiveness of the investment managers and their compliance with the Statement of Investment Principles.
7. To set an annual budget for the operation of the Pension Fund and to monitor income and expenditure against budget.
8. To receive and approve an Annual Report on the activities of the Fund prior to publication.
9. To make arrangements to keep members of the Pension Fund informed of performance and developments relating to the Pension Fund on an annual basis.
10. To keep the terms of reference under review.
11. To make recommendations to Cabinet in respect of employer discretions.
12. To determine all matters relating to admission body issues.

Membership of the Pensions Sub-Committee

The membership of the Pensions Sub-Committee is a minimum of 5 elected Members on a politically proportionate basis who will elect a Chair and Vice Chair. All elected Members have voting rights on the Committee and two voting members of the Committee are required to be able to deem the meeting quorate. In addition there are two co-opted non-voting members representing employer and Scheme member interests. Although the co-opted representatives do not have voting rights they are treated as equal members of the Committee, they have access to all Committee papers, officers, meetings and training as if they were Council Members and have the opportunity to contribute to the decision making process. Voting rights are restricted to elected Members as they are deemed to be fulfilling the role of Trustees as the Pension Fund with all the legal responsibilities that this entails, it was not felt appropriate to apply the same legal definition to the lay members of the Committee and hence their role as non-voting members.

Members of the Pensions Sub-Committee are required to declare any interests that they have in relation to the Pension Fund or items on the agenda at the commencement of the meeting.

The Fund is aware that good governance means an organisation is open in its dealings and readily provides information to interested parties; meetings are open to members of the public who are welcome to attend. However, there may be occasions when members of the public are excluded from meetings when it is likely in view of the nature of the business to be transacted or the nature of the proceedings that confidential information would be disclosed.

Training

Members of the Pensions Sub-Committee will receive training in aspects of the management of the Pension Fund including the CIPFA (Chartered Institute of Public Finance Accountancy) Knowledge and Skills Framework, with training schedules drawn up and reviewed on at least an annual basis. Training sessions will be held in advance of Committee meetings to allow as many members to attend as possible, with training provided by both external and internal advisors. Additional training for both individual members and as a Committee can be arranged on an ad hoc basis. Costs of training will be met by the Pension Fund budget.

The objective of training is to ensure that both existing and new members of the Committee have access to information, training and advice in order to discharge their role as trustees of the Pension Fund effectively.

Meetings

The Pensions Sub-Committee shall meet at least four times a year in the ordinary course of business and additional meetings may be arranged as required to facilitate its work. Work for the year will be agreed with the Committee to include dedicated training sessions for Committee members.

Agendas for meetings will be agreed with the Chair and will be circulated with supporting papers to all members of the Committee, Officers of the Council as appropriate and the Fund's Investment Advisor.

The Council will give at least five clear working days notice of any meeting by posting details of the meeting at the Hackney Town Hall and on the Council's website. The Council will make copies of the agenda and reports open to the public available for inspection at least five clear working days before the meeting. If an item is added to the agenda later, the revised agenda will be open to inspection from the time the item was added to the agenda. The reason for lateness will be specified in the report.

There may on occasions be items which may be exempt from the agenda, reports and minutes of the meetings when it is likely in view of the nature of the business to be transacted or the nature of the proceedings that confidential information would be disclosed. Items which are most likely to be excluded are issues where to disclose information would contravene an individual's privacy or where there are financial

interests which may be compromised as a result of disclosure for example discussions surrounding contracts.

The Council will make available copies of the minutes of the meeting and records of decisions taken for six years after a meeting. Minutes of meetings and records of decisions are available for inspection on the Council's website www.hackney.gov.uk.

Delegation of Powers

The Pensions Sub-Committee act as trustees and oversee the management of the Pension Fund. As trustees the Committee has a clear fiduciary duty in the performance of their functions, they have to ensure that the Fund is managed in accordance with the regulations and to do so prudently and impartially and to ensure the best possible outcomes for the Pension Fund, its participating employers, local taxpayers and Scheme members. Whilst trustees can delegate some of their powers, they cannot delegate their responsibilities as trustees.

Delegated powers have been given to the Director of Finance & Resources in addition to his role as Section 151 Officer and as such he is responsible for the preparation of the Pension Fund Annual Report & Accounts and ensuring the proper administration of the Fund. As appropriate the Director of Finance & Resources will delegate aspects of the role to other officers of the Council including the Assistant Director, Financial Management and the Head of Financial Services and to professional advisors within the scope of the LGPS Regulations.

Policy Documents

In addition to the foregoing, there are a number of other documents which are relevant to the Governance and management of the Pension Fund. Brief details of these are listed below and the full copies of all documents can either be found on the Pension Fund Website <http://hackney.xpmemberservices.com> or by emailing the Financial Services Department pensions@hackney.gov.uk or by writing to the address given at the end of this document.

Funding Strategy Statement

The Funding Strategy Statement forms part of the framework for the funding and management of the Pension Fund. It sets out how the Fund will approach its liabilities and contains a schedule of the minimum contribution rates that are required of individual employers within the Fund. The Funding Strategy Statement (FSS) is drawn up by the Administering Authority in collaboration with the Fund's actuary and after consultation with the Fund's employers. The FSS forms part of a broader framework which covers the Pension Fund and applies to all employers participating in the Fund. The FSS represents a summary of the Fund's approach to funding the liabilities of the Pension Fund

Statement of Investment Principles

The Local Government Pension Scheme (Management and Investment of Funds) (Amendment) Regulations 2009 require pension fund administering authorities to prepare, maintain and publish a statement of the principles governing their decisions on the investment of the pension fund.

The areas covered in the statement of investment principles are as follows –

- Types of investments to be held.
- Balance between different types of investments.
- Risk.
- Expected return on investments.
- Realisation of investments.
- The extent to which social, ethical and environmental considerations are taken into account.
- The extent to which the Council complies with the 6 Myners principles of investment practice (2008).

Governance Compliance Statement

This sets out the Pension Fund's compliance with the Governance Compliance Statement on best practice showing where the Fund is compliant or not compliant with best practice and the reasons why it may not be compliant.

Annual Report and Accounts

As part of the financial standing orders it is the duty of the Finance Director & Resources to ensure that record keeping and accounts are maintained by the Pension Fund. The Pension Fund accounts are produced in accordance with the accounting recommendations of the Financial Reports of Pension Schemes - Statement of Recommended Practice. The financial statements summarise the transactions of the Scheme and deal with the net assets of the Scheme. The statement of accounts is reviewed by both the Pensions Sub-Committee and the Audit Sub-Committee and incorporated in the Statement of Accounts for the Council. Full copies of the Report and Accounts are distributed to employers in the Fund and other interested parties and a copy placed on the website <http://hackney.xpmemberservices.com>. A briefing note prepared from the annual report and accounts of the pension fund is distributed to scheme members annually.

Communication Policy

This document sets out the communications policy of the administering authority and sets out the strategy for ensuring that all interested parties are kept informed of developments in the Pension Fund. This helps to ensure transparency and an effective communication process for all interested parties. A copy of the policy can be found on the Pensions website <http://hackney.xpmemberservices.com>

Discretions Policies

Under the Local Government Pension Scheme regulations, the Administering Authority has a level of discretion in relation to a number of areas. The Administering Authority reviews these policies as appropriate and will notify interested parties of any significant changes. Employing Authorities are also required to set out their discretions policies in respect of areas under the Regulations where they have a discretionary power. Copies of both the Administering Authority and the London Borough of Hackney's Employing Authority Discretions can be found on the website <http://hackney.xpmemberservices.com>

Pension Administration Strategy and Employer Guide

In order to assist with the management and efficient running of the Pension Fund, the Pension Administration Strategy and Employer Guide encompassing administrative procedures and responsibilities for the Pension Fund for both the Administering Authority and Employing Authorities has been distributed to employers within the Fund following consultation and can be found on the website <http://hackney.xpmemberservices.com>. This represents part of the process for ensuring the ongoing efficient management of the Fund and maintenance of accurate data and forms part of the overall governance procedures for the Fund.

Governance Best Practice – Compliance Statement

The Local Government Pension scheme (Administration) Regulations 2008 (as amended) – Regulation 31 and its predecessor, Regulation 73A of the LGPS Regulations 1997 (as amended), requires Local Government Pension Scheme (LGPS) Administering Authorities to measure their governance arrangements against the standards set out in the Statutory Guidance issued by the Communities and Local Government Department.

The following compliance statement has been approved by the Corporate Director of Finance & Resources. This sets out where the Pension Fund is compliant with the guidance and where it is not compliant provides an explanation for non-compliance.

The Council’s Constitution delegates the Council’s functions relating to local government pensions to the Pensions Sub-Committee within its terms of reference: sections 3.2.9 and the Table at 3.2.14. The Terms of Reference for the Pensions Sub-Committee are broad and are set out in full in the Governance Policy above.

All other functions are delegated to the Corporate Director of Finance and Resources. The Chief Executive and all Corporate Directors may take decisions on the exercise of discretion in individual cases, provided that this is in consultation with the Corporate Director Legal and Democratic Services, the Corporate Director Finance and Resources and the Assistant Director Human Resources and Organisational Development.

Structure

a. The management of the administration of benefits and strategic management of fund assets clearly rests with the main committee established by the appointing council. *Fully compliant – Council Constitution delegates responsibility for the Pension Fund to the Pension Sub-Committee in respect of these matters.*

b. That representatives of participating LGPS employers, admitted bodies and scheme members (including pensioner and deferred members) are members of either the main or secondary committee established to underpin the work of the main committee. *Fully compliant – Employer and Scheme member representatives are appointed to the Pension Sub-Committee*

c) That where a secondary committee or panel has been established, the structure ensures effective communication across both levels. *Fully Compliant – no secondary committee.*

d) That where a secondary committee or panel has been established, at least one seat on the main committee is allocated for a member from the secondary committee or panel. *Fully Compliant – no secondary committee.*

* Please use this space to explain the reason for non-compliance (regulation 73A(1)(c)/1997 Regulations/regulation 31(3)(c)/2008 Regulations)

Please use this space if you wish to add anything to explain or expand on the ratings given above :-

Decision taken by Committee not to hold a secondary committee, employer and scheme member representatives to participate at main Committee.

Representation

a) That all key stakeholders are afforded the opportunity to be represented. within the main or secondary committee structure. These include :-

- i) employing authorities (including non-scheme employers, eg, admitted bodies);
- ii) scheme members (including deferred and pensioner scheme members),
- iii) where appropriate, independent professional observers, and
- iv) expert advisors (on an ad-hoc basis).

Fully Compliant – (i) Employing authorities are represented by an employer representative with responsibility for representing the interests of all employers participating in the Fund. (ii) Scheme members are represented by an individual with responsibility for representing the interest of all Scheme members. (iii) At this stage the Pensions Sub-Committee has been determined that there is no requirement for an independent professional observer. (iv) Expert advisers – investment consultant participates at all meetings of the Committee, where necessary other expert advisors are invited to attend as and when required.

b) That where lay members sit on a main or secondary committee, they are treated equally in terms of access to papers and meetings, training and are given full opportunity to contribute to the decision making process, with or without voting rights. *Fully Compliant – All members are sent Committee papers ahead of meetings, are invited to training and are able to fully contribute to the decision making process.*

Key:

P = Present

A = Absent

Training

Training was provided to the Committee with a dedicated time slot at the Committee meetings. The topics covered in the training programme for the Committee in 2012/13 were provided in line with the Knowledge and Skills Framework to help ensure that the Committee are able to achieve high levels of the specialist knowledge required of them. Topics covered during the financial year were:

- Economy (KSF 5)
- Derivatives (KSF 5)
- Risk Management (KSF 1, 3, 4, 5 & 6)

- Longevity Monitoring (KSF 6)
- Actuarial Methods Standards & Practices (KSF 6)

Governance Issues – Management of Conflict of Interest

Prior to the commencement of Committee meetings, Committee members are required to make declarations of interest in relation to membership of the Local Government Pension Scheme and relationship to any employer bodies within the Pension Fund. Further declarations are required as and when agenda items arise where a member may have an interest.

A legal officer is present at the Committee meetings to provide guidance on legal matters and is also required to comment on other items where there could be conflicts of interest.

London Borough of Hackney Pension Fund

Communications Policy Statement

 **Hackney**

Communications Statement

This document sets out the Communications Policy of the Administering Authority of the London Borough of Hackney Pension Fund as required under the Local Government Pension Scheme (Administration) Regulations 2008.

Objectives

The aim of this communications strategy is to make sure that all stakeholders are kept informed of developments within the Pension Fund. We want to ensure transparency and an effective communication process will help to maintain the efficient running of the Scheme. Regulations require each Administering Authority to prepare, maintain and publish a statement setting out their policy on communicating with the following stakeholders and organisations:

- Contributing Scheme Members – active members
- Deferred Scheme Members
- Pensioner Scheme Members and Dependants
- Prospective Scheme Members
- Admitted and Scheduled Scheme Employers participating in the Fund
- Elected Members (Trustees)
- Other Bodies

Communications Methodology

The administering authority has at its disposal a wide range of options for communicating with the diverse groups that it needs to serve. The method of communication will vary depending on what needs to be communicated and to whom. The methods used by the Administering Authority to communicate with all interested parties are detailed below.

General Communications

We use paper-based communication as our main means of communicating however we compliment this by use of electronic means such as our website: <http://hackney.xpmemberservices.com> and the secure portal 'Sharefile'.

We will accept some communications electronically and will respond electronically where possible. For security reasons, we will not use email for communicating sensitive information or where it is necessary to verify the address or identity of the sender

- **Pension Scheme Administrators** – The Fund's administrators, Equiniti Paymaster (EP), will assist with the overall administration of the scheme to ensure the smooth operation of the administrative function.

They can be contacted via the helpline number - 01293 603085 or by email:

For Members of the scheme - [http://hackney.pensions@equiniti.com](mailto:hackney.pensions@equiniti.com)

For Administration staff – [http:// hackney.employers@equiniti.com](mailto:hackney.employers@equiniti.com)

- **Website** – Communication in the form of a dedicated Pension Fund website is available which contains a wide range of information for not only scheme members but also scheme employers and other interested parties. The website can be accessed via <http://hackney.xpmemberservices.com>. The website contains copies of scheme guides, copies of newsletters and other relevant information pertaining to the LGPS
- **Policy Documents** – These are available for all stakeholders to access either on the website at <http://hackney.xpmemberservices.com>, in hard copy or electronically on application. Copies of all policy documents are held within the Financial Services Section, Finance and Resources Directorate.
- **Posters** – These will be designed to help those who are both members and non-members of the LGPS, to understand the full range of benefits when participating in the scheme, and providing guidance on how to obtain more information and also how to join the scheme.
- **Council Intranet** – Updates on the scheme and any other relevant news in regards to LGPS is available through communication updates via the Council intranet.

Branding

As the pension fund is administered by Equiniti Paymaster (EP), all literature and communications will include the branding of the London Borough of Hackney and EP.

Policy on Communicating with Contributing (active) Scheme Members, Deferred and Pensioner Members

All members of the Scheme (active, deferred and pensioner members) will be kept informed about their benefits, developments in the Scheme and any changes to the scheme of a regulatory or operational nature. This includes consultation with representative groups as required.

- **Scheme Guides** – There are scheme guides available for members setting out the conditions of membership and main scheme benefits that apply under the Local Government Pension Scheme (LGPS). A copy of these will be provided to new employees of the scheme and at other times on request. The scheme guides also form part of the Pension Fund website <http://hackney.xpmemberservices.com> which is available for any member to access.
- **Member Self-Service** – Via the Funds website, all scheme members can securely access their pension details held on the pension administrator's database. This facility allows scheme members to check their personal details and advise the administrators of any changes. It also has the ability for scheme members to produce an estimate of their potential LGPS benefits due to them at retirement. Pensioner members will be able to view payslips and P60's and their address details.
- **Annual Benefit Statements** – Active and deferred scheme members are entitled to an annual benefit statement detailing the benefits that they might expect at normal retirement date (65). These are issued annually and would normally be issued within 8 months of the financial year end (31st March), but ultimately by the end of the following financial year end. These contain vital information for scheme members and enable individuals to make informed choices about their retirement options.
- **Pension Surgeries** – Located at Keltan House, the Pension Liaison Officer is easily contactable by email, telephone, or letter. It is also possible to arrange a one-to-one meeting to discuss the benefits and options available to members.
- **Pension Roadshows/Presentations** – Roadshows and presentations are used to target specific topics or when major scheme changes occur, enabling all members of the LGPS to have access to information. General meetings and presentations will be held at intervals to communicate the benefits and options available to scheme members and prospective members.
- **Pre-retirement seminars** – Presentations on the scheme and benefit choices at pre-retirement seminars that are facilitated by HR, to help scheme members approaching retirement prepare for the financial and lifestyle changes retirement brings.
- **Newsletters** – These will be sent to scheme members to communicate changes in regulations, developments in the fund and to inform members of changes in policy. The exact timing and nature of these newsletters will vary depending on what developments are taking place. However if there are regulatory changes which are likely to impact on individuals benefits or scheme membership in any significant way, then newsletters will be sent to members in sufficient time for them to be able to act upon that information. An annual accounts newsletter is sent to all scheme members providing information on the state of the fund, performance of the fund and any major changes which have taken place during the year.
- **Pensioner Payslips** – All pensioners receive a payslip each month along with their P60 at the end of the year.
- **Pension Increase notifications** – The notification of the annual increase to pensioner benefits is sent out to every member in receipt of a pension each April.

- **Certificates of Continued Entitlement to Pensions (Life Certificates)** – The Fund will undertake an annual exercise, conducted through correspondence, in order to establish the continued existence of the following pensioners:
 - All pensioners living abroad (outside the UK).
 - Those over the age of 80
 - Those pensioners receiving pension benefits by cheque
 - Those retired on ill health grounds.

This exercise will also be undertaken every 3 years to establish the continued existence of ALL members in receipt of a pension.

- **Pension Fund Report and Accounts Summary** – This provides a summary of the Pension Fund during the financial year and will be distributed annually to scheme members

Policy on Communicating with Prospective Scheme Members

We will make information available to all prospective scheme members, new employees and prospective employees. We will also provide information to those employees who may choose not to join the scheme at the start of their employment or who choose to opt out of the scheme during employment, thereby ensuring that individuals are making an informed decision before opting out of the scheme

- **Initial Contact** - All permanent new members of staff are automatically enrolled to the LGPS. Each new member is sent a welcome letter statutory notice by the pension administrators confirming their membership of the LGPS along with a scheme guide.
- **Induction seminars** – Presentation on the scheme and its benefits at the weekly induction seminars for all new employees of the Council, which are facilitated by HR, providing prospective new members of the scheme information in order for them to make an informed decision in regard to membership of the scheme.
- **Pension Liaison Officer** – Located at Keltan House, the Pension Liaison Officer is easily contactable by email, telephone, or letter. It is also possible to arrange a one-to-one meeting to discuss the benefits and options available to prospective members.
- **Scheme Guides** – There are scheme guides available for prospective members setting out the conditions of membership and main scheme benefits that apply under the Local Government Pension Scheme (LGPS). A copy of these will be provided to new employees and prospective members of the scheme and at other times on request. The scheme guides also form part of the Pension Fund website <http://hackney.xpmemberservices.com> which is available for any member to access.

Policy on Communicating with Admitted and Scheduled Scheme Employers participating in the Fund

We will keep employers in the Pension Fund informed about developments in the Scheme and consult on changes to the Scheme as required. Potential scheme employers will also have access to information about the Pension Fund to ensure that they are fully informed in their relationship with the Council.

- **Employer Guide** – This is a guide for scheme employers outlining the details of the scheme and the administrative arrangements for the scheme. This has been distributed to all employers in the scheme and all new employers will receive copies. Training on procedures in relation to the employer guide is also available upon request.
- **Employer Seminars/Meetings** – Annual employer forums are held to update employers of relevant current issues, policy changes and investment updates. Further seminars/meetings will be held as appropriate to communicate changes in policy within the Scheme or to discuss major issues affecting all employers such as the triennial actuarial review. Individual meetings with separate employers will be held annually or as required. Employers will also be notified in writing of any changes which affect them or the way that the scheme is administered.
- **Secure Portal** – The Fund has a secure portal ‘Sharefile’ which facilitates the transfer of sensitive information and data between the Fund and Employers electronically. Access rights are strictly controlled by the pension administrators, Equiniti Paymaster
- **Website** – The website has a section for Scheme Employers and is used to distribute detailed information on procedures which must be followed to administer the LGPS and holds a wide range of information in regard to Employer Guides, pension forms, newsletters and policies. The website can be accessed via <http://hackney.xpmemberservices.com>.
- **Pensions Administration Strategy** – The administration strategy sets out the roles and responsibilities of the Administering Authority (the London Borough of Hackney), the third party administrator and employers in the Pension Fund and can be found on the website at: <http://hackney.xpmemberservices.com>. It sets out the service level agreement and targets which all are expected to meet.
- **Employer Training** – The Fund offers all Scheme Employers training on the LGPS and their role in the administration of the scheme. This covers the full range of administrative and regulatory duties under the scheme regulations.
- **Annual Report and Accounts** – This contains details of the Pension Fund during the financial year, income and expenditure as well as other related details. This is a detailed and lengthy document and will therefore not be routinely distributed, except to employers participating in the Fund or on request. The full document will be published on the website at <http://hackney.xpmemberservices.com>.

Policy on Communicating with Elected Members

Information will be provided to Council Members in order for them to be able to fulfil their duties under the role of administering authority.

- **Access to Pensions Sub-Committee** – The Pensions Sub-Committee is the Committee which has delegated power to review, administer and monitor the Pension Fund. The Committee meets four times a year or more frequently, as required. Meetings are open to members of the public although there may be occasions when members of the public are excluded due to the confidential nature of matters under discussion. The agenda, reports and minutes of the meetings are available on the Council's website at <http://www.hackney.gov.uk/l-mayor-cabinet-councillors.htm>
- **Committee Reports** – Reports to Pensions Sub-Committee and to other Committees as necessary, for example Regulatory Committee and Cabinet, ensures that Council Members are kept informed of developments in relation to Pension Fund issues and the impact that these can have on overall Council policies and procedures

Policy on Communicating with Other Bodies

There are a number of other interested parties with whom we will communicate with as required, this includes:

- **The Department for Communities and Local Government (DCLG)** – regular contact with DCLG as regulator of the scheme, participating and responding to consultations.
- **Trade Unions** – we will work with relevant trade unions to ensure the Scheme is understood by all interest parties. Efforts will be made to ensure all pension related issues are communicated effectively with the trade unions.
- **Employer Representatives** - we will work with relevant employer representative bodies to ensure that the Fund's view are represented to employer groups.
- **Pension Fund Investment Managers, Advisers and Actuaries** –
 - Regular meetings with the Fund Managers who invest funds on behalf of the Fund.
 - Regular meetings with Investment Advisers who provide help and advise on the asset allocation and investments of the Fund
 - Regular meetings with the Actuary to discuss funding levels, employer contributions and valuation of the assets and liabilities of the Fund
- **Pension Fund Custodian** – The Funds Custodian is State Street, who ensures the safekeeping of the Funds investment transactions and all related share certificates.
- **AVC Provider** – Additional Voluntary Contributions (AVC) are a way to top up your pension benefits and tax free lump sum, and are held and invested separately from the LGPS. The Funds preferred AVC provider is Prudential

- **National Association of Pension Funds (NAPF)** – The Fund is a member of NAPF, which provides an opportunity for administering authorities to discuss issues of common interest and share best practice.
- **Local Authority Pension Fund Forum (LAPFF)** – The Fund is a member of LAPFF which was established to help local authority funds share information and ideas about socially responsible investing.
- **London Pension Officers Group (LPOG) & London Pension Officers Forum (LPOF)** – the Fund is a member of these groups. Meetings are held on a quarterly basis to share information and ensure standardised interpretation of LGPS regulations and best practice.

- **Requests for Information (FOI)** - Requests for information either under the Freedom of Information Act or otherwise, will be dealt with as openly and swiftly as allowed providing that such information does not breach confidentiality.

- **Consultations** – There are occasions when the administering authority will consult with interested parties either as a result of potential changes to the regulations governing the LGPS or specific policy changes relating to the London Borough of Hackney Pension Scheme. In these instances, the most effective way of communicating with interested parties is to hold a period of consultation, during which, they are given the opportunity to respond to specific changes. Interested parties and representative groups will be approached to provide feedback to the policy changes before amendments are enacted.
- **Minority Groups** – It is recognised that there may be occasions when some minority groups may not be able to access all the information available to others. The Pension Fund will try to ensure that information is available to the widest possible audience and as such will try to ensure that minority groups do have access to information. This is however a developing area, but feedback on how to promote better access for all minority groups is welcome.

Communication Material

The table below shows the Fund communications along with their publication frequency and the format in which they are available to their intended audience.

Communication Material	Paper form	Electronic form	Website	Frequency	Intended Audience (active, deferred, pensioner, prospective members, employers or ALL)
Annual Benefit Statements				Annually – September/October	Active, Deferred
Annual Newsletter				Annually – September/ October	ALL

**Pension Fund Annual Report and Accounts
2012 - 13**

Pension Updates				When details available	Active, Prospective, Employers
Newsletters				As required	ALL
2014 Scheme Changes				When details available	ALL
Scheme Guides				When requested	ALL
Induction Sessions				Weekly	Prospective
Pre-Retirement Seminars				As required	Active
Employer Forum				Annually - November	Employers
Pensions Administration Strategy				Annually – February/March	Employers
Communications Policy Statement				Annually - February/March	ALL
Full Report & Accounts				Annually - November	ALL
Summary Report & Accounts				Annually - November	Active, Deferred, Pensioner
Statement of Investment Principles				Annually - February/March	ALL
Ad-Hoc Queries				Within set timescales	ALL
Auto-Enrolment (AE)/ Workplace Pensions				September 2012 onwards	Actives, Employers

Feedback

The Fund welcomes comments and feedback from scheme members, scheme employers, prospective members and other interested parties. The mechanisms for feedback include consultation periods, direct communication with the scheme administrators and direct communication with the Financial Services Section. Contact details are provided below for the relevant departments.

General administrative queries relating to pension scheme membership issues, should be addressed to:

London Borough of Hackney Pensions

Equiniti Paymaster

Russell Way

Crawley

West Sussex

RH10 1UH

Tel No,: 01293 603085

Email:

For members of the scheme - <http://hackney.pensions@equiniti.com>

For Administration staff – <http://hackney.employers@equiniti.com>

For other queries and feedback issues:

Financial Services Section

Finance and Resources Directorate

Keltan House

89-115 Mare Street

London

E8 4RU

Email: pensions@hackney.gov.uk

Review Process

This policy document will be reviewed and updated as required, when there are significant changes to be made and if appropriate will be consulted upon with the relevant stakeholders.

Communications Policy – Reporting 2012-2013

Scheme Member Communications

Scheme Presentations

Pension induction sessions for new employees have been held throughout the year both for the main employer, the London Borough of Hackney and Hackney Homes. Other ad hoc scheme presentations have been undertaken in schools and with other employers as required. In addition presentations have been provided at pre-retirement courses to support employees with their move into retirement. Feed back from the presentations is reviewed regularly and is overwhelmingly positive.

Scheme members have also been offered the opportunity to seek individual appointments with a pension specialist and this continues to be popular with an average of around 5 such sessions occurring each week.

Annual Benefit Statements

Annual benefit statements have been provided to 5,456 active members, 4,803 deferred members and 46 Councillors (active and deferred).

Annual Newsletter

An annual newsletter is distributed to all scheme members, including deferred and active members. This was sent out with Annual Benefit Statements and again included information about the scheme changes along with an update on the Fund itself.

Employer Communications

Employer Forum

An employer forum was held in December which included a presentation on the economy from one of the Fund's investment managers, an update from the Pension Fund actuarial adviser, the pension administrators along with presentations from Pension Fund officers.

General Communications

The Fund responded to a consultation issued by CLG concerning proposed scheme changes to come into effect in 2014.

Pensions Liaison Officer

The Pension Liaison Officer has been active throughout the year in communicating with individual scheme members, employers and payroll providers to improve the level of service provided by the Administering Authority.

London Borough of Hackney Pension Fund

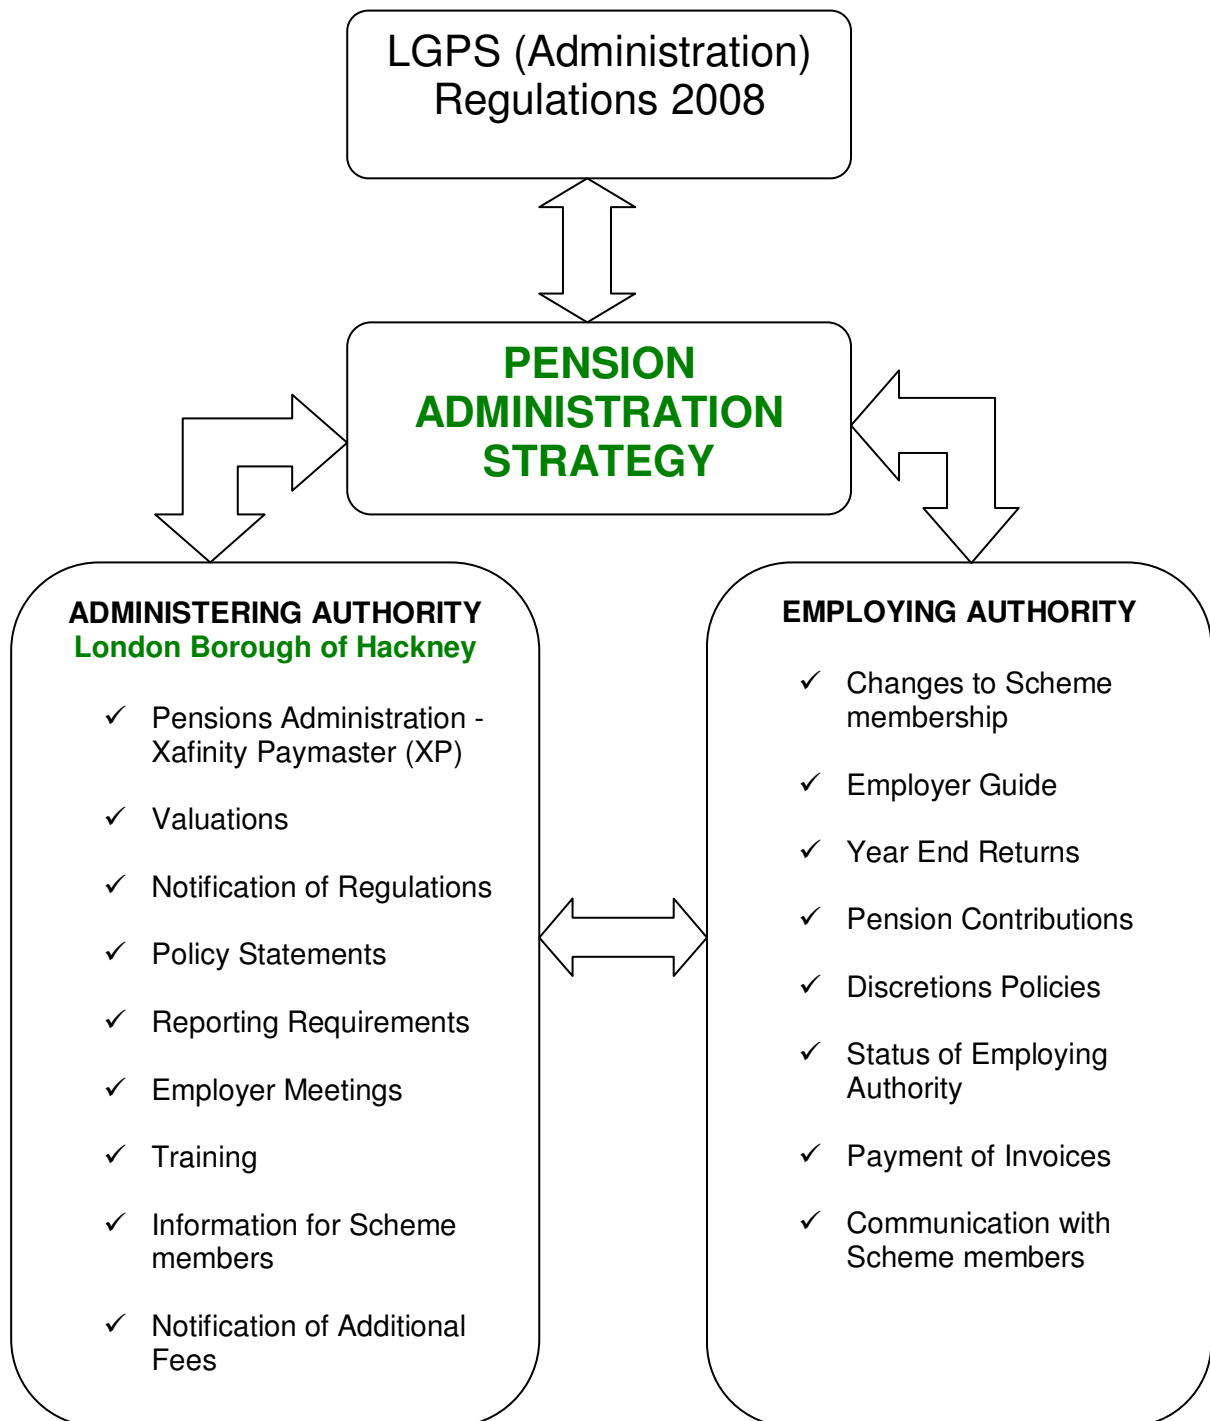

Pensions Administration Strategy

 **Hackney**

INTRODUCTION

This is the Administration Strategy Statement of the London Borough of Hackney Pension Fund (the Fund) in relation to the Local Government Pension Scheme (LGPS - the Scheme), which is administered by the London Borough of Hackney (LBH) and Equiniti Paymaster (EP). Below is a diagram showing the roles and responsibilities of the parties in the administration of the scheme

Aims

The aim of this Pension Administration Strategy is to set out the quality and performance standards expected of the Fund and its scheme employers. The Administration Strategy will assist in clarifying the roles and responsibilities of both the Administering Authority and the Employing Authorities, i.e. those employers who participate in the Pension Fund. Effective and efficient administration of the pension fund is beneficial to all stakeholders in the Pension Fund, the Administering Authority, employers and scheme members. The following are some of the benefits to be had from having efficient pension scheme administration; the list is by no means exhaustive and is not in order of importance.

For the Administering Authority, effective administration means:

- It can fulfil its obligations under the regulations for administering the pension scheme
- Lower costs, improved use of resources
- Easier and swifter provision of services to employers and scheme members
- Improved communication between Administering Authority, employers and scheme members
- Improved monitoring of performance
- Clean data enabling faster and more accurate monitoring of the Pension Fund by the Fund actuaries
- Improved decision making in relation to policies and investments

For Employing Authorities, effective administration means:

- Greater understanding of the Pension Fund and its impact upon them as an employer
- Lower costs
- Improved communication
- Employee satisfaction
- Improved decision making for budgeting
- Fulfilling its obligations as an Employing Authority under the LGPS regulations

For Scheme members, efficient administration means:

- Accurate records of their pension benefits
- Earlier issuance of annual benefit statements
- Faster responses to their pension record queries
- Faster access to benefits at retirement
- Improved communications
- Enhanced understanding of the pension scheme and the benefits of being a member

Setting out the expectations of the Administering Authority and Employing Authorities will help to ensure that both parties are aware of their roles and responsibilities in relation to the administration of the pension scheme. Both employer and administrator are dependent on the other for effectual communication and accurate flows of information without which the pension scheme cannot be administered effectively. The scheme members are reliant on both the employer and the administrator to ensure that their pension records are accurate and that they are well informed.

The Pension Administration Strategy is not meant to supersede existing procedures or policies but to complement them. The Admission Agreement or Protocol sets out some basic requirements of both the Administering Authority and the employer and the Employer Guide sets out in detail how to carry out day to day administration of the Pension Fund within the employer's site.

Implementation

The Administration Strategy is effective from 1 April 2013.

Regulatory basis

The Scheme is a statutory scheme, established by an Act of Parliament. The following regulations governing the Scheme are shown below:

- Local Government Pension Scheme (Benefits, Membership and Contributions) Regulations 2007 (as amended)
- Local Government Pension Scheme (Administration) Regulations 2008 (as amended)
- Local Government Pension Scheme (Transitional Provisions) Regulations 2008 (as amended)

Regulation 65(1) of the Local Government Pension Scheme (Administration) Regulations 2008 enables a Local Government Pension Scheme Fund to prepare a document ("the pension administration strategy") as one of the tools which can help in delivering a high quality administration service to its scheme members and other interested parties.

In addition, regulation 43 of the Administration Regulations allows a fund to recover additional costs from a scheme employer where, in its opinion, they are directly related to the poor performance of that scheme employer. Where this situation arises the fund is required to give written notice to the scheme employer, setting out the reasons for believing that additional costs should be recovered, the amount of the additional costs, together with the basis on which the additional amount has been calculated.

ADMINISTRATION IN THE LONDON BOROUGH OF HACKNEY

Responsibility

The London Borough of Hackney has delegated responsibility for the management of the Pension Fund to the Pension Sub-Committee. The Pension Sub-Committee will monitor the implementation of this Administration Strategy on an annual basis.

Objective

The Fund's objective in relation to administration is to deliver an efficient, quality and value for money service to its scheme employers and scheme members.

Operationally the administration of the Fund is partly outsourced to Equiniti Paymaster and partly carried out by Council staff. The Council and Equiniti Paymaster staff work together to provide a seamless service to scheme employers and scheme members.

Communications

The Fund has published a Communication Strategy Statement, which describes the way the Fund communicates with scheme members, scheme employers and other stakeholders. The latest version is accessible from the Fund website

<http://hackney.xpmemberservices.com>

The table below summarises the current methods the Fund uses to communicate:

Website http://hackney.xpmemberservices.com	Information about the Fund, the LGPS, administrative procedures, policies and forms for use
Newsletters	Annual newsletter and additional newsletters issued as may be necessary to highlight new issues and forthcoming events
Employer meetings	Held annually to provide Employers with a forum to address the Fund's staff and advisers
Helpline	01293 603085
E-mail addresses: For the Equiniti Paymaster team: Hackney.pensions@equiniti.com For the London Borough of Hackney team: pensions@hackney.gov.uk	To answer day to day questions about administering the Scheme
Individual Employer meetings	Offered to Employers who need advice about how to carry out the day to day administration of the Scheme

Pension Fund Annual Report and Accounts
2012 - 13

Annual Benefit Statements	Sent to active and deferred scheme members
Individual Scheme member meetings	1-2-1 meetings available with a member of the Pensions team as required
Pension Presentations	Presentations to staff, managers, new employees, etc on pension related matters

PERFORMANCE STANDARDS

The Scheme prescribes that certain decisions be taken by either the Fund or the scheme employer, in relation to the rights and entitlements of individual scheme members. In order to meet these obligations in a timely and accurate manner, and also to comply with overriding disclosure requirements, the Fund has agreed levels of performance between itself and scheme employers which are set out below:

Overriding legislation

Scheme employers will, as a minimum, comply with overriding legislation, including:

- Local Government Pension Scheme Regulations
- Pensions Act 2004 and associated disclosure legislation
- Freedom of Information Act 2000
- Equality Act 2010
- Data Protection Act 1998
- Finance Act 2012
- Relevant Health and Safety legislation
- Any other legislation that may apply at current time

Internal quality standards

The Fund and scheme employers will ensure that all functions and tasks are carried out to agreed quality standards. In this respect the standards to be met are:

- compliance with all requirements set out in the Employers' Guide
- all information required by the Fund to be provided in the required format and/or on the appropriate forms referred to in the Employers' Guide which are accessible from the Fund website at <http://hackney.xpmemberservices.com>
- information to be legible and accurate
- communications to be in a plain language style
- information provided to be checked for accuracy by an appropriately qualified member of staff
- information provided to be authorised by an appropriate officer
- actions carried out, or information provided, within the timescales set out in this Administration Strategy.

Timeliness

Overriding legislation dictates minimum standards that pension schemes should meet in providing certain pieces of information to the various parties associated with the Scheme. The Scheme itself sets out a number of requirements for the Fund and scheme employers to provide information to each other, scheme members and prospective scheme members, dependants, other pension arrangements or other regulatory bodies. The following sections on responsibilities set out the locally agreed timescales for these requirements.

FUND RESPONSIBILITIES

The London Borough of Hackney is the Administering Authority of the London Borough of Hackney Pension Fund and has delegated powers to the Pensions Sub-Committee to oversee the management of the Pension Fund. The role of the Administering Authority is to administer the Pension Fund and act as a quasi trustee body for the management of the Pension Fund.

This section outlines the key responsibilities of the Fund and the performance standards scheme employers and scheme members should expect. It is focussed on the key activities which scheme employers and scheme members are involved in and should not be viewed as a complete list of all activities. It includes the performance standards that the Administering Authority has agreed with the pension administrators, Equiniti Paymaster (EP).

Function/Task	Performance Target
Publish and keep under review the Fund's Administration Strategy.	Consult with employers following any significant revisions to the Administration Strategy Notify employers of agreed Strategy within 2 months of being agreed by the Pensions Sub-Committee
Publish and keep up to date the scheme guide and Employers' Guide.	30 working days from any significant revision.
Publish and keep up to date all forms required for completion by scheme members, prospective scheme members or scheme employers.	30 working days from any significant revision.
Upon receipt of accurate information on the appropriate form, the provision of 1 estimate per employee, per year, in relation to retirement of an active member due to age, redundancy, efficiency or flexible retirement	20 working days from date of receipt of estimate request (refer Monitoring Performance & Compliance – page 21)
Host a meeting for all scheme employers.	Annually (usually during February each year).
Organise training sessions for scheme employers.	Upon request from scheme employers, or as required.
Notify scheme employers and scheme members of changes to the scheme rules.	Within two months of the change(s) coming into effect.
Notify a scheme employer of issues relating to the scheme employer's unsatisfactory performance.	As soon as a performance issue becoming apparent.
Notify a scheme employer of	

decisions to recover additional costs associated with the scheme employer's unsatisfactory performance (including any interest that may be due).	Within 10 working days of scheme employer's failure to improve performance, as agreed.
Carry out interim valuation exercises on cessation of admission agreements or a scheme employer ceasing participation in the Fund.	Upon each cessation or occasion where a scheme employer ceases participation on the Fund.
Arrange for calculation of FRS17 valuations for employers as required	Within 10 working days from receipt of results from the Fund's actuary
Arrange for the setting up of separate admission agreement, where required (including the allocation of assets and notification to the Secretary of State).	Within 3 months of agreement to set up
Publish, and keep under review, the Fund's Governance Policy Statement.	Within 30 working days of policy being agreed by the Pensions Sub-Committee.
Publish and keep under review the Fund's Funding Strategy Statement.	To be reviewed at each triennial valuation, following consultation with scheme employers and the Fund's actuary. Revised statement to be published at the same time as the final valuation report is issued.
Publish the Fund's Annual Report and Accounts and any report from the auditor.	By 30 September following the year end or following the issue of the auditor's opinion
Publish and keep under review the Fund's Communications Policy Statement.	Within 30 working days of policy being agreed by the Pensions Sub-Committee
Publish and keep under review the Fund's Statement of Investment Principles.	Within 30 working days of policy being agreed by the Pensions Sub-Committee
Publish and keep under review the Administering Authority Discretions Policies	Within 30 working days of policy being agreed by the Pensions Sub-Committee
Issue annual benefit statements to active and deferred members as at 31 March each year.	By the following 31 st March at the latest.
Issue formal valuation results (including individual employer details).	10 working days from receipt of results from the Fund's actuary (but in any event no later than 31 March following the valuation date).

Fund Administration

This details the functions which relate to the whole Fund, rather than individual scheme members' benefits

EQUINITI PAYMASTER SERVICE STANDARDS AGREEMENT

The following provisions apply to the operation of the Service Standards in relation to Services provided: -

- All Service Standards are quoted in Working Days unless otherwise indicated.
- All Service Standards are net of any third party action and from receipt of correct data/information.

(1) Administration Services

Category	Task	Actions	Service Standards
Calculations – Active Members	Refund of Contributions	Provide a statement of contributions and a refund cheque	10 days from receipt of complete data
	Deferred Benefits	Provide a statement of deferred benefits.	10 days from receipt of complete data
	Early retirement of active member	Provision of early retirement quotation.	10 days from receipt of request for quotation.
		Finalisation of retirement and issue of tax-free cash sum.	5 days from receipt of complete data.
	Ill health retirement of active member	Provision of Ill health retirement quotation.	10 days from receipt of request for quotation.
Finalisation of retirement and issue of tax-free cash sum		5 days from receipt of confirmation that retirement has been approved and is to proceed.	
Normal Retirement of Active member	Provision of a provisional statement of retirement benefits	3 months prior to member's NRD	
	Provision of final statement of benefits.	10 days from receipt of complete data.	
	Finalisation of retirement and issue of tax-free cash sum	5 days from receipt of complete data.	

Category	Task	Actions	Service Standards
Calculations Active Members cont'd....	Retirement of Active member due to redundancy	Provision of retirement quotation. Finalisation of retirement and issue of tax-free cash sum	10 days from receipt of request for quotation. 5 days from receipt of complete data
	Late retirement of active member	Provision of retirement quotation. Finalisation of retirement and issue of tax-free cash sum	10 days from receipt of request for quotation 5 days from receipt of complete data
Deferred Members	Early Retirement of Deferred member	Provision of early retirement quotation. Finalisation of retirement and issue of tax-free cash sum.	10 days from receipt of request for quotation. 5 days from receipt of complete data
	Normal Retirement of Deferred Member	Provision of a provisional statement of retirement benefits Provision of final statement of benefits Finalisation of retirement and issue of tax-free cash lump sum.	3 months prior to member's NRD 10 days from receipt of request for quotation 5 days from receipt of complete data
	Ill health retirement of Deferred Member	Provision of Ill health retirement quotation. Finalisation of retirement and issue of tax-free cash sum	10 days from receipt of confirmation that retirement has been approved and is to proceed. 5 days from receipt of complete data
	Late Retirement of a Deferred Member	Provision of retirement quotation. Finalisation of retirement and issue of tax-free cash sum	10 days from receipt of request for quotation. 5 days from receipt of complete data
Ad Hoc Quotations	Ad-hoc quotation requests	Provision of quotation as requested	10 days from receipt of request for quotation

Category	Task	Actions	Service Standards
Transfer Values	Transfer In Quotation	Obtain transfer details. Calculate and provide quotation to member.	10 days from receipt of request for quotation 20 days from receipt of complete data
	Acceptance of Transfer In	Request Transfer Value. Establish benefits and record.	5 days from receipt of confirmation that TV is to go ahead 10 days from receipt of transfer cheque
	Transfer Out Quotation	Provision of details of Transfer Value available to member	10 days from receipt of request for quotation
	Payment of Transfer Value	Provision of payment for transfer value to nominated recipient	5 days from receipt of confirmation that the transfer value is to be paid
	Divorce proceedings	Earmarking Order received, Pension sharing Order	5 days from receipt of order
Deaths	Active Member – Death in Service	Calculation of death benefits. Establishment of beneficiaries. Payment of death benefits as directed.	5 days from receipt of notification of death 1 day from instruction to pay
	Deferred Member – Death in Deferment	Calculation of death benefits. Establishment of beneficiaries. Payment of death benefits as directed.	5 days from receipt of notification of death 1 day from instruction to pay
	Pensioner – Death in Retirement	Calculation of death benefits. Establishment of beneficiaries. Payment of death benefits as directed.	5 days from receipt of notification of death 1 day from instruction to pay
	Death of Spouse	Calculation of death benefits. Establishment of beneficiaries. Payment of death benefits as directed.	5 days from receipt of notification of death 1 day from instruction to pay

Category	Task	Actions	Service Standards
Data	Maintenance of database	Amendment of member records and issue of acknowledgement	10 days from receipt of notification of change to data.
	Cheque Receipt	Acknowledgement of receipt of cheque	1 day from receipt of cheque
	New Entrant	Addition of new member to database. Issue of letter of acknowledgement.	10 days from receipt of completed application form.
	Annual Pension increases	Calculation of increases Notification to pensioners	For implementation on scheduled payment date Not more than one month before scheduled payment date.
AVCs	AVC Set Up	Establishment of AVC record on database. Notification sent to Payroll dept.	10 days from receipt of completed application form.
	AVC Quotation	Provision of an AVC quotation	10 days from receipt of complete data
Valuation	Production of various information	Supply of valuation information to the Actuary.	As agreed with the Client and Actuary.
FRS17 Valuations	Production of various information	Supply of valuation information to the Actuary.	As agreed with the Client and Actuary.
Payroll	Payments	Issue BACS payments to pensioners designated bank accounts	To be received in the designated bank account on the due pay date
		Issue payslips to pensioners' home addresses	To be issued second class post via the Royal Mail so as to be expected to be received at the pensioners' home address on the due pay date
		Undertake relevant investigation for returned payments and action to Pensioner Record and inform Administration when relevant	Within 10 working days of receipt

Category	Task	Actions	Service Standards
Payroll cont...	Payments cont....	Payment of PAYE to HMRC	To be received electronically by the Collection Office by the 22 nd of the month following deduction.
		Pay statutory/voluntary deductions to relevant recipients.	To be issued within one week of the pay date
	Record Amendments	Establish new pensioner record	By first available payment date following date of notification
		General amendments to pensioner records in accordance with instructions provided	By next available payment date

		Respond to third party enquiries in writing	Within 10 working days of receipt
	Year-end	Issue P60s to pensioners	By 31 st May following tax year end
		Issue P35/P14 year end returns to HMRC	By 19 th May following tax year end
Legislation and Regulations	PAYE regulations	All regulations and legislation regarding PAYE will be complied with	
Pension Verification Process	One verification exercise per year to include life certificates, NFI, or any other method which may be agreed	As agreed with the Council	

SCHEME EMPLOYER RESPONSIBILITIES

This section outlines the responsibilities of all scheme employers in the Fund and the performance standards scheme employers are expected to meet to enable the Fund to deliver an efficient, quality and value for money service.

All information must be provided in the format prescribed by the Fund within the prescribed timescales. Information and guidance is provided in the Employers' Guide which is available from the funds web site <http://hackney.xpmemberservices.com>

Function/Task	Performance Target
Confirm a nominated representative to receive information from the Fund and to take responsibility for disseminating it within the organisation.	30 working days of employer joining fund or change to nominated representative.
Formulate and publish policies in relation to all areas where the employer may exercise a discretion within the Scheme (including providing a copy of the policy decision(s) to the Fund).	Within 30 working days of policy being agreed the employer.
Respond to enquiries from the Fund	10 working days from receipt of enquiry.
Attend administration training provided on admission to the Fund.	On agreed date
Pay over employer and employee contributions to the Fund and provide schedule of payments in the format stipulated by the Fund.	Cleared funds to be received by 19 th calendar day of month after deduction.
Implement changes to employer contribution rates as instructed by the Fund.	At date specified on the actuarial advice received by the Fund.
Provide year end information required by the Fund in the format stipulated in the instructions issued to the nominated representative in March each year.	By 30 April following the year end.
Distribute any information provided by the Fund to scheme members/ potential scheme members	Within 15 days of its receipt or on joining the scheme
Notify the Fund if contracting out services which will involve a TUPE transfer of staff to another organisation.	At the time of deciding to tender so that information can be provided to assist in the decision.
Work with the Fund to arrange for an admission agreement to be put in place when contracting out a service and assist in ensuring it is complied with.	Agreement to be in place by the time the service is contracted out.
Function/Task	Performance Target

Provide new/prospective scheme members with a starter form and a scheme guide (or refer them to the Fund website).	5 working days of commencement of employment or change in contractual conditions.
Payment of additional fund payments in relation to early payment of benefits from ill health, flexible retirement, redundancy or business efficiency retirement.	Within 30 working days of receipt of invoice from the Fund.
Ensure payment of additional costs to the Fund associated with the poor performance of the scheme employer.	Within 30 working days of receipt of invoice from the Fund.

Scheme Administration

This section details the functions which relate to scheme member benefits from the Scheme.

Function/Task	Performance Target
Complete a starter form for each new employee admitted to the pension scheme and ensure that the employee completes their element of the process.	15 working days of scheme member joining.
Arrange for the correct deduction of employee contributions from a scheme member's pensionable pay on becoming a scheme member.	Immediately on joining the scheme, opting in or change in circumstances.
Ensure correct employee contribution rate is applied (including the transitional arrangements for former "manual" staff).	Immediately upon commencing scheme membership and in line with the employer's policy and as a minimum in each April payroll thereafter.
Arrange for reassessment of employee contribution rate in line with employer's policy and notify the employee of the change in rate.	Review as per policy and notification within 10 working days of change in rate.
Arrange for reassessment of employee contribution rate in line with employer's policy and notify the employee of the change in rate.	Review as per policy and notification within 10 working days of change in rate.

Function/Task	Performance Target
Arrange for reassessment of employee contribution rate in line with employer's policy and notify the employee of the change in rate.	Review as per policy and notification within 10 working days of change in rate.
Ensure correct deduction of pension contributions during any period of child related leave, trade dispute or other forms of leave or absence from duty.	Immediately, following receipt of election from scheme member to make the necessary pension contributions.
Commence deduction of additional regular contributions or amend such deductions, as appropriate.	Month following election to pay contributions or notification received from the Fund
Cease deduction of additional regular contributions.	Immediately following receipt of election from scheme member.
Arrange for the deduction of AVCs and payment over of contributions to AVC provider(s)	Commence deduction of AVCs in month following the month of election Pay over contributions to the AVC provider(s) by the 19 th of the month following the month of election.
Refund any employee contributions deducted in error.	Month following month of deduction.
Cease deduction of employee contributions where a scheme member opts to leave the Scheme.	Month following month of election, or such later date specified by the scheme member.
Refund employee contributions via payroll where the member has opted out within 3 months and doesn't have previous LGPS membership.	Month following month of election to opt out.
Provide the Fund with details of all contractual changes to scheme members working hours.	20 working days of change.
Notify the Fund of other material changes in employees' circumstances (e.g. marital or civil partnership status)	Immediately following notification by the scheme member of a change in circumstances.
Notify the Fund of leaves of absence with permission (maternity, paternity, career break etc.).	Within 20 working days of notice from employee.
Notify the Fund of leaves of absence without permission (e.g. strike or absent without permission)	Within 20 working days of notice from employee.
Notify the Fund when a scheme member leaves employment including an accurate assessment of final pay.	15 working days of month end of leaving.

Function/Task	Performance Target
Notify the Fund when a scheme member is due to retire including an accurate assessment of final pay and authorisation of reason for retirement.	15 working days before retirement date.
Notify the Fund of the death of a scheme member.	As soon as practicable, but within 5 working days.
Appoint an independent medical practitioner qualified in occupational health medicine, in order to consider all ill health retirement applications and agree appointment with the Fund	Within one month of commencing participation in the scheme or date of resignation of existing medical adviser

MONITORING PERFORMANCE AND COMPLIANCE

Ensuring compliance with the Scheme regulations and this Administration Strategy is the responsibility of the Fund and scheme employers. This section describes the ways in which performance and compliance will be monitored.

Audit

The Fund is subject to an annual external audit of the accounts and, by extension the processes employed in calculating the figures for the accounts, by KPMG. The key findings of their work are presented to the Pensions Sub-Committee in an Annual Governance Report and the Fund is set an action plan of recommendations to implement. In addition the Fund is subject to internal audits by the Council of its processes and internal controls. Any subsequent recommendations made are considered by the Fund and where appropriate duly implemented (following discussions with scheme employers where necessary).

Performance monitoring

The Fund monitors Equiniti Paymaster's performance against the contract with them and the agreed Service Level Agreement. Monitoring occurs on a monthly basis and Equiniti Paymaster are asked to explain variations from agreed Service Level Agreement targets.

Feedback from employers

Employers who wish to provide feedback on the performance of the Fund against the standards in this Administration Strategy should e-mail comments to the following address: pensions@hackney.gov.uk. This will be acknowledged within 5 working days and an investigation of the matter will then be undertaken. Following the investigation a response will be provided to the scheme employer within 15 working days of the initial acknowledgment.

Annual report on the strategy

The Scheme regulations require the Fund to undertake a formal review of performance against the Administration Strategy on an annual basis. This report will be produced annually and included within the Pension Fund Annual Report and Accounts.

Provision of Retirement Estimates

Upon receipt of accurate information on the appropriate form, provision of an estimate will be on the basis of one estimate per employee, per year, in relation to an active member retiring due to age, redundancy, efficiency or flexible retirement.

Any further requests in excess of the above will lead to a charge being levied against the requesting employer of £50 per estimate.

POLICY ON THE RECOVERY OF ADDITIONAL ADMINISTRATION COSTS FROM EMPLOYERS

The Scheme regulations provide pension funds with the ability to recover from a scheme employer any additional costs associated with the administration of the Scheme incurred as a result of the unsatisfactory level of performance of that Scheme Employer. Where a fund wishes to recover any such additional costs they must give written notice stating:

- The reasons in their opinion that the Scheme Employer's unsatisfactory level of performance contributed to the additional cost
- The amount of the additional cost incurred
- The basis on how the additional cost was calculated
- The provisions of the Administration Strategy relevant to the decision to give notice.

Circumstances where costs might be recovered

It is the policy of the Fund to recover additional costs incurred in the administration of the Scheme as a direct result of the unsatisfactory level of performance of any scheme employer (including the Council). This includes the payment of fees levied against the scheme employer.

The circumstances where such additional costs will be recovered from the scheme employer are:

- persistent failure to provide relevant information to the Fund, scheme member or other interested party in accordance with specified performance targets in this Administration Strategy (either as a result of timeliness of delivery or quality of information)
- failure to pass relevant information to the scheme member or potential members, either due to poor quality of information or not meeting the agreed timescales outlined in the performance targets in this Administration Strategy
- failure to deduct and pay over correct employee and employer contributions to the Fund within the stated timescales
- instances where the performance of the scheme employer results in fines being levied against the Fund by the Pension Regulator, Pensions Ombudsman or other regulatory body.

Approach to be taken by the Fund

The Fund will seek, at the earliest opportunity, to work closely with scheme employers in identifying any areas of unsatisfactory performance, provide the necessary training and put in place appropriate processes to improve the level of service delivery in the future. Consideration for seeking additional administration costs where persistent failure occurs and no improvement is demonstrated by a scheme employer would be seen as a failure and will only be taken once the steps described below are taken to resolve the situation:

1. Write to the scheme employer, setting out area(s) of concern and offer training.
2. If no improvement is seen within one month of the training or no response is received to the initial letter, the scheme employer will be asked to attend a meeting with

representatives of the Fund to discuss area(s) of concern and to agree an action plan to address them. Where appropriate, the originating employer will be informed and expected to work with the Fund to resolve the issues.

3. If no improvement is seen within one month or a scheme employer is unwilling to attend a meeting to resolve the issue, the Fund will issue a formal written notice, setting out the area(s) of concern that have been identified, the steps taken to resolve those area(s) and notice that the additional costs will now be reclaimed.
4. An invoice will then be issued to the scheme employer clearly setting out the calculations of any loss resulting to the Fund, or additional cost, taking account of time and resources in resolving the specific area(s) of unsatisfactory performance, in accordance with the fee scale set out in this document.
5. An annual report will be presented to the Pensions Sub-Committee meeting detailing any fees levied against scheme employers and outstanding payments.

Fees for additional administration

The table below sets out the fees which the Fund will levy on a scheme employer whose performance falls short of the standards set out in this document. Each task is referenced to the Employer Responsibilities section. Charging is a last resort and the approach outlined above will be followed before a fee is levied.

Employer Responsibility	Fees
Monthly Contributions - Late payment of employee and employer contributions to the administrators by the 19th calendar day of month following deduction	£60 plus interest*, calculated on a daily basis until contributions received.
Monthly Contributions - Non provision of the correct schedule of payments in the format stipulated by the Fund, accompanying the contributions by the 19th calendar day of month following deduction	£60 per occasion
Change Notifications – failure to notify the administrators of any change to a members working hours, leave of absence with permission (maternity, paternity, career break) or leave of absence without permission (strike, absent without permission) – within 20 days of the change in circumstance.	£60 per form, per occasion
Year End Data – failure to provide year end data by 30th April following the year end or the non provision of year end information or the quality of the year end data is poor requiring additional data cleansing	Initial fee of £250 then a fee of £100 for every month the information remains outstanding
Employer Responsibility	Fees

<p>Year End Data Queries – failure to respond to the administrators requests for information to resolve data queries within the prescribed timescale</p>	<p>Initial fee of £60 per occasion, then a fee of £30 for each month the information requested remains outstanding</p>
<p>New Starter(s) - failure to notify the administrators of new starter(s) and the late or non provision of starter form(s) – within 15 days of employee joining the scheme</p>	<p>Initial fee of £60 per form, then a fee of £30 per form for each month the form(s) remains outstanding</p>
<p>Leaver(s) – failure to notify the administrators of any leaver(s) and the late or non provision of leaver form(s) including an accurate assessment of final pay – within 15 days of employee leaving the scheme or employment</p>	<p>Initial fee of £60 per form, then a fee of £30 per form for each month the form(s) remains outstanding</p>
<p>Retirees – failure to notify the administrators when a scheme member is due to retire 15 working days before the retirement date - including an accurate assessment of final pay and authorisation of reason for retirement.</p>	<p>Initial fee of £60 per form, then a fee of £30 per form for each month the form(s) remains outstanding</p>
<p>Late payment of pension benefits - as a result of the employers failure to notify the administrators of a scheme members retirement, interest becomes payable on any lump sum paid. The administrators will recharge the total amount of interest paid to the employer</p>	<p>Interest is calculated in accordance with regulation 44 of the LGPS Administration Regulations 2008</p>

- Interest will be charged in accordance with regulation 44 of the LGPS Administration regulations, which states interest should be charged at Bank of England Base Rate plus 1%.

SERVICE AND COMMUNICATION IMPROVEMENT PLANNING

As set out earlier in this Administration Strategy, the Fund's objective in relation to administration is to deliver an efficient, quality and value for money service to its scheme employers and scheme members. This can only be achieved through continuously reviewing and improving the service. Communication between the Fund and scheme employers is key to providing the service and is therefore an important aspect of service improvement planning.

Xafinity Paymaster and the Council's in-house staff work together on a programme of continuous improvement to the service.

The monitoring of the performance standards set out in this document will inform the programme going forward and feedback from scheme employers on the service and the way in which the Fund communicates is welcomed in developing plans. Feedback should be e-mailed to: pensions@hackney.gov.uk.

The Fund will take responsibility for improving the service and determining the balance between implementing service improvements and the goal of providing a value for money service for the Fund.

Employers will be informed of any changes to the service provision which affect the way they interact with the Fund.

CONSULTATION AND REVIEW PROCESS

In preparing this Administration Strategy the Fund has consulted with all the scheme employers with active contributors in the Fund. The strategy will be reviewed every 2 years and more frequently if there are changes to the Scheme regulations or requirements. All scheme employers will be consulted before any changes are made to this document.

The latest version of this document can be accessed from the Fund website <http://hackney.xpmemberservices.com>

LOCAL GOVERNMENT PENSION SCHEME (ADMINISTRATION) REGULATIONS 2008

The Regulations in relation to the Pension Administration Strategy are contained in the Local Government Pension Scheme (Administration) Regulations 2008, regulation 65 and are set out below:

65.—(1) An administering authority may prepare a written statement of the authority's policies in relation to such of the matters mentioned in paragraph (2) as it considers appropriate ("its pension administration strategy") and, where it does so, paragraphs (3) to (7) apply.

(2) The matters are—

(a) procedures for liaison and communication with employing authorities in relation to which it is the administering authority ("its employing authorities");

(b) the establishment of levels of performance which the administering authority and its employing authorities are expected to achieve in carrying out their Scheme functions by—

(i) the setting of performance targets,

(ii) the making of agreements about levels of performance and associated matters, or

(iii) such other means as the administering authority considers appropriate;

(c) procedures which aim to secure that the administering authority and its employing authorities comply with statutory requirements in respect of those functions and with any agreement about levels of performance;

(d) procedures for improving the communication by the administering authority and its employing authorities to each other of information relating to those functions;

(e) the circumstances in which the administering authority may consider giving written notice to any of its employing authorities under [regulation 43\(2\)](#) on account of that authority's unsatisfactory performance in carrying out its Scheme functions when measured against levels of performance established under sub-paragraph (b);

(f) the publication by the administering authority of annual reports dealing with—

(i) the extent to which that authority and its employing authorities have achieved the levels of performance established under sub-paragraph (b), and

(ii) such other matters arising from its pension administration strategy as it considers appropriate; and

(g) such other matters as appear to the administering authority, after consulting its employing authorities and such other persons as it considers appropriate, to be suitable for inclusion in that strategy.

(3) An administering authority must—

(a) keep its pension administration strategy under review; and

(b) make such revisions as are appropriate following a material change in its policies in relation to any of the matters contained in the strategy.

(4) In preparing or reviewing and making revisions to its pension administration strategy, an administering authority must consult its employing authorities and such other persons as it considers appropriate.

(5) An administering authority must publish—

(a) its pension administration strategy; and

(b) where revisions are made to it, the strategy as revised.

(6) When an administering authority publishes its pension administration strategy, or that strategy as revised, it must send a copy of it to each of its employing authorities and to the Secretary of State.

(7) An administering authority and its employing authorities must have regard to the current version of any pension administration strategy when carrying out their Scheme functions.

(8) In this regulation references to the functions of an administering authority include, where applicable, its functions as an employing authority.
